

Saturday, April 25, 2026

Pre-Congress Courses

14:00 - 16:30

J1

Beyond palpation - ultrasound for the head and neck surgeon

Anders Hammarström (Trollhättan, Sweden)

Induction**Surgeon-driven ultrasound; presentation of the concept and patient cases illustrating the approach**

14:00 - 14:00

Anders Hammarström (Trollhättan, Sweden)

Mikkel Kaltoft (Copenhagen, Denmark)

Julian Kuenzel (Regensburg, Germany)

Tobias Todsén (Copenhagen, Denmark)

Mathias von Beckerath (Stockholm, Sweden)

Neck Ultrasound by the Surgeon

14:00 - 14:40

Conceptual introduction focusing on surgeon-driven sonoanatomy and preoperative evaluation.**Live demonstration - sonoanatomy of the salivary glands**

14:40 - 15:00

Systematic neck ultrasound with emphasis on key anatomical landmarks and clinically relevant findings.**Hands-on session 1**

15:00 - 15:30

Supervised hands-on training in groups of 3-4 delegates**Break**

15:30 - 15:40

Live demonstration - posterior neck nerve mapping

15:40 - 16:00

Demonstration of ultrasound-guided nerve mapping in the posterior neck region**Hands-on session 2**

16:00 - 16:30

Pre-Congress Courses

14:00 - 16:00

J2

Around the cricopharyngeal muscle

Ahmed Geneid (Helsinki, Finland)

Endoscopic treatment of Zenker's diverticulum and cricopharyngeal stenosis

14:00 - 14:20

Ahmed Geneid (Helsinki, Finland)

Manometry and retrograde cricopharyngeal dysfunction (R-CPD)

14:20 - 14:40

Chadwan Al Yaghchi (London, United Kingdom)

Open surgical approaches to cricopharyngeal pathology

14:40 - 15:00

Elisabeth V. Sjögren (Leiden, Netherlands)

Transnasal esophagoscopy (TNE)

15:00 - 15:20

Kate Heathcote (United Kingdom)

Interactive discussion

15:20 - 16:00

Networking programme

17:00 - 18:00

Congress Hall

Opening

Networking programme

18:15 - 19:30

Welcome Reception

Exhibition area

Sunday, April 26, 2026

Rhinology

08:00 - 08:45

Congress Hall

IC.SU.01 - How to use artificial intelligence in rhinology

Axel Wolf (Graz, Austria)

Introduction

Axel Wolf (Graz, Austria)

08:00 - 08:05

Potential clinical applications of AI in rhinology

Axel Wolf (Graz, Austria)

08:05 - 08:15

CT-scan - neuronal networks and deep learning : How do we use AI in rhinology

Ludovic De Gabory (Bordeaux, France)

08:15 - 08:25

EThe good, the bad and the ugly of AI in rhinology

Ibrahim Sayin (Istanbul, Türkiye)

08:25 - 08:35

Discussion

08:35 - 08:45

Educational track

08:00 - 08:45

E4

IC.SU.02 - Mastering the recurrent laryngeal nerve and the parathyroid gland in locally advanced thyroid cancer

Aina Brunet (Barcelona, Spain)

RLN management in LATC

Aleix Rovira (London, United Kingdom)

08:00 - 08:15

Parathyroid gland management in LATC

Arnaud Lambert (Ghent, Belgium)

08:15 - 08:30

Case discussion

08:30 - 08:45

Rhinology

08:00 - 08:45

G1

IC.SU.03 - How to deal with the unhappy rhinoplasty patients

Frank Riedel (68163 Mannheim, Germany)

How to deal with the unhappy Rhinoplasty Patients

Frank Riedel (68163 Mannheim, Germany)

08:00 - 08:10

How to deal with the unhappy Rhinoplasty Patients

Hans Rudolf Briner (Zurich, Switzerland)

08:10 - 08:20

How to deal with the unhappy Rhinoplasty Patients

08:20 - 08:30

Presidents' track

08:00 - 08:45

G2

IC.SU.04 - European surgical consensus for TORS indications and contraindication in head and neck oncology

Marc Remacle (ESCH/Alzette, Luxembourg)

The European consensus on TORS for the surgical treatment of head & neck cancers

Jérôme Lechien (Mons, Belgium)

08:00 - 08:12

TORS supraglottic laryngectomy

Stéphane Hans (Suresnes, France)

08:12 - 08:24

TORS for the treatment of oropharynx cancers	08:24 - 08:36
Christian Simon (Lausanne, Switzerland)	
Discussion	08:36 - 08:44
Conclusions	08:44 - 08:45
Marc Remacle (ESCH/Alzette, Luxembourg)	
<i>Otology/neurotology</i>	
08:00 - 08:45	G3
IC.SU.05 - Meatoplasty techniques: How I do it	
Özgür Yigit (Istanbul, Türkiye)	
Introduction	08:00 - 08:05
Özgür Yigit (Istanbul, Türkiye)	
Indications for meatoplasty, introduction to the surgical technique	08:05 - 08:20
Özgür Yigit (Istanbul, Türkiye)	
Surgical technique: "How I do it", postoperative care, complications and management	08:20 - 08:45
Andrzej Zarowski (Antwerp, Belgium)	
<i>Laryngology</i>	
08:00 - 08:45	G4
IC.SU.06 - Respiratory health in athletes: Exercise-Induced Laryngeal Obstruction (EILO) is an Olympic challenge	
Respiratory health in Athletes: Exercise-Induced Laryngeal Obstruction (EILO) is an Olympic challenge	08:00 - 08:45
Hege Clemm (Oslo, Norway)	
<i>Paediatrics</i>	
08:00 - 08:45	H1
IC.SU.07 - Peritonsillar abscess	
Eric Moreddu (Marseille, France)	
Diagnostic approach	08:00 - 08:10
Eric Moreddu (Marseille, France)	
Management strategies	08:10 - 08:25
Sujata De (Liverpool, United Kingdom)	
Dickson Dewantoro (Liverpool, United Kingdom)	
Complications and outcomes	08:25 - 08:35
Romain Luscan (Paris, France)	
Discussion	08:35 - 08:45
<i>Head and neck</i>	
08:00 - 08:45	H2
IC.SU.08 - Neck management: Something new?	
Giuseppe Spriano (Milan, Italy)	
Neck management: something new?	08:00 - 08:15
Giuseppe Spriano (Milan, Italy)	
Notes on the N classification of HPV-positive carcinomas and the extent of ND in perioperative immunotherapy	08:15 - 08:30
Jan Klozar (Prague, Czech Republic)	

Discussion	08:30 - 08:40
<i>Head and neck</i>	
08:00 - 08:45	J1
IC.SU.09 - Transoral exoscopic surgery for UADT cancer	
Giovanni Succo (Turin, Italy)	
Introduction	08:00 - 08:03
Giovanni Succo (Turin, Italy)	
Transoral exoscopic Surgery for UADT cancer	08:03 - 08:35
Marta Filauro (Genoa, Italy)	
Discussion	08:35 - 08:45
<i>Salivary gland</i>	
08:00 - 08:45	J2
IC.SU.10 - Surgical techniques for parotid neoplasms: "From extracapsular dissection to parapharyngeal space tumors"	
Boyd Gillespie (Memphis, Tennessee, United States)	
Introduction	08:00 - 08:03
Boyd Gillespie (Memphis, Tennessee, United States)	
Extracapsular Dissection (ECD)	08:03 - 08:13
Boyd Gillespie (Memphis, Tennessee, United States)	
Partial, superficial, and total parotidectomy	08:13 - 08:28
Malgorzata Wierzbicka (Wroclaw, Poland)	
Parapharyngeal space tumors	08:28 - 08:40
Johan Fagan (Cape Town, South Africa)	
Discussion	08:40 - 08:45
<i>Phoniatrics</i>	
08:00 - 08:45	R2
IC.SU.11 - FEES vs videofluoroscopy in dysphagia assessment: When and how?	
Ana Danic Hadzibegovic (Zagreb, Croatia)	
FEES vs videofluoroscopy in dysphagia assessment: When and how?	08:00 - 08:15
Reham Abdelwakil Ibrahim (Assiut, Egypt)	
FEES vs videofluoroscopy in dysphagia assessment: When and how?	08:15 - 08:30
Ana Danic Hadzibegovic (Zagreb, Croatia)	
<i>Otology/Implantable hearing devices</i>	
08:00 - 08:45	R4
IC.SU.12 - Cochlear implantation in cochlear malformations	
Jozef Mierzwinski (Bydgoszcz, Poland)	
Classification of inner ear malformations and its clinical implications	08:00 - 08:08
Jozef Mierzwinski (Bydgoszcz, Poland)	
Prevalence of inner ear malformations in different populations and regions	08:08 - 08:16
Eugenijus Lesinskas (Vilnius, Lithuania)	
Surgical decision-making in cochlear implantation: Choosing the optimal approach, including indications for subtotal petrosectomy	08:16 - 08:24

versus facial recess	
Levent Sennaroglu (Türkiye)	
Clinical cases. What would you do?	08:24 - 08:35
Jozef Mierzwinski (Bydgoszcz, Poland)	
Eugenijus Lesinskas (Vilnius, Lithuania)	
Levent Sennaroglu (Türkiye)	
Presentation of the actual management and outcome	08:35 - 08:40
Jozef Mierzwinski (Bydgoszcz, Poland)	
<i>Rhinology</i>	
08:00 - 08:45	R14
IC.SU.13 - Mentorship & career development for female rhinologist	
Valerie Hox (Brussels, Belgium)	
Introduction	08:00 - 08:05
Valerie Hox (Brussels, Belgium)	
Personal stories from:	08:05 - 08:20
Ainhoa Garcia Lliberos (Valencia, Spain)	
Anna-Sophie Hoffmann (Hamburg, Germany)	
Valerie Hox (Brussels, Belgium)	
Guided Discussion on:	08:20 - 08:35
“How can young surgeons actively seek mentorship — what works and what doesn’t?”	
“What advice would you give to a young female rhinologist who feels isolated in a male-dominated department?”	
“What are effective ways to transform mentorship into sponsorship (advocating for others)?”	
“How can we build a culture of mentorship — within departments, societies, or across borders?”	
Quick audience interaction	08:35 - 08:40
Take-home messages and closing	08:40 - 08:45
Valerie Hox (Brussels, Belgium)	
<i>Laryngology</i>	
08:00 - 08:45	R17
IC.SU.14 - THRIVE 10 years on: What it can and can’t do in shared airway surgery	
THRIVE 10 years on: What it can and can’t do in shared airway surgery	08:00 - 08:45
Reza Nouraei (Nottingham, United Kingdom)	
<i>Facial Plastics and reconstructive surgery</i>	
08:00 - 08:45	R18
IC.SU.15 - How I do it: Facial palsy	
How I do it: Facial palsy	08:00 - 08:45
Niels van Heerbeek (Nijmegen, Netherlands)	
<i>Paediatrics</i>	
08:00 - 08:45	R31
IC.SU.16 - Pediatric head and neck malignancies	
Vincent Couloigner (Paris, France)	
Signs and symptoms	08:00 - 08:10
Vincent Couloigner (Paris, France)	

	Role of the ENT surgeon in diagnosis/treatment	08:10 - 08:20
	Michael Kuo (Birmingham, United Kingdom)	
	Chemotherapy and ototoxicity	08:20 - 08:30
	Nicolien Van der Poel (Antwerp, Belgium)	
	Discussion	08:30 - 08:45
<i>ePoster</i>		
08:00 - 19:00		ePoster area
EP.01.01 - Audiology and Vestibular Disorders		
	<u>ePosters are displayed throughout the whole congress at all ePoster Terminals</u>	08:00 - 19:00
	- no designated presentation slot	
	- you are not required to be there at a dedicated time	
PR001	COVID-19 related challenges facing patients with hearing loss who were prescribed hearing aids and patients awareness of tele-healthcare	08:00 - 19:00
	Ahmad Alrasheed (Riyadh, Saudi Arabia)	
PR002	Trouble brewing: baristas and occupational noise induced hearing loss	08:00 - 19:00
PR003	Parental experience of whole genome sequencing for children with sensorineural hearing loss - an interview study using inductive thematic analysis	08:00 - 19:00
PR004	Early use of hyperbaric oxygen therapy in idiopathic sudden hearing loss	08:00 - 19:00
PR005	Comparison of the efficacy of systemic steroid and hyperbaric oxygen therapy in patients with sudden sensorineural hearing loss: a retrospective study	08:00 - 19:00
PR006	The association between hearing and cognitive impairment among aging adults in northern finland	08:00 - 19:00
PR007	Early test termination in a German matrix speech test in noise	08:00 - 19:00
PR008	Feasibility of the sound ear check and Finnish words-in-noise test for hearing screening in young children	08:00 - 19:00
PR009	Ethanol potentiates cochlear injury by noise: synergistic effects on hearing thresholds and hair cell loss	08:00 - 19:00
PR010	Postural instability and fall risk in type 2 diabetes: a cross-sectional study using posturography and video head impulse test	08:00 - 19:00
PR011	Sudden traumatic noise exposure induces an altered wave I in the auditory brainstem response in human	08:00 - 19:00
PR012	Cochlear-implanted children with associated comorbidities: clinical profile and multidisciplinary management	08:00 - 19:00
PR013	Results of school hearing screening programme in the balearic islands	08:00 - 19:00
PR014	Study of the eustachian tube: analysis of middle ear ventilation in patients with nasal and oropharyngeal obstruction	08:00 - 19:00
PR015	Vestibular function in patients with primary mitochondrial disease (PMD)	08:00 - 19:00

PR016	Computerized dynamic posturography in non-fallers and fallers in elderly	08:00 - 19:00
PR017	Improvements in tinnitus symptoms are consistently observed from a multi-site clinical trial to real-world outcomes in a clinical setting using bimodal neuromodulation	08:00 - 19:00
PR018	Predicting changes in Finnish matrix sentence test outcomes using extended high-frequency audiometry	08:00 - 19:00
PR019	The effect of glucoregulation on hearing loss in patients with diabetes mellitus type 2	08:00 - 19:00
PR020	The graded stepwise treatment strategy of vestibular balance rehabilitation for intractable balance disorder	08:00 - 19:00
PR021	Association between diabetes and tinnitus traits in the UK Biobank: a population-based cohort study	08:00 - 19:00
PR022	Conventional and shared genetic association analysis between diabetes mellitus and sensorineural hearing loss	08:00 - 19:00
PC001	Bilateral malleus malformation in a child with 13q deletion syndrome: a case report	08:00 - 19:00
PC002	Using a bone conduction hearing device as a tactile aid	08:00 - 19:00
PC003	Pediatric Cogan's syndrome: sudden onset hearing loss, uveitis, and peripheral vestibular hypofunction	08:00 - 19:00
PC004	CANVAS: a hidden cause of bilateral vestibular failure	08:00 - 19:00
PC005	Normal vestibular development under abnormal conditions: a case report of craniopagus conjoined twins	08:00 - 19:00
PC006	Acoustic trauma and sudden sensorineural hearing loss in a military patients: effective management with systemic corticosteroid therapy	08:00 - 19:00
PC007	Vestibular dysfunction in patient with large vestibular aqueduct syndrome (LVAS) - case report	08:00 - 19:00
PC008	A novel clinical feature in NOG gene mutation - Teunissen Cremers syndrome	08:00 - 19:00
<i>ePoster</i>		
08:00 - 19:00		ePoster area
EP.01.07 - Otology/Neurotology		
	<u>ePosters are displayed throughout the whole congress at all ePoster Terminals</u>	08:00 - 19:00
	- no designated presentation slot	
	- you are not required to be there at a dedicated time	
PR199	Synchrotron-based X-ray phase-contrast microtomography study of healthy, sculpted and pathological human auditory ossicles for reconstructive surgery	08:00 - 19:00
PR200	Acute labyrinthitis - risk factors and outcome predictors	08:00 - 19:00
PR201	Research protocol: plasma homocysteine as a determinant of audiometric outcomes in type 2 diabetes	08:00 - 19:00
PR202	A comparison of quality of life in otosclerosis patients after hearing	08:00 - 19:00

	rehabilitation with surgery or hearing aids	
PR203	The predictive value of tumor volume in translabyrinthine surgery for vestibular schwannoma and outcomes in the uppsala cohort	08:00 - 19:00
PR204	Ergonomic evaluation of VITOM 3D exoscopes vs microscopes for postural strain in operative otology	08:00 - 19:00
PR205	Hearing changes after round window obliteration	08:00 - 19:00
PR206	Blast-ear score - development of a clinical decision support tool for acute acoustic trauma screening	08:00 - 19:00
PR207	Development of complications of acute otitis media in our department over the past 10 years	08:00 - 19:00
PR208	Resurfacing dehiscence(s) without reducing diverticulum effectively silences pulsatile tinnitus: novel surgical techniques for diverticulum and intraoperative microphone monitoring	08:00 - 19:00
PR209	Spontaneous otoacoustic emission as a novel method to screen pulsatile tinnitus caused by sigmoid sinus wall abnormalities: a prospective study	08:00 - 19:00
PR210	Evidence of air-conduction transmission pathway and strategized transtemporal operative techniques for venous pulsatile tinnitus: combining water occlusion test and operative sensing applications	08:00 - 19:00
PR211	Radical measures for radical disease - surgical outcomes in EAONO/JOS stage III-IV cholesteatoma	08:00 - 19:00
PR212	Surgical management outcomes of osteoradionecrosis of the temporal bone: two-centres experience	08:00 - 19:00
PR213	Modeling residual cholesteatoma growth rate: an individual patient data review	08:00 - 19:00
PR214	Bell's palsy in pregnancy and puerperium	08:00 - 19:00
PR215	Association of GJB2 p.V37I. V37I heterozygous variant with idiopathic sudden sensorineural hearing loss and endoplasmic reticulum stress susceptibility	08:00 - 19:00
PR216	Adverse symptoms and experiences after stapes surgery. What patients tell the Swedish quality register for otosclerosis surgery one year after surgery	08:00 - 19:00
PR217	Genetic predisposition to drug-induced ototoxicity in the greek population	08:00 - 19:00
PR218	Hearing reconstruction after surgery for advanced cholesteatoma of the middle ear	08:00 - 19:00
PR219	Revision procedures following cholesteatoma surgery	08:00 - 19:00
PR220	Intraoperative and postoperative management in endoscopic ear surgery: perspectives from a worldwide survey	08:00 - 19:00
PR221	Code meets ear and algorithms diagnose: multi-model artificial intelligence evaluation in sudden sensorineural hearing loss	08:00 - 19:00
PR222	Experimental analysis of footplate motion after ossicular chain reconstruction using PORP and TORP	08:00 - 19:00
PR223	Predictive value of the belfast rule of thumb and analysis of factors	08:00 - 19:00

	influencing the surgical success in ossiculoplasty	
PR224	Type I endoscopic tympanoplasty with palisade cartilage and hyaluronic acid gel: a prospective randomized pilot study	08:00 - 19:00
PR225	Imaging the dizzy patient: patterns and diagnostic impact of computed tomography in the emergency department	08:00 - 19:00
PR226	The relationship between sensorineural hearing loss and chronic kidney disease: results from a population-based cohort study	08:00 - 19:00
PR227	Predicting complications in pediatric acute mastoiditis: using routine lab tests and machine learning in 597 children	08:00 - 19:00
PR228	Seasonal impact on treatment outcomes in idiopathic sudden sensorineural hearing loss: multi-year analysis	08:00 - 19:00
PR229	Current status of 3D-printed human ossicles: a systematic review	08:00 - 19:00
PR230	Diagnostic yield and gene prevalence in childhood-onset hearing loss	08:00 - 19:00
PR231	Printing motion: a functional 3D temporal bone model for middle ear otologic training	08:00 - 19:00
PR232	Clinical application of the SAMEO-ATO classification and analysis of the correlation between individual subgroups and surgery duration	08:00 - 19:00
PR233	Video head impulse testing before and after canalith repositioning for benign paroxysmal positional vertigo	08:00 - 19:00
PR234	Cell therapy for hearing loss	08:00 - 19:00
PR235	Recurrent and residual tumors in skull base microsurgery	08:00 - 19:00
PC132	Sebaceous carcinoma of the external auditory canal: diagnostic and therapeutic challenges	08:00 - 19:00
PC133	Technical and conceptual aspects of endoscopic ossiculoplasty	08:00 - 19:00
PC134	Aberrant intratympanic internal carotid artery	08:00 - 19:00
PC135	Isolated acute unilateral sensorineural hearing loss as a possible presentation of paraneoplastic neurological syndrome in a small cell lung carcinoma	08:00 - 19:00
PC136	Vestibular schwannoma mimicking Ménière's disease. Case report	08:00 - 19:00
PC137	Medulloblastoma: an exceptionally rare presentation	08:00 - 19:00
PC138	Osteoma of external auditory canal in a child	08:00 - 19:00
PC139	Endoscopic myringoplasty in less than 20 minutes how I do it!	08:00 - 19:00
PC140	OVERVIEW about more than one thousand endoscopic middle ear procedure: what lessons can we learn?	08:00 - 19:00
PC141	Fisch procedure: a technical point of view in endoscopic otosclerosis surgery	08:00 - 19:00
PC142	Total transcanal endoscopic surgery for cholesteatoma-like verruca vulgaris of the external auditory Canal—Case report	08:00 - 19:00
PC143	Aberrant internal carotid artery in the middle ear: a rare cause of	08:00 - 19:00

	conductive hearing loss	
PC144	Middle ear neuroendocrine tumor - a case report	08:00 - 19:00
PC145	Functional and anatomical rehabilitation of a chronic open cavity after canal-wall-down tympanoplasty	08:00 - 19:00
PC146	A rare case of angiofibroma presenting as an endolymphatic sac tumor	08:00 - 19:00
PC147	Drainage of a petrous apex cholesterol granuloma through an endaural approach	08:00 - 19:00
PC148	Endoscopic management of labyrinthine fistulas: a case series and surgical technique overview	08:00 - 19:00
PC149	When the ear speaks for the lung: a rare metastatic secret	08:00 - 19:00
PC150	Dermoid cyst of the eustachian tube: a rare pediatric case report	08:00 - 19:00
PC151	Inner ear decompression sickness versus inner ear barotrauma: diagnostic and therapeutic challenge - case series	08:00 - 19:00
PC152	Old but gold: posterior auricular revolving door flap	08:00 - 19:00
PC153	Advanced congenital middle ear cholesteatoma in children: anatomical variations and surgical outcomes	08:00 - 19:00
PC154	Dural arteriovenous fistula presenting as paradoxical contralateral pulsatile tinnitus due to contralateral otosclerosis-induced mixed hearing loss	08:00 - 19:00
PC155	Aberrant sylvian vein diverticulum and tegmen dehiscence-induced venous pulsatile tinnitus phenotype can be treated via transtemporal surgery: a case report	08:00 - 19:00
PC156	Case report: venous pulsatile tinnitus induced by enlarged oblique occipital sinus and resultant Diverticulum/Dehiscence of the sigmoidjugular wall	08:00 - 19:00
PC157	"under pressure": diving-triggered temporary facial palsy with delayed recovery in a facial nerve schwannoma	08:00 - 19:00
PC158	Bilateral spontaneous cerebrospinal fluid otorrhea presenting as recurrent otitis media with effusion: a case report	08:00 - 19:00
PC159	Post-lumbar puncture secondary endolymphatic hydrops: a reversible cause of hearing loss	08:00 - 19:00
PC160	Sudden contralateral deafness in a patient with unilateral acute otitis media complicated by meningitis and brain abscess	08:00 - 19:00
PC161	In-office autologous intratympanic blood patch for suspected perilymphatic fistula with coexisting SSCD: a case report	08:00 - 19:00
PC162	A rare case of a middle ear tumor with facial palsy	08:00 - 19:00
PC163	A "modern" foreign body of the external ear canal: a case report	08:00 - 19:00
PC164	Postauricular muscle tremor treated by BOTOX injection	08:00 - 19:00
PC165	Silent/Masked mastoiditis as a diagnostic challenge: three cases with intracranial complications	08:00 - 19:00
PC166	Brown-Vialetto-Van Laere syndrome: case report and literature	08:00 - 19:00

	review	
PC167	Cylindrome in auricular pavilion. Case report	08:00 - 19:00
PC168	Video head impulse test evidence of central vestibular pathway dysfunction with imaging correlation in multiple sclerosis	08:00 - 19:00
PC169	Clinical and managing features of malignant external otitis: experience from an eight-patient case series	08:00 - 19:00
PC170	A rare first branchial cleft anomaly with intrameatal communication: diagnostic and surgical considerations	08:00 - 19:00
PC171	Clinical and postoperative evolution of patients with otic paragangliomas: a retrospective analysis	08:00 - 19:00
PC172	Inner ear hemorrhage masked as vestibular neuritis	08:00 - 19:00
PC173	Rare case of jugular bulb diverticulum causing massive bleeding during tympanoplasty and delayed facial nerve paralysis	08:00 - 19:00
<i>ePoster</i> 08:00 - 19:00		ePoster area
EP.01.08 - Paediatrics		
	<u>ePosters are displayed throughout the whole congress at all ePoster Terminals</u> - no designated presentation slot - you are not required to be there at a dedicated time	08:00 - 19:00
PR236	Loss to follow up in completion of newborn hearing screening among neonatal intensive care unit graduates	08:00 - 19:00
PR237	Intracapsular vs extracapsular tonsillectomy in a tertiary saudi pediatric population: a retrospective comparative cohort study	08:00 - 19:00
PR238	Latest evidence on diagnosis and management of adenoid hypertrophy	08:00 - 19:00
PR239	The added benefit of concurrent tonsillectomy or turbinoplasty to adenoidectomy in the treatment of obstructive sleep apnea in pediatric patients	08:00 - 19:00
PR240	Frequency of ENT diseases in children with Down syndrome. The importance of early diagnosis and education	08:00 - 19:00
PR241	The usefulness of sodium Hypochlorite/Hypochlorous acid solutions in intraoperative and postoperative management of pediatric otorhinolaryngological surgical procedures	08:00 - 19:00
PR242	Nasal airway measurements predict early nasal intervention and prolonged airway support in FGFR-related craniosynostosis	08:00 - 19:00
PR243	Enhancing surgical education: introducing microscope-use for adenotonsillectomy supervision	08:00 - 19:00
PR244	Is hispanic race a predictor of higher stage disease in pediatric thyroid cancer?	08:00 - 19:00
PR245	Impact of drug-induced sleep endoscopy on surgical decision-making in the management of pediatric obstructive sleep apnea syndrome	08:00 - 19:00
PR246	Could paediatric airway simulations replace real life procedure?	08:00 - 19:00

Questionnaire for otolaryngology resident doctors

PR247	Regional anatomical factors associated with rhinosinusitis in children	08:00 - 19:00
PR248	Comparison of traditional and modern surgical methods for treating pediatric ankyloglossia: a systematic review	08:00 - 19:00
PR249	Pediatric acute otitis externa severity scoring system development and validation	08:00 - 19:00
PR250	Insights into post-tonsillectomy pain and behavioral assessment in pediatric patients	08:00 - 19:00
PR251	Towards a standardised protocol for paediatric laryngeal clefts: a retrospective cohort study of clinical outcomes and proposal for future practice	08:00 - 19:00
PR252	Endoscopic classification of airway obstruction in children with obstructive sleep apnea: a prospective danish cohort study	08:00 - 19:00
PR253	Comparative analysis of TGF-β1 mRNA and lncRNA h19 expression in pediatric adenoid hypertrophy and chronic adenoiditis	08:00 - 19:00
PR254	Augmentation of the posterior pharyngeal wall with autologous tragal cartilage for velopharyngeal valve insufficiency after repair of cleft palate in pediatric patients	08:00 - 19:00
PR255	SMILE technique (submucosal minimally invasive lingual excision) for tongue-base hypertrophy in pediatric obstructive sleep apnea: experience from a tertiary hospital	08:00 - 19:00
PR256	Supraglottoplasty in sub-Saharan Africa: improving outcomes for children with laryngomalacia	08:00 - 19:00
PR257	3d-printed simulation model for 3D exoscopic intracapsular coblation tonsillectomy and trans-oral endoscopic coblation adenoidectomy	08:00 - 19:00
PR258	Pediatric robotic thyroid surgery and scar-related quality of life: a retrospective cohort of 40 patients	08:00 - 19:00
PR259	Controversies and dilemmas in the treatment of secretory otitis media in children	08:00 - 19:00
PR260	Improving adenotonsillectomy consent: a three-cycle audit	08:00 - 19:00
PR261	Endoscopic management of subglottic cysts in infants: a five-year retrospective study	08:00 - 19:00
PR262	Prediction of therapy in children with deep cervical inflammation	08:00 - 19:00
PR263	Impact of adenotonsillectomy on healthcare utilization in pediatric sleep apnea: a systematic review and meta-analysis	08:00 - 19:00
PR264	Paediatric day-case tonsillectomy listing: compliance with local criteria and comparison with national BAPO guidelines	08:00 - 19:00
PR265	The utilization of artificial intelligence by pediatric otolaryngology surgeons in professional practice	08:00 - 19:00
PR266	Changes in auditory brainstem response thresholds and latencies following tympanostomy tube insertion in children under two years of age	08:00 - 19:00

PR267	Endonasal balloon dilation of the eustachian tube in children: our experience	08:00 - 19:00
PR268	A collaborative approach to paediatric voice disorders: results from ireland's first multidisciplinary voice clinic	08:00 - 19:00
PR269	Recurrence analysis and hearing status in 72 patients with choanal atresia	08:00 - 19:00
PC174	Intraorbital hydatid cyst: rare pediatric presentation	08:00 - 19:00
PC175	Supraglottic and glottic involvement in epidermolysis bullosa simplex: a pediatric case report and review of airway management	08:00 - 19:00
PC176	Thyroid paraganglioma in a pediatric patient	08:00 - 19:00
PC177	Large pedunculated tonsillar polyp in a child resulting in obstructive sleep apnea and episodic bleeding: a case report	08:00 - 19:00
PC178	Surgical management of thyroglossal duct cysts in infants: a case report and literature review	08:00 - 19:00
PC179	"cheek to tonsil": a rare mixed-type branchial cleft fistula - surgical, radiological and embryological considerations	08:00 - 19:00
PC180	Challenging airway management in newborn without antenatal risk factor	08:00 - 19:00
PC181	Perinatal management of large cervicofacial lymphatic malformation diagnosed prenatally by MRI	08:00 - 19:00
PC182	Adeno-tonsillectomy facilitating decannulation in an infant with long-term tracheostomy: a rare case report	08:00 - 19:00
PC183	A rare case of paediatric papillary thyroid cancer within the hyoid bone of a thyroglossal duct cyst - case report and literature review	08:00 - 19:00
PC184	Post-surgical nasopharyngeal stenosis: a review of three clinical cases following adenoidectomy and tonsillectomy	08:00 - 19:00
PC185	Spontaneous tonsillar hemorrhage treated with emergency tonsillectomy: a case report with literature review	08:00 - 19:00
PC186	Grisel syndrome with retropharyngeal abscess: a rare complication following adenoidectomy	08:00 - 19:00
PC187	Bilateral green mastoid bone discoloration in a paediatric patient with severe neonatal hyperbilirubinemia undergoing cochlear implantation	08:00 - 19:00
PC188	Obstructive sleep apnoea in a child with PTEN hematoma tumor syndrome	08:00 - 19:00
PC189	Mucoepidermoid carcinoma of the parotid gland in a 3-year-old: a pediatric case report	08:00 - 19:00
PC190	Lymphangioma of the tongue in a two-year-old paediatric patient. A rare case report	08:00 - 19:00
PC191	An unexpected turn: otitis media leading to sigmoid sinus thrombosis without clinical signs of mastoiditis	08:00 - 19:00
PC192	Beyond earache: atypical faces of pediatric acute mastoiditis	08:00 - 19:00
PC193	Customized airway management at birth: institutional experience	08:00 - 19:00

	with neonates having anticipated airway obstruction	
PC194	A rare cause of respiratory difficulty in infants: a case report of congenital laryngeal saccular cyst	08:00 - 19:00
PC195	Supraglottoplasty for laryngomalacia, using coblation technology	08:00 - 19:00
PC196	Management of newborn with large teratoma in the neck and airway obstruction: a case report	08:00 - 19:00
PC197	Peristomal keloid in a pediatric tracheostomy patient: the evolving role of intralesional excision and adjuvant therapy – our experience	08:00 - 19:00
PC198	Horizontal semicircular canal fistula as a complication of non-cholesteatomatous otitis media: a rare case report	08:00 - 19:00
PC199	Immediate postnatal resection of a massive cervical teratoma in a newborn: a case report	08:00 - 19:00
PC200	Beyond tracheostomy: percutaneous vocal fold lateralization in a pediatric case of bilateral vocal fold paralysis	08:00 - 19:00
<i>ePoster</i>

EP.01.13 - Sleep Medicine		
	<u>ePosters are displayed throughout the whole congress at all ePoster Terminals</u>	08:00 - 19:00
	- no designated presentation slot	
	- you are not required to be there at a dedicated time	
PR338	Determination of intermolar distance: correlation between computed tomography and direct clinical measurement	08:00 - 19:00
PR339	Effectiveness of barbed reposition pharyngoplasty with tonsillectomy in treating obstructive sleep apnea: a danish retrospective study	08:00 - 19:00
PR340	Community pharmacies in early detection of obstructive sleep apnea: findings from a nationwide survey	08:00 - 19:00
PR341	Efficacy and safety of laser-assisted uvulopalatoplasty (LAUP) for the treatment of obstructive sleep apnea and snoring: a systematic review	08:00 - 19:00
PR342	Patient reported outcomes after tonsillectomy and uvulopalatopharyngoplasty for snoring/obstructive sleep apnoea in Swedish adults	08:00 - 19:00
PR343	The application of hypoxic burden analysis for surgical outcomes assessment in osa patients: preliminary results	08:00 - 19:00
PR344	Sleep under noise stress: hidden cardiovascular risks in urban environments	08:00 - 19:00
PR345	Tonsillectomy as a treatment for obstructive sleep apnea in adults with tonsillar hypertrophy: preliminary findings from a long-term follow-up study	08:00 - 19:00
PR346	Time with increased intrathoracic pressure and nocturnal hypoxemia are independent predictors of mortality in patients with suspected obstructive sleep apnea	08:00 - 19:00

PR347	Sleep apnea among high risk groups in greenland	08:00 - 19:00
PR348	Preliminary long-term outcomes of intracapsular tonsillectomy in the treatment of obstructive sleep apnea in adults	08:00 - 19:00
PR349	Drug - induced sleep endoscopy in children	08:00 - 19:00
PR350	Lifestyle habits, sleepiness, and risk of obstructive sleep apnea in a mexican sample: a cross-sectional study	08:00 - 19:00
PR351	In-office OSA examination, can we know more?	08:00 - 19:00
PR352	Clinical factors for screening obstructive sleep apnea by severity	08:00 - 19:00
PR353	A stepwise clinical and composite risk score model for predicting obesity hypoventilation syndrome in obese sleep apnea patients	08:00 - 19:00
PR354	Introducing 'warrior sleep': a novel breathing phenotype in obstructive sleep apnea	08:00 - 19:00
PR355	Night sweats as a marker of severity and treatment behavior in obstructive sleep apnea: a 150-patient clinical analysis	08:00 - 19:00
PR356	Beyond AHI: anatomical and funtional obstruction severity, sedative requirement and collapse patterns on drug-induced sleep endoscopy	08:00 - 19:00
PR357	Tonsillectomy vs tonsillotomy in the treatment of pediatric obstructive sleep apnea syndrome: a comparative study	08:00 - 19:00
PR358	Hybrid palatal surgery for positional versus non-positional obstructive sleep apnea: efficacy and predictive factors	08:00 - 19:00
PC262	Pharyngeal surgery in obstructive sleep apnea	08:00 - 19:00
PC263	Lessons learned in revision surgery: hypoglossal nerve stimulation	08:00 - 19:00

PR171	The quest towards autonomous cochlear implant surgery	08:00 - 19:00
PR172	Facial nerve stimulation after cochlear implantation in patients with a cochlear facial dehiscence	08:00 - 19:00
PR173	Does local dexamethasone matter? Fifteen-year audit of cochlear implant outcomes	08:00 - 19:00
PR174	Cochlear implantation in children with severe cochlear nerve deficiency in Sweden	08:00 - 19:00
PR175	Intraoperative visual identification of extra-cochlear electrodes in cochlear implantation using stimulation current induced non-	08:00 - 19:00

	stimulating electrode voltages	
PR176	Educational methods in temporal bone microsurgery: a literature review of available techniques used in surgical training	08:00 - 19:00
PR177	Therapeutic approach of the middle ear jugular paraganglioma: a literature review	08:00 - 19:00
PR178	Evaluation of factors influencing the impact of vestibular schwannoma (VS) and its treatment on hearing in the contralateral ear	08:00 - 19:00
PR179	Evaluation of inner ear anomalies in patients with CHARGE syndrome	08:00 - 19:00
PR180	Sound-induced drug distribution in the cochlea: how close are we?	08:00 - 19:00
PR181	Electrode misplacement - and how to avoid it	08:00 - 19:00
PR182	Cochlear implantation and facial nerve stimulation: anatomic and clinical correlations using Micro-CT and synchrotron phase-contrast imaging	08:00 - 19:00
PR183	Short and long term bone integration of a surface modified bone-anchored hearing implant	08:00 - 19:00
PR184	Historical complications in cochlear implant surgery	08:00 - 19:00
PR185	Predicting hearing outcomes: intracochlear electrocochleography in pediatric patients with profound hearing loss during and after cochlear implantation	08:00 - 19:00
PR186	Cochlear implantation in single-sided deafness: functional outcomes and device comparison in adults	08:00 - 19:00
PR187	Manual and robot-assisted electrode insertion in malformed cochleae using 3D printed patient models	08:00 - 19:00
PR188	Pediatric tympanoplasty outcomes on a Portuguese hospital: the experience of 9 years	08:00 - 19:00
PR189	Patients experiences of an active transcutaneous implant: the bone conduction implant	08:00 - 19:00
PR190	Evaluating surface microphone output prediction accuracy: correlation with skin surface velocity	08:00 - 19:00
PR191	Analysis of the hearing threshold in patients after ossiculoplasty with <i>mCLIP Partial</i> prosthesis	08:00 - 19:00
PR192	Ventilation tubes in pediatric chronic otitis media: evidence-based indications and outcomes	08:00 - 19:00
PR193	The outcome of CI - results from the Swedish quality register for CI surgery on adults	08:00 - 19:00
PR194	Risk for deep vein thrombosis and pulmonary embolism after middle ear cholesteatoma surgery	08:00 - 19:00
PR195	The effectiveness of osia implants in the rehabilitation of conductive and mixed hearing loss	08:00 - 19:00
PR196	Mastoid obliteration using sticky bone in canal wall down cholesteatoma surgery: initial experience	08:00 - 19:00

PR197	Graft myringoplasty: outcomes and patient satisfaction in SwedEar	08:00 - 19:00
PR198	SwedEar: the Swedish quality register for ear surgery	08:00 - 19:00
PC118	Saving the case - early recognition and management of reparative granuloma after stapedotomy	08:00 - 19:00
PC119	Congenital absence of the stapes: case report and surgical approach	08:00 - 19:00
PC120	Overcoming the challenges of bilateral acquired EAC stenosis: role of bone conduction implants	08:00 - 19:00
PC121	Head trauma and cochlear implant: investigating a pediatric patient's sudden aversion	08:00 - 19:00
PC122	SENTIO - the alder hey experience	08:00 - 19:00
PC123	Choose the correct hole...	08:00 - 19:00
PC124	Cochlear implantation in a patient with intractable tinnitus: a case report of an endoscope-assisted approach	08:00 - 19:00
PC125	Congenital deafness and lymphedema revealing Emberger syndrome: importance of early genetic diagnosis	08:00 - 19:00
PC126	Aberrant facial nerve course in lateral semicircular canal aplasia: a critical landmark in cochlear implantation surgery	08:00 - 19:00
PC127	Long-term results of bilateral cochlear implantation in a patient with congenital inner ear malformation: incomplete partition type I - a case report	08:00 - 19:00
PC128	Duplication of the internal auditory canal and bonebridge implantation in CROS configuration - a case report	08:00 - 19:00
PC129	Giant obliterating external auditory canal osteoma: a rare cause of conductive hearing loss	08:00 - 19:00
PC130	Intracochlear electrode placement - looking for a „sweet spot“	08:00 - 19:00
PC131	Familial congenital cholesteatoma in three siblings: a case series	08:00 - 19:00
<i>ePoster</i>

EP.01.03 - General ENT		
	<u>ePosters are displayed throughout the whole congress at all ePoster Terminals</u>	08:00 - 19:00
	- no designated presentation slot	
	- you are not required to be there at a dedicated time	
PR035	Systematic review of the association between sleep apnea and postoperative complications after ENT surgery	08:00 - 19:00
PR036	Animal-experimental ENT theses from türkiye: a 30-year perspective on publication conversion and research waste	08:00 - 19:00
PR037	Introduction of an ENT 'hot week' and its impact on service provision and delivery within a UK district general hospital	08:00 - 19:00
PR038	Alterations in swallowing after anterior cervical spine surgery. Preliminary results of a prospective, observational, interdisciplinary cohort study	08:00 - 19:00

PR039	Immunological dysfunctions in chronic suppurative otitis media: current evidence and pathological implications	08:00 - 19:00
PR040	Thoracic complications of percutaneous tracheostomy in albania: a national overview background	08:00 - 19:00
PR041	Enhancing tracheostomy care training with a 3D-printed mannequin	08:00 - 19:00
PR042	Hypertension and tinnitus: cross-sectional, observational evidence from UK Biobank	08:00 - 19:00
PR043	Ergonomic assessment of surgeon strain: comparing 3D exoscopes and operating microscopes in ENT simulation	08:00 - 19:00
PR044	Evaluation of the implementation of portfolio-based assessment and the "portfolio presentation day" in otolaryngology residency training	08:00 - 19:00
PR045	Throat infections in Sweden before, during and after the COVID-19 pandemic	08:00 - 19:00
PR046	Voice outcomes following thermal ablation for thyroid nodules: a systematic review	08:00 - 19:00
PR047	The European Board examination in otorhinolaryngology-head and neck surgery as a high-quality assessment instrument: psychometric evidence for competency measurement	08:00 - 19:00
PR048	Postoperative symptom improvement and patient satisfaction following tonsil surgery: a nationwide longitudinal analysis from the Swedish quality registry for tonsil surgery (1997-2025)	08:00 - 19:00
PR049	"seeing is believing" - a global survey on gender disparities in medicine	08:00 - 19:00
PR050	ENT perspectives and experience on diagnosing, treating, and managing patients with primary immunodeficiency disorders: a multinational survey	08:00 - 19:00
PR051	Bruxism as an overlooked cause of otalgia: a cross-sectional study	08:00 - 19:00
PR052	Computerized dynamic posturography in the ENT and dental practice - new insights	08:00 - 19:00
PR053	Postoperative pain and hemorrhage after bizact™ tonsillectomy: a Side-Controlled study	08:00 - 19:00
PR054	A multicenter expert evaluation of AI-generated discharge summaries in otolaryngology	08:00 - 19:00
PR055	Televideo nasoendoscopy: a new model for telemedical care	08:00 - 19:00
PR056	Hyperbaric oxygen therapy in ENT	08:00 - 19:00
PR057	Impact of rising first-year resident density on post-tonsillectomy hemorrhage: a 10-year retrospective analysis	08:00 - 19:00
PR058	Workforce planning for ENT services in the UK: challenges and future directions	08:00 - 19:00
PR059	Evaluating the safety, efficacy, and regenerative potential of a self-assembling peptide haemostat (PuraBond®) across surgical specialties and in UK ENT practice	08:00 - 19:00

PC015	Case report: Zenker's diverticulum with atypical symptoms	08:00 - 19:00
PC016	Dexamethasone-induced persistent hiccups: a rare adverse effect in otolaryngology practice	08:00 - 19:00
PC017	Advanced nasopharyngeal carcinoma: report of five consecutive cases with possible causes of late diagnosis	08:00 - 19:00
PC018	Blue laser in otorhinolaryngology: the first steps are always the hardest	08:00 - 19:00
PC019	Post-traumatic hyoid fracture: a rare diagnosis with high-risk potential	08:00 - 19:00
PC020	Spontaneous massive lingual hematoma in a hematologic patient	08:00 - 19:00
PC021	FAST HUGS BID: looking for better ENT medical rounds	08:00 - 19:00
PC022	A diagnostic pitfall: ingested foreign bodies impacted in pharyngoesophageal diverticula masquerading as perforation on computed tomography	08:00 - 19:00
PC023	Oropharyngeal manifestation of a systemic disease: a case report	08:00 - 19:00
PC024	Lingual tonsillitis as a manifestation of acute infectious mononucleosis in a paediatric patient: case report	08:00 - 19:00
PC025	Diagnosis and management of tongue abscesses: a case series	08:00 - 19:00
PC026	The quinsy quagmire - a rare presentation of melioidosis	08:00 - 19:00

PR312	Age-related outcome and biological treatment need after surgery for chronic rhinosinusitis with nasal polyposis type 2	08:00 - 08:00
PR313	Why limit coblation to turbinate reduction? ARIS as a versatile tool for nasal surgery	08:00 - 08:00
PR314	Dupilumab in difficult-to-treat CRSwNP: focus on asthma and NERD subtypes	08:00 - 08:00
PR315	An analysis of the VELNEZ nasal pack's acceptability and safety for use during nasal surgery: a prospective study	08:00 - 08:00
PR316	Our experience in septal perforation repair during wartime	08:00 - 08:00

PR317	Dupilumab treatment in CRSwNP associated with severe asthma or allergy - our experience	08:00 - 08:00
PR318	Intranasal biopsy results: a 10-year retrospective analysis	08:00 - 08:00
PR319	Evaluating the impact of an AI-powered medical scribe on documentation efficiency, record quality, and Patient-Centered care in "Instituto Oncológico Fundación Arturo López Pérez (FALP)	08:00 - 08:00
PR320	Platelet-rich plasma (PRP) as a novel therapeutic option for olfactory dysfunction: a literature review	08:00 - 08:00
PR321	Update on non allergic rhinitis	08:00 - 08:00
PR322	Validation of the Norwegian paper and electronical version of the twenty-two item sino-nasal outcome test (SNOT-22)	08:00 - 08:00
PR323	Task shifting in a public hospital rhinology clinic: a nurse-led assessment process	08:00 - 08:00
PR324	Early-life risk factors modulate allergic rhinitis susceptibility via ATE1-driven gene-environment interactions: a cross-cohort genome-wide G×E study	08:00 - 08:00
PC201	Orbital cellulitis caused by isolated sphenoid sinusitis involving <i>S.lugdunensis</i>: a unique case	08:00 - 08:00
PC202	The interesting case: extensive sinonasal glomangiopericytoma with bony destruction	08:00 - 08:00
PC203	Intra nasal endoscopic septoplasty (INES): precision repair in less than 20 minutes	08:00 - 08:00
PC204	Endoscopic endonasal approach of petrous apex cholesterol granuloma: a systematic review and case report	08:00 - 08:00
PC205	Silent sinus syndrome: clinical insights from a case presentation and brief review	08:00 - 08:00
PC206	Coexistence of diffuse large B-cell lymphoma of the frontal sinus and renal cell carcinoma: treatment challenges	08:00 - 08:00
PC207	Nosebleeds as the first sign of renal clear cell carcinoma (RCC)	08:00 - 08:00
PC208	Surgical video: removal of bilateral nasal rhinoliths using the ARIS COBLATION turbinate reduction wand	08:00 - 08:00
PC209	HPV-related multiphenotypic sinonasal carcinoma: a case report of an emerging diagnostic entity	08:00 - 08:00
PC210	Nasal extranodal NK/T-cell lymphoma in a patient with chronic B-cell lymphocytic leukemia	08:00 - 08:00
PC211	Comparison of different nasal septal areas between patients with and without nasal obstruction	08:00 - 08:00
PC212	A subcutaneous periorbital abscess and intracranial abscess as complications of acute frontal sinusitis - a case report	08:00 - 08:00
PC213	Two brothers with one diagnosis	08:00 - 08:00
PC214	Chronic rhinosinusitis following organ transplantation: diagnostic challenges, risk factors and therapeutic management	08:00 - 08:00
PC215	Respiratory epithelial adenomatoid hamartoma (REAH) in the	08:00 - 08:00

differential diagnosis of endonasal masses		
PC216	Nasal schwannoma - a diagnostic finding	08:00 - 08:00
PC217	Endoscopic choanal atresia repair: mucosal flap reconstruction for long-term patency in pediatric and adult cases	08:00 - 08:00
PC218	Introduction of telephone consultation for nasal injury in acute ENT clinic	08:00 - 08:00
PC219	Rare sinonasal benign tumors: diagnosis and therapeutic management	08:00 - 08:00
PC220	Severe frontal headache following balloon sinuplasty for frontal sinusitis: a diagnostic pitfall	08:00 - 08:00
PC221	A rare case of bilateral nasolabial cyst	08:00 - 08:00
PC222	Adenosquamous carcinoma of the nasopharynx: a case study	08:00 - 08:00
PC223	Malignant transformation of leiomyoma to leiomyosarcoma originating from the inferior turbinate: a rare case report	08:00 - 08:00
PC224	Endonasal revision surgery of unilateral choanal atresia in an adult utilizing coblation and cross-over flap technique	08:00 - 08:00
PC225	Electroexcision and coblation of rhinophyma. A clinical case report	08:00 - 08:00
PC226	Use of the mometasone-eluting implant (propel®) in the treatment of pott's tumor: a case report	08:00 - 08:00
PC227	A rare cause of epistaxis: cavernous hemangioma of the nasal cavity	08:00 - 08:00
PC228	A close shave: cellular schwannoma of the nasal septum as a high-stakes diagnostic pitfall	08:00 - 08:00
PC229	Psammomatoid juvenile ossifying fibroma of the ethmoid sinus in a pediatric patient	08:00 - 08:00
PC230	Sinonasal manifestations of mucocutaneous leishmaniasis: a series of cases	08:00 - 08:00
PC231	Nasal lymphoma: an uncommon presentation masquerading as a nasolabial lesion	08:00 - 08:00
PC232	Silent sinus syndrome a rare pathology. Our experience	08:00 - 08:00
PC233	Sino-nasal glomangiopericytoma: case report of a rare nasal lesion	08:00 - 08:00
PC234	Coblation rhinophyma: a pictogram timeline of surgical correction and secondary healing	08:00 - 08:00
PC235	Nasal septum perforation: a case study related to autoimmune diseases	08:00 - 08:00
PC236	Through the orbit into the sinus: a successful otorhinolaryngology-ophthalmology approach	08:00 - 08:00
PC237	Inter-frontal septectomy through a transeptal approach for the management of unilateral frontal chronic disease	08:00 - 08:00
PC238	Dilated eye, racing heart: a pharmacological scare in endoscopic sinus surgery	08:00 - 08:00
PC239	Nasopharyngeal actinomycosis mimicking nasopharyngeal	08:00 - 08:00

	carcinoma	
PC240	Sinonasal extranodal NK/T-cell lymphoma masquerading as cocaine-induced midline destructive disease: a diagnostic pitfall in destructive rhinological lesions	08:00 - 08:00
PC241	Recurrent nosebleeds and a missed malignancy: delayed diagnosis of a rare sinonasal spindle cell sarcoma	08:00 - 08:00
PC242	Nasal septal abscess - what to exclude?	08:00 - 08:00
PC243	Congenital lacrimal fistula: case report	08:00 - 08:00
PC244	Endoscopic endonasal embolization via a transsphenoidal approach for a carotid-cavernous fistula: a case report	08:00 - 08:00
PC245	Ectopic teeth in rhinology: two case reports and literature review	08:00 - 08:00
PC246	Autoantrostomy in maxillary sinus fungus ball: a rarely documented phenomenon, with practical imaging and surgical lessons	08:00 - 08:00
PC247	Mucocoeles of paranasal sinuses - our experience	08:00 - 08:00
<i>ePoster</i>		
08:00 - 19:00		ePoster area
EP.01.05 - Laryngology		
	<u>ePosters are displayed throughout the whole congress at all ePoster Terminals</u> - no designated presentation slot - you are not required to be there at a dedicated time	08:00 - 08:00
PR149	Pre-treatment inflammatory indices as predictors of occult lymph node metastasis in supraglottic squamous cell carcinoma	08:00 - 08:00
PR150	The ageing voice - a multidisciplinary approach	08:00 - 08:00
PR151	Radiological risk factors for T2-T3 glottic carcinoma treated with (chemo)radiotherapy - a multicenter analysis	08:00 - 08:00
PR152	Vocal cord unilateral paralysis treatment: a meta-analysis of the last five years	08:00 - 08:00
PR153	Efficacy of KTP laser-assisted vaporization for vocal fold pseudocysts	08:00 - 08:00
PR154	Laryngeal cancer, risk factors, symptoms and treatment	08:00 - 08:00
PR155	Tubeless spontaneous ventilation with supraglottic device in suspension microlaryngoscopy in adults: a case series	08:00 - 08:00
PR156	Correlation between pepsine test and reflux symptom index and reflux finding score in faringo-laryngeal reflux: proof of concept	08:00 - 08:00
PR157	Effects of hydration and a hyaluronic acid-containing lozenge on voice parameters in conjunction with a vocal loading test	08:00 - 08:00
PR158	Validation of the Spanish version of the dyspnea index questionnaire	08:00 - 08:00
PR159	European laryngological society consensus statement on occupational exposure to human papillomavirus: a Delphi method study	08:00 - 08:00

PR160	Long-term voice outcomes of medialization thyroplasty with adjustable implant for unilateral vocal fold paralysis	08:00 - 08:00
PR161	The correlation between glottal gap area and voice quality in patients with unilateral vocal fold paralysis	08:00 - 08:00
PR162	An interrogation of patient characteristics with subglottic stenosis from a high-volume center	08:00 - 08:00
PR163	Impact of FEES with swallowing guidance on dysphagia symptoms and health-related quality of life: one-month effects and interim 3-year outcomes	08:00 - 08:00
PR164	Glottal stop production in controls and patients with unilateral vocal fold Paresis/Paralysis using contextual speech	08:00 - 08:00
PR165	Juvenile recurrent respiratory papillomatosis - clinical experience and literature review	08:00 - 08:00
PR166	Vocal fold augmentation with fat following transoral laser surgery and vocal fold paralysis	08:00 - 08:00
PR167	When a sneeze breaks the voice: laryngeal cartilage fracture - case-series and literature review	08:00 - 08:00
PR168	Significance of PD-L1 and tumor microenvironment in laryngeal dysplasia	08:00 - 08:00
PR169	Tracheostomy and respiratory aerosol generation: no increased emission observed in stable outpatients	08:00 - 08:00
PR170	The occurrence of acute laryngeal diseases in the emergency outpatient departments of otorhinolaryngology in estonian regional hospitals in 2024	08:00 - 08:00
PC107	Severe laryngeal papillomatosis treated in multiple sessions with blue laser. The new gold standard?	08:00 - 08:00
PC108	Laryngotracheal stenosis: the impact of using carved T-tube stent	08:00 - 08:00
PC109	Endoscopic airway rehabilitation of subglottic stenosis after traumatic laryngotracheal separation	08:00 - 08:00
PC110	An unconventional solution for persistent tracheo-oesophageal fistula following total laryngectomy: endoscopic closure using an amplatzer occluder	08:00 - 08:00
PC111	Retropharyngeal esophagocele causing laryngeal obstruction in end-stage achalasia: a case series	08:00 - 08:00
PC112	Herpetic (HSV-1) glossitis & epiglottitis in an immunocompromised patient: a case report	08:00 - 08:00
PC113	Rare case of tuberculosis presented as fungal laryngitis - a case report and review of the literature	08:00 - 08:00
PC114	Photoangiolytic blue laser excision of an interarytenoid atypical carcinoid tumour: case report	08:00 - 08:00
PC115	A misleading glottic lesion: pleomorphic adenoma of the larynx	08:00 - 08:00
PC116	Upper airway amyloidosis	08:00 - 08:00
PC117	Laryngeal abscess in an immunocompetent patient: a rare entity in the era of antibiotics	08:00 - 08:00

EP.01.04 - Head and Neck		
	<u>ePosters are displayed throughout the whole congress at all ePoster Terminals</u> - no designated presentation slot - you are not required to be there at a dedicated time	08:00 - 19:00
PR060	Induction chemotherapy in oral squamous cell carcinoma in a tertiary hospital in saudi arabia	08:00 - 19:00
PR061	What's new for surgeons? Surgical guideline updates from the ATA 2025 for differentiated thyroid cancer	08:00 - 19:00
PR062	Incidence of recurrent laryngeal nerve injury and associated risk factors after thyroidectomy: a retrospective study	08:00 - 19:00

PR063	Survival analysis and treatment sequelae in advanced hypopharyngeal cancer: a single-center experience	08:00 - 19:00
PR064	Comparative microbial and functional profiling across feces, tumor, adjacent tissue, and healthy mucosa in HNSCC: implications for locoregional control	08:00 - 19:00
PR065	Faster to diagnosis, closer to cure: a prospective study of a rapid diagnostic center for head and neck cancer	08:00 - 19:00
PR066	Surgical treatment of deep neck space infections at university hospital bratislava, 2013-2024	08:00 - 19:00
PR067	Paediatric tracheobronchial foreign bodies: 14 year retrospective study in a tertiary care hospital	08:00 - 19:00
PR068	Association of worst pattern of invasion and depth of invasion with extranodal extension in oral tongue squamous cell carcinoma	08:00 - 19:00
PR069	Evaluation of the completeness and validity of head and neck cancer data in a hospital data lake	08:00 - 19:00
PR070	Sentinel lymph node in T1/T2 laryngeal cancer	08:00 - 19:00
PR071	Is a bilateral tonsillectomy necessary in cases of squamous cell carcinoma of unknown primary?	08:00 - 19:00
PR072	Post-thyroidectomy hypocalcemia in Roux-en-Y gastric bypass patients: systematic review of therapeutic and preventive strategies	08:00 - 19:00
PR073	Prevalence of postoperative voice problems following thyroid surgery	08:00 - 19:00
PR074	Sentinel lymph node biopsy in squamous cell carcinoma of the pharynx and larynx	08:00 - 19:00
PR075	Methylation and gene expression differences between ASC/TMS1 and MyD88 genes in healthy and cancer laryngeal tissue	08:00 - 19:00
PR076	Trends in HPV-positive oropharyngeal SCC in north israel over the last two decades	08:00 - 19:00
PR077	FNAB predictability in parotis surgery: a single center analysis (2011-2025)	08:00 - 19:00
PR078	Quantitative outcomes of piezoelectric osteotomy in thyroglossal duct cyst excision: a pediatric case series	08:00 - 19:00
PR079	Mandibular osteotomy for carotid body tumor excision: first pediatric case and comparative review of adult outcomes	08:00 - 19:00
PR080	Socio-economic comparison of follow up versus surgery in EU-TIRADS 3 & 4 thyroid nodules	08:00 - 19:00
PR081	Organoid- and genome editing-based models reveal driver-defined mechanisms of head and neck cancer carcinogenesis	08:00 - 19:00
PR082	Effectiveness of PSU blen in maintaining nutritional status in head and neck cancer patients receiving enteral feeding: a non-inferiority randomized controlled trial	08:00 - 19:00
PR083	I have a robot: expectation versus reality	08:00 - 19:00
PR084	Evaluating the manubrium sterni as a site for bone implantation: a 3D radiological feasibility study	08:00 - 19:00

PR085	Electromagnetic tracking of the displacement of the automatic speaking valve during head and neck movement and speech in laryngectomized patients - a case series	08:00 - 19:00
PR086	Sustained elevation of dermal macrophages one year after cessation of radiotherapy	08:00 - 19:00
PR087	Assessment of the needs of oncology patients attending the head and neck functional unit multidisciplinary tumor board	08:00 - 19:00
PR088	Pharyngeal and esophageal perforations after anterior cervical spine surgery: identifying risk factors and optimizing the diagnostic pathway	08:00 - 19:00
PR089	Prognostic factors in nonendemic nasopharyngeal carcinoma	08:00 - 19:00
PR090	Utilisation of the laryngeal adductor reflex for continuous intra-operative neuromonitoring of the recurrent laryngeal nerve during thyroid surgery: our experience and review of the literature	08:00 - 19:00
PR091	Retropharyngeal lymph node recurrences in esthesioneuroblastoma: a scoping review	08:00 - 19:00
PR092	Let's get down to BSNS - a case of biphenotypic sinonasal sarcoma	08:00 - 19:00
PR093	Postoperative infections for patients treated for head neck cancer with benzylpenicillin and kloxacillin or clindamycin as antibiotic prophylaxis. A retrospective cohort study	08:00 - 19:00
PR094	Investigating head and neck cancer patients' lifestyles beyond alcohol and smoking - a lifelines study	08:00 - 19:00
PR095	Recurrent acute tonsillitis: re-evaluating surgical indications through long-term outcome assessment	08:00 - 19:00
PR096	Awareness of human papillomavirus (HPV), increasing rates of oropharyngeal cancer, and estimated economic burden in Denmark	08:00 - 19:00
PR097	Self-reported dysphagia in HNC survivors from diagnosis to twelve months post treatment and predictors for moderate to severe dysphagia	08:00 - 19:00
PR098	Analysis of microbiome and intestinal integrity in patients with head and neck squamous cell carcinoma	08:00 - 19:00
PR099	Risk of malignancy in thy3 thyroid nodules: our experience with 136 consecutive patients	08:00 - 19:00
PR100	Real-world treatment patterns, clinical outcomes and survival rates of laryngeal squamous cell carcinoma (LSCC) in crete	08:00 - 19:00
PR101	The obturator doesn't fit anymore: zygomatic implant perforated flaps as tools for survivorship in patients with maxillectomy defects after failure of long-term obturation and osteoradionecrosis	08:00 - 19:00
PR102	Mixed reality for head and neck cancer: preoperative planning in tongue cancer patients	08:00 - 19:00
PR103	Effectiveness of treatment modalities for olfactory neuroblastoma: a systematic review	08:00 - 19:00
PR104	Molecular characterization of aggressive HPV-positive oropharyngeal squamous cell carcinoma with distant metastasis	08:00 - 19:00
PR105	Clinical case: complex management of a 57-year-old female patient	08:00 - 19:00

	with diabetes, atrial fibrillation, dyslipidemia, obesity, hypertension, and acute neck infection	
PR106	Treatment consensus in oropharyngeal cancer in Taiwan	08:00 - 19:00
PR107	Optimising head and neck cancer pathways: outcomes from an advanced clinical specialist speech and language-led 2WW service	08:00 - 19:00
PR108	Prognostic significance of plasma collagens in oral squamous cell carcinoma	08:00 - 19:00
PR109	Open neck injuries	08:00 - 19:00
PR110	Clinical outcomes in head and neck mucosal melanoma: a Single-Center experience	08:00 - 19:00
PR111	Transoral endoscopic and robotic vestibular access thyroidectomy in the NHS: a pilot study demonstrating safe and effective implementation	08:00 - 19:00
PR112	Risk factors and recovery: impact of alcohol use, gender and human papilloma virus on quality of life in HNC survivors	08:00 - 19:00
PR113	Developing the guy's protocol for post-TORS haemorrhage	08:00 - 19:00
PR114	Audit: end of life care for H&N patients	08:00 - 19:00
PR115	Reduction of postoperative complications through intraoperative monitoring of vascular anastomosis in free flap grafts using indocyanine green angiography	08:00 - 19:00
PR116	Pharyngocutaneous fistula: prevalence and associated risk factors after total laryngectomy	08:00 - 19:00
PR117	Stage-dependent dysregulation of mir-144 in peritumoral mucosa of laryngeal carcinoma: evidence of dynamic field cancerization	08:00 - 19:00
PR118	Quality of life after oral cancer surgery in malta utilising the university of washington oral cancer questionnaire	08:00 - 19:00
PR119	Intra-operative nerve monitoring during thyroid surgery in a tertiary hospital in central India: learning curve and preliminary results	08:00 - 19:00
PR120	Cancer-associated fibroblasts modulate cathepsin b and cathepsin d expression and the radiotherapy response in head and neck squamous cell carcinoma spheroids	08:00 - 19:00
PR121	Olfactory function after head and neck radiotherapy: preliminary dose-response findings with defined olfactory region	08:00 - 19:00
PR122	Treatment and prognosis of lip cancer in stockholm, uppsala and örebro - a multicenter retrospective population based analysis	08:00 - 19:00
PR123	Genome-wide scan of lip cancer detects locus associated with skin cancers	08:00 - 19:00
PR124	Preoperative imaging concordance with surgical findings in parathyroid adenomas: a retrospective study of 150 parathyroidectomies from a single tertiary centre	08:00 - 19:00
PR125	Experimental assessment of micro- and nanoplastic release from tracheostomy tubes	08:00 - 19:00
PR126	Association of sinonasal cancer incidence with occupation in the	08:00 - 19:00

nordic countries - elevated risk especially among woodworkers		
PR127	Does surgical extent matter? A meta-analysis of lobectomy versus total thyroidectomy for low-to-intermediate risk papillary thyroid carcinoma	08:00 - 19:00
PR128	Haemostatic agent use and outcomes of thyroid surgery in a tertiary head and neck centre	08:00 - 19:00
PR129	Challenges for the head and neck surgeon at the transition to the second quarter of the 21st century	08:00 - 19:00
PR130	Cognition, affect, and behavior responses of tobacco-users to visual and textual health-warnings on tobacco packaging and a market survey of quality of warnings in india	08:00 - 19:00
PR131	Natural pathways of spread in oral squamous cell carcinoma	08:00 - 19:00
PR132	Plasma metabolomic patterns associated with functional complications after treatment for head and neck cancer	08:00 - 19:00
PR133	Impact of endotracheal intubation duration on tracheal histopathological changes	08:00 - 19:00
PR134	Nutrition in head and neck cancer	08:00 - 19:00
PR135	Tumour-infiltrating immune cells in tonsillar cancer: no tissue-level signs of inflammaging in the elderly	08:00 - 19:00
PR136	Effects of vascular pedicle geometry on outcomes in midface free flap reconstruction: preliminary results	08:00 - 19:00
PR137	Monocyte-to-lymphocyte ratio as new prognostic factor in patients with medullary thyroid carcinoma	08:00 - 19:00
PR138	Artificial intelligence-driven imputation of clinically validated RNA signatures from whole-slide images in head and neck cancer	08:00 - 19:00
PR139	Supraclavicular flap reconstruction in patients with head and neck cancer, at the carlos van buren hospital	08:00 - 19:00
PR140	Modified intraoral approach in eagle's syndrome: report of two cases	08:00 - 19:00
PR141	Surgical approaches in parapharyngeal space tumors: case series	08:00 - 19:00
PR142	Local recurrence and survival after ultrasound-assisted resection of tongue cancer	08:00 - 19:00
PR143	Establishing a new human cutaneous head and neck squamous cell carcinoma cell line	08:00 - 19:00
PR144	Peri-operative management in Graves' disease: informing the CoNEcTS national audit	08:00 - 19:00
PR145	Refining thyroid nodule risk evaluation with multimodal metrics: size, ultrasound and cytology	08:00 - 19:00
PR146	Bilateral symmetry and variation of recurrent laryngeal nerve and inferior thyroid artery patterns: an intraoperative study of 75 patients (150 nerves)	08:00 - 19:00
PR147	Rationalising preoperative group and save in thyroidectomy: a thyroid volume-based predictive model	08:00 - 19:00

PR148	Quality of life after total laryngectomy: a pilot study in greek head and neck cancer patients	08:00 - 19:00
PC027	Human papillomavirus related multiphenotypic sinonasal carcinoma: report of a case with early metastasis	08:00 - 19:00
PC028	Intraoperative tracheal rupture: surgical and anaesthetic lessons from a critical event	08:00 - 19:00
PC029	Unveiling a rare entity: secretory carcinoma of the major salivary gland	08:00 - 19:00
PC030	Atypical oropharyngeal presentations of secondary syphilis: two rare case reports	08:00 - 19:00
PC031	Malignant rhinophyma in female patient: case report and literature review	08:00 - 19:00
PC032	Adamantinoma - like ewing sarcoma of the head and neck: two case reports of a very rare tumor	08:00 - 19:00
PC033	Multiple myeloma presenting as laryngeal plasmocytoma	08:00 - 19:00
PC034	Cervical schwannoma; our clinical experience at the hospital universitario de canarias	08:00 - 19:00
PC035	Base of tongue involvement in a patient with Sézary syndrome: case report	08:00 - 19:00
PC036	Zenker's diverticulum: a case with atypical location	08:00 - 19:00
PC037	From diagnosis to recovery: a team-based approach to vagal paraganglioma	08:00 - 19:00
PC038	Schwannoma of the external auditory canal: a rare location	08:00 - 19:00
PC039	Extramedullary plasmacytoma of the neck presenting as a rapidly growing mass with neurologic deficits: a case report	08:00 - 19:00
PC040	Extranodal nasal type NK/T-cell lymphoma - a diagnostic challenge	08:00 - 19:00
PC041	Temporal bone squamous cell carcinoma masked by actinomyces infection in a chronic ear	08:00 - 19:00
PC042	The cone in the nasopharynx - plasma cell neoplasm with lambda light chain restriction in an unusual localisation	08:00 - 19:00
PC043	A rare case of thyroid post-transplant lymphoproliferative disorder mimicking anaplastic carcinoma	08:00 - 19:00
PC044	Undifferentiated small round cell sarcoma of the tongue: a rare case report	08:00 - 19:00
PC045	Transoral excision of a giant retropharyngeal lipoma	08:00 - 19:00
PC046	Laryngeal dysfunctional syndrome after radiotherapy: case report	08:00 - 19:00
PC047	Botulinum toxin injection for dysphagia in a patient with free jejunal interposition after salvage total laryngectomy: a case report	08:00 - 19:00
PC048	Laryngeal schwannoma: the challenge of differential diagnosis and endoscopic management	08:00 - 19:00
PC049	Collision tumours of the head and neck: two rare illustrative cases and review of the literature	08:00 - 19:00

PC050	Primary pleomorphic liposarcoma of the parotid gland: a rare and aggressive tumor	08:00 - 19:00
PC051	tension pneumothorax following percutaneous tracheostomy: a rare thoracic complication	08:00 - 19:00
PC052	Solitary fibrous tumor of the orbit - case report	08:00 - 19:00
PC053	A rare laryngeal malignancy: supraglottic myoepithelial carcinoma, case report	08:00 - 19:00
PC054	Cervical ganglioneuroma: a rare benign neurogenic tumour presenting as a parapharyngeal mass	08:00 - 19:00
PC055	Reconstructing without the cut: transoral free flap inset after robotic resection of radio-recurrent oropharyngeal carcinoma	08:00 - 19:00
PC056	A rare case report: fallopian tube serous carcinoma presenting with a neck lump	08:00 - 19:00
PC057	Four cases of anaplastic thyroid carcinoma	08:00 - 19:00
PC058	Seeing beyond the invisible: ultrasound – the stethoscope of the ENT surgeon	08:00 - 19:00
PC059	The COVID-19 pandemic did not impact the survival rate of patients with head and neck cancer	08:00 - 19:00
PC060	Metastatic hepatocellular carcinoma presented as a mass of the external auditory canal - a case study	08:00 - 19:00
PC061	Schwannoma of the tongue: a common tumor in an uncommon localization	08:00 - 19:00
PC062	Intralaryngeal hodgkin's lymphoma: expanding the spectrum of head and neck involvement	08:00 - 19:00
PC063	Synchronous laryngeal squamous cell carcinoma and papillary thyroid carcinoma: a rare clinical entity	08:00 - 19:00
PC064	Unraveling the complexity of congenital tracheal stenosis with 'o' rings	08:00 - 19:00
PC065	Not a tumor: posterior pharyngeal wall lesion secondary to traumatic cervical disc herniation with spontaneous regression	08:00 - 19:00
PC066	Isolated orbital involvement of IgG4-related disease mimicking malignancy	08:00 - 19:00
PC067	Hyperbaric oxygen therapy in the management of type 2 carotid blow-out syndrome due to post-treatment soft tissue radionecrosis in oropharyngeal carcinoma	08:00 - 19:00
PC068	Lemierre's syndrome: when a sore throat can turn fatal	08:00 - 19:00
PC069	The great pretender - tuberculosis mimicking head and neck cancer	08:00 - 19:00
PC070	Conservative surgical management of a thyroid cartilage chondrosarcoma with autologous cartilage reconstruction: a case report and review of surgical considerations	08:00 - 19:00
PC071	Atypical thyroglossal duct cyst with an intralaryngeal extension	08:00 - 19:00
PC072	Surgical management of persistent tracheoesophageal fistulas	08:00 - 19:00

	following failure of voice prostheses	
PC073	Free skin graft reconstruction after extensive cervical necrosis: a case report	08:00 - 19:00
PC074	Contralateral node metastasis in oral cancer	08:00 - 19:00
PC075	Diffuse large B-cell lymphoma presenting with chronic unilateral otological symptoms and progressive skull base disease	08:00 - 19:00
PC076	Deep cervical infection: when should we consider the thyroid as a possible source?	08:00 - 19:00
PC077	Lemierre's syndrome. A case report	08:00 - 19:00
PC078	Epitheses in head and neck reconstruction: enhancing function and aesthetics	08:00 - 19:00
PC079	A rare case of prolapsing pedunculated hypopharyngeal lipomatous tumour presenting post-vomiting	08:00 - 19:00
PC080	Paraganglioma of the thyroid gland: a case report and a review of the literature	08:00 - 19:00
PC081	Misleading lymph nodes: synchronous glottic carcinoma and hodgkin lymphoma	08:00 - 19:00
PC082	A hard-to-diagnose oropharyngeal mass	08:00 - 19:00
PC083	Dysphagia as an initial manifestation of primary thyroid follicular lymphoma: a rare case study	08:00 - 19:00
PC084	Late-onset ventriculoatrial shunt infection presenting as a cervical mass: a case report	08:00 - 19:00
PC085	An unexpected case of dysphagia in a patient with a history of cervical lipomas	08:00 - 19:00
PC086	Case report of mixed medullary and papillary thyroid carcinoma in patient with Graves disease: diagnostic and therapeutic considerations	08:00 - 19:00
PC087	Primary branchiogenic carcinoma of neck: a case report	08:00 - 19:00
PC088	Advanced cylindromatosis of the scalp - modern approached to diagnostics and treatment	08:00 - 19:00
PC089	Lingual abscess: the decisive role of otolaryngologic evaluation and surgical management	08:00 - 19:00
PC090	Buccal solitary fibrous tumor: a case report	08:00 - 19:00
PC091	Concurrent mutlispeciality, dual site, single session robotic surgery for synchronous primaries: a case series	08:00 - 19:00
PC092	Cryoablation of cervical lymph node	08:00 - 19:00
PC093	Blue laser vaporization for high-grade dysplasia in oropharyngeal leukoplakia: a case report and technical review	08:00 - 19:00
PC094	Tall cell variant of papillary thyroid carcinoma with metaplastic mucoepidermoid component - a case report and literature review	08:00 - 19:00
PC095	Beyond the lungs: a case report of lung adenocarcinoma metastasis to the oropharynx	08:00 - 19:00

PC096	Following the trail of stones: a sialo-tonsillar fistula masquerading as tonsillolithiasis	08:00 - 19:00
PC097	Unmasking the hidden culprit via ultrasound: fish bone migration leading to mandibular osteomyelitis	08:00 - 19:00
PC098	Laryngeal schwannoma with compressive symptoms: case report and literature review	08:00 - 19:00
PC099	Ectopic thyroid carcinoma: a case report and literature review	08:00 - 19:00
PC100	Actinomycosis: a mime of cancer - our experience	08:00 - 19:00
PC101	Challenges and difficulties in a huge papillary carcinoma on lingual thyroid: a case study	08:00 - 19:00
PC102	Palpation thyroiditis following subtotal parathyroidectomy: a rare case of postoperative thyrotoxic crisis	08:00 - 19:00
PC103	Cervical tuberculosis presenting as thyroid malignancy: diagnostic challenges and clinical insights	08:00 - 19:00
PC104	Sinonasal and otological squamous cell carcinoma after occupational nickel exposure	08:00 - 19:00
PC105	Surgical tips in Madelung's disease with anterior cervical involvement - two case presentation	08:00 - 19:00
<i>ePoster</i>		
08:00 - 19:00		ePoster area
EP.01.02 - Facial Plastics and Reconstructive Surgery		
	<u>ePosters are displayed throughout the whole congress at all ePoster Terminals</u>	08:00 - 19:00
	- no designated presentation slot	
	- you are not required to be there at a dedicated time	
PR023	Correction of middle nasal vault deformity using auricular cartilage	08:00 - 19:00
PR024	Evaluation of artificial intelligence chatbots for facial injection planning: comparative performance and safety limitations	08:00 - 19:00
PR025	Use of condoms for practising venous end-to-side anastomosis: an expert-opinion survey	08:00 - 19:00
PR026	Modified perichondrial-periosteal flaps to camouflage nasal dorsum in rhinoplasty	08:00 - 19:00
PR027	Blood vessels orchestrate fibroblast phenotype in tissue fibrosis	08:00 - 19:00
PR028	Scientific evidence on topical wound-healing products	08:00 - 19:00
PR029	Clinical significance of maxillary sinus pathology in midface reconstruction in patients with combat-related trauma	08:00 - 19:00
PR030	Validation of dry eye questionnaire 5: a short but comprehensive survey to identify dry eyes in facial palsy patients	08:00 - 19:00
PR031	A brief history of facial reconstruction	08:00 - 19:00
PR032	Knowledge of rhinoplasty essential for facial trauma reconstruction - the first use of fish skin as a nasal graft	08:00 - 19:00
PR033	In-house 3D printing for customised reconstruction after orbital	08:00 - 19:00

	blow-out fracture	
PR034	Facial skin distribution of nonmelanoma skin cancers: our experience	08:00 - 19:00
PC009	Pharynx reconstruction. Decision-making and proposal for a reconstructive algorithm	08:00 - 19:00
PC010	Reconstruction of a unilateral constricted ear deformity in a 16-year-old female: a case report	08:00 - 19:00
PC011	Epithetic rehabilitation of tumor-related head and neck defects	08:00 - 19:00
PC012	Integrated multitechnique approach to major nasal reconstruction	08:00 - 19:00
PC013	Free buccal mucosal graft for the reconstruction of severe lower lip mucosal deficit: a case report	08:00 - 19:00
PC014	Not every auricular mass is a keloid: a rare case of auricular schwannoma and review of the literature	08:00 - 19:00

RT.SU.18 - Teaching in otology: What the new generation needs - an interactive discussion

Gunta Seglina (Riga, Latvia)

Lukas Anschuetz (Lausanne, Switzerland)

Introduction

11:30 - 11:35

Lukas Anschuetz (Lausanne, Switzerland)

Small group workshop 1: General needs in otology teaching and training

11:35 - 11:50

Small group workshop 2: Discussion on predefined topics:	11:50 - 12:05
Generational change in surgery Daniele Borsetto (Cambridge, United Kingdom)	12:05 - 12:05
Training on simulators Pietro Canzi (Pavia, Italy)	12:05 - 12:05
Fellowships Gunta Seglina (Riga, Latvia)	12:05 - 12:05
Academic development Francois Simon (Paris, France)	12:05 - 12:05
Intraoperative surgical training Elke Loos (Leuven, Belgium)	12:05 - 12:05
Career planning Lukas Anschuetz (Lausanne, Switzerland)	12:05 - 12:05
Small group workshop 3: Groups by experience (residents, fellows, young consultants)	12:05 - 12:20
Interactive discussion of results	12:20 - 12:40
Plenary synthesis and conclusion Lukas Anschuetz (Lausanne, Switzerland)	12:40 - 12:45

Otology/Implantable hearing devices

11:30 - 12:45

G1

RT.SU.19 - Bone conduction implants versus ossiculoplasty

Marcus Neudert (Dresden, Germany)

Wolf-Dieter Baumgartner (Vienna, Austria)

Bone conduction implants versus ossiculoplasty

11:30 - 11:45

Myrthe Hol (Groningen, Netherlands)

Bone conduction implants versus ossiculoplasty

11:45 - 12:00

Martin Kompis (Bern, Switzerland)

Bone conduction implants versus ossiculoplasty

12:00 - 12:15

Mark Praetorius (Hamburg, Germany)

FP.SU.01 - Awards		
Linda Marklund (Uppsala/Stockholm, Sweden)		
Rusana Bark (Stockholm, Sweden)		
FP001	Saliva and recurrence in head and neck cancer: insights from the functional microbiome	15:00 - 15:09
	Francesc Xavier Avilés-Jurado (Barcelona, Spain)	
FP002	Tumor dispersion analysis of sinonasal and anterior craniofacial tumors	15:09 - 15:18
	Piergiorgio Gaudio (Padova, Italy)	
FP003	Impedance and functional outcomes in robotic-assisted or manual cochlear implantation: a comparative study	15:18 - 15:27
	Guillaume Gersdorff (Victoria, Australia)	
FP004	Analysis and comparison of activation responses of trigeminal receptors TRPV1 and TRPM8 in lateralization task in healthy subjects	15:27 - 15:36
	Carla Rodriguez Zanetti (Pamplona, Spain)	
FP005	Long-term endocrine morbidity following childhood adenoidectomy and adenotonsillectomy: a large-scale retrospective cohort study	15:36 - 15:45
	Aviad Sapir (Beer Sheva, Israel)	
FP006	Endolymphatic duct blockage for Ménière's disease: a double-blind, randomised controlled trial	15:45 - 15:54
	Annejet Alida Schenck (Leiden, Netherlands)	
FP007	Anatomy of the intra-laryngeal end of the inferior laryngeal nerve	15:54 - 16:03
	Louis Schieres (Liège, Belgium)	
FP008	Digital innovation in ENT and its challenges: presenting BreatheBuddy as an indicative exemplar	16:03 - 16:12
	Haroon Saeed (London, United Kingdom)	
FP009	ENTeach: a trainee-led national virtual learning environment for ENT education in the UK	16:12 - 16:21

	Emma Watts (Birmingham, United Kingdom)	
FP010	Changing the angle: redefining lateral sphenoid CSF leak repair with the endoscopic transorbital superior eyelid approach Asiya Zaidi (Birmingham, United Kingdom)	16:21 - 16:30
<i>Head and neck</i>		
15:00 - 16:30		
E4		
FP.SU.02 - Diagnostics, pathophysiology & innovation		
Maria Värendh (Örebro and Lund, Sweden)		
FP011	Remote digitally enabled otorhinolaryngology clinics in secondary care: a non-inferiority pilot study Dimitrios Spinos (Birmingham, United Kingdom)	15:00 - 15:09
FP012	Retrospective analysis of hearing loss caused by systemic lupus erythematosus (SLE) and exploration of biological information on its pathogenesis Li Chen (Beijing, China)	15:09 - 15:18
FP013	Cold versus hot haemostasis in tonsillectomy: impact on post-tonsillectomy haemorrhage and pain perception - results from a randomised clinical trial Michael F. Howitz (Copenhagen, Denmark)	15:18 - 15:27
FP014	Tonsil organoids as a platform to study host-pathogen interactions and immune mechanisms Charlotte Kötting (Hamburg, Germany)	15:27 - 15:36
FP015	Artificial intelligence tools to support literature reviews in otorhinolaryngology: from search to synthesis Andrea Lopez-Salcedo (San Sebastián de Los Reyes, Spain)	15:36 - 15:45
FP016	Choosing between external versus endoscopic approaches for Zenker's diverticulum: a size- and access-based surgical algorithm from six years' of practice Stavroula Mouratidou (London, United Kingdom)	15:45 - 15:54
FP017	Using AI to reduce administrative burden: data extraction from clinical notes in head and neck oncology Josephine Willemijn van Koevorden (Amsterdam, Netherlands)	15:54 - 16:03
FP018	Nanoplastics and nanotyre detected in human tonsils and possible immune effects Maria Värendh (Örebro and Lund, Sweden)	16:03 - 16:12
<i>Facial Plastics and reconstructive surgery</i>		
15:00 - 16:30		
G1		
FP.SU.03 - Reconstruction, aesthetics and functional outcome		
Lenka Peterková (Prague, Czech Republic)		
FP019	Posterior cranial vault distractor osteogenesis for the treatment of chiari malformation: a case series William Cobb (Orlando, United States)	15:00 - 15:09
FP020	How big is too big? Dysphagia in benign thyroid goiter Karuna Dewan (Shreveport, United States)	15:09 - 15:18
FP021	Trilayer temporalis fascia interposition graft for nasal septal perforation repair Dane Genther (Cleveland, United States)	15:18 - 15:27
FP022	Parascapular free flap with lateral border of scapular for extensive oropharyngeal defects, a detailed surgical technique with video	15:27 - 15:36

	support	
	Alexandre Haddad (Paris, France)	
FP023	Our experience in reconstruction of head and neck war injuries using patient specific implants (PSIs) Nataliia Komashko (Ivano-Frankivsk, Ukraine)	15:36 - 15:45
FP024	Objective evaluation of facial nerve function using software processing Lenka Peterková (Prague, Czech Republic)	15:45 - 15:54
FP025	Long-term resorption rate of frozen rib cartilage grafts in septorhinoplasty: a retrospective study Francesca Pirola (London, United Kingdom)	15:54 - 16:03
FP026	Midterm follow-up findings of rhinophyma patients treated with combined electrosurgery and co2 laser treatment: our experience Gonçalo Quadros (Viseu, Portugal)	16:03 - 16:12
FP027	Gillies or curved hook? Long-term outcomes of different approaches to isolated zygomatic arch fractures Samin Rahbin (Stockholm, Sweden)	16:12 - 16:21
FP028	Optimizing oral reconstruction: outcomes of conventional versus transposition facial artery myomucosal (FAMM) flaps Kasper Basse Reinholdt (Aarhus N, Denmark)	16:21 - 16:30
<i>Head and neck</i>		
15:00 - 16:30		
G2		
FP.SU.04 - Reconstruction, flaps and advanced surgical techniques		
Eeva Haapio (Turku, Finland)		
Pelin Samaraz Olgun (Kirsehir, Türkiye)		
FP029	Subhyoid approach to the base of tongue Nicola Amato (Bologna, Italy)	15:00 - 15:09
FP030	Evaluating FAMM flap ischemia in the first seven postoperative days Pelle Hanberg (Aarhus N, Denmark)	15:09 - 15:18
FP031	Submental island pedicled flap for reconstruction of large buccal defects Richard Hayden (Phoenix, United States)	15:18 - 15:27
FP032	Analysis on feasibility of functional preservation surgery of T3/T4 head and neck cancer - a pirouette around the cricoarytenoid joint Todor Miroslavov Popov (Sofia, Bulgaria)	15:27 - 15:36
FP033	An imaginary triangle concept for parapharyngeal space dissection: anatomical study Pelin Samaraz Olgun (Kirsehir, Türkiye)	15:36 - 15:45
FP034	Starting remote retroauricular robotic neck surgery: a step-by-step practical guide for lateral cervical pathology Claudio Sampieri (Barcelona, Spain)	15:45 - 15:54
FP035	Functional results of soft palate reconstruction with plain or folded radial forearm flap Sabine Schreiner (Würzburg, Germany)	15:54 - 16:03
FP036	Surgical anatomical dissection stratification of the parapharyngeal space for transoral surgery David Virós Porcuna (Barcelona, Spain)	16:03 - 16:12

Head and neck

15:00 - 16:30

G3

FP.SU.05 - Biomarkers and immunology

Aina Brunet (Barcelona, Spain)

Krzysztof Piersiala (Stockholm, Sweden)

FP037	Dynamic changes in the systemic immune-inflammation index and the prognosis of oropharyngeal cancer patients: a retrospective study Yi Kai Chang (New Taipei City, Taiwan)	15:00 - 15:09
FP038	Preclinical evaluation of c-MET-targeted PET imaging in a mouse model of head and neck squamous cell carcinoma Emilie Jaffrelo (Paris, France)	15:09 - 15:18
FP039	mRNA-LNP vaccination orchestrates systemic immunity to control human papillomavirus-positive head and neck squamous cell carcinoma Minzi Mao (Chengdu, China)	15:18 - 15:27
FP040	SCANDARE head and neck: a successful, flexible, prospective, and longitudinal biobank framework Joey Martin (Paris, France)	15:27 - 15:36
FP041	Real life outcomes of nivolumab treatment in head and neck squamous cell carcinomas: a retrospective study Ernesto Martín Guillermo (Oviedo, Spain)	15:36 - 15:45
FP042	Senescent cells and SASP in head and neck squamous cell carcinoma: a double-edged role in tumor progression Michal M. Masternak (Orlando, United States)	15:45 - 15:54
FP043	Metabolomic fingerprint in head and neck squamous cell carcinoma Guiseppe Riva (Torino, Italy)	15:54 - 16:03
FP044	B-cell dysfunction in tumor-draining lymph nodes predicts relapse in oral squamous cell carcinoma Krzysztof Piersiala (Stockholm, Sweden)	16:03 - 16:12
FP045	Long-term survival following neoadjuvant immunotherapy in head and neck squamous cell carcinoma Stan Wilhelmus van Dijk (Amsterdam, Netherlands)	16:12 - 16:21

Paediatrics

15:00 - 16:30

G4

FP.SU.06 - Airway

Lina Woods (Dublin, Ireland)

Romain Luscan (Paris, France)

FP046	Comparative outcomes of mucosa-preserving one-step supraglottoplasty vs. conventional technique Muataz Alhashem (Edmonton, Canada)	15:00 - 15:09
FP047	Predictive models and triage algorithms for pediatric airway foreign body aspiration Patrick El Khoury (Paris, France)	15:09 - 15:18
FP048	The amelioration of pediatric subglottic stenosis (SGS) by antimicrobial peptides released from a drug-eluting endotracheal tubes in a murine model Riccardo Gottardi (Philadelphia, United States)	15:18 - 15:27
FP049	Incidence and risk factors of respiratory events after tonsillectomy for obstructive sleep apnea in children with a preoperative	15:27 - 15:36

	indication of intensive care unit admission Romain Luscan (Paris, France)	
FP050	Decline in juvenile onset recurrent respiratory papillomatosis following the introduction of human papilloma virus vaccination programme in ireland Alison Mchugh (Dublin, Ireland)	15:36 - 15:45
FP051	Automated 3D tracheal reconstruction from CT scans for diagnosis of paediatric tracheal stenosis Eric Moreddu (Marseille, France)	15:45 - 15:54
FP052	Recurrent croup - defining referral thresholds and the role of airway endoscopy in ENT practice Noon Nassr (Wakefield, United Kingdom)	15:54 - 16:03
FP053	Approach to congenital tracheal cartilaginous sleeve in children: a single-centre experience and systematic review Jeyasakthy Saniasiaya (Kuala Lumpur, Malaysia)	16:03 - 16:12
FP054	Evaluation of the effectiveness of endoscopic anterior-posterior cricoid split (APCS) in the early management of congenital idiopathic bilateral vocal fold immobility (ciBVFI) Briac Thierry (Paris, France)	16:12 - 16:21
FP055	Predictive value of the inferior facial angle for neonatal respiratory status in pierre robin sequence Briac Thierry (Paris, France)	16:21 - 16:30
 <i>Rhinology</i>		
	15:00 - 16:30	H1
	FP.SU.07 - Diagnostics, imaging and AI	
	Marlene Speth (Munich, Germany) Marie Lundberg (Helsinki, Finland)	
FP056	Diagnostic accuracy of a large language model (ChatGPT-4o) in chronic rhinosinusitis CT scan interpretation Mohammed Sulaiman Alsayyari (Riyadh, Saudi Arabia)	15:00 - 15:09
FP057	Cocaine-induced midline destructive lesions: diagnostic pitfalls and outcomes from a regional referral centre, broomfield hospital Melis Arkan (Chelmsford, United Kingdom)	15:09 - 15:18
FP058	Enhancing early detection of nasal manifestations in autoimmune diseases using narrow band imaging: a 2-year retrospective study Khaled Elgogary (Lincoln, United Kingdom)	15:18 - 15:27
FP059	A prospective evaluation of the latera implant in nasal valve collapse: functional rhinoplasty outcome inventory-17 (FROI-17) as a primary outcome measure Abdelrahman Ezzat Ibrahim (Lincoln, United Kingdom)	15:27 - 15:36
FP060	Multiple attachment sites and broad-based attachment as independent predictors of recurrence in sinonasal papilloma Hakan Kara (İstanbul, Türkiye)	15:36 - 15:45
FP061	Postoperative nasal irrigation with xylitol for three months after functional endoscopic sinus surgery, an RCT of 200 patients Marie Lundberg (Helsinki, Finland)	15:45 - 15:54
FP062	Subjective irritant hyperreactivity in allergic rhinitis: subtype comparison and sex differences Karolina Milos (Pula, Croatia)	15:54 - 16:03
FP063	Relationship between nasal septum deviation severity and	16:03 - 16:12

	ipsilateral maxillary sinus volume: a CT-based retrospective analysis	
	Batuhan Unlu (Istanbul, Türkiye)	
FP064	Artificial intelligence applications in sinonasal pathology detection: a systematic review	16:12 - 16:21
	Dimitrios Spinos (Birmingham, United Kingdom)	
<i>Otology/Implantable hearing devices</i>		
	15:00 - 16:30	H2
FP.SU.08 - Bone anchored and active ME implants; tube dilatation		
	Steven Andersen (Copenhagen, Denmark)	
	Christof Rösli (Zurich, Switzerland)	
FP065	Active middle ear implant vs conventional hearing aid: a prospective clinical study	15:00 - 15:09
	Karl-Ludwig Bruchhage (Lübeck, Germany)	
FP066	Histopathological changes after balloon eustachian tuboplasty in children using a low-cost standard endovascular balloon: a prospective histological evaluation	15:09 - 15:18
	Abdelrahman Mostafa Hassan Elsayed (Alexandria, Egypt)	
FP067	Experiences of sentio system implantation in young children - a status update from a multicenter indication extension study	15:18 - 15:27
	Myrthe Hol (Groningen, Netherlands)	
FP068	The safety and performance of a new active transcutaneous bone-anchored hearing system, 24-month follow-up	15:27 - 15:36
	Myrthe Hol (Groningen, Netherlands)	
FP069	Lessons learned from 1619 balloon dilations of eustachian tube in local anesthesia: patient selection, protocol, surgical tips, outcomes and pitfalls	15:36 - 15:45
	Martin Nue Møller (Copenhagen, Denmark)	
FP070	Objective measurement of audibility for patients with bone conduction devices using a new skin microphone	15:45 - 15:54
	Ann-Charlotte Persson (Gothenburg, Sweden)	
FP071	Cochlear activation following active middle ear implants	15:54 - 16:03
	Christof Rösli (Zurich, Switzerland)	
FP072	Comparative effectiveness of cochlear implant, bone conduction, and CROS devices on hearing and quality of life in single-sided deafness: outcomes of a randomized controlled trial	16:03 - 16:12
	Diane Smit (Utrecht, Netherlands)	
<i>Head and neck</i>		
	15:00 - 16:30	J2
FP.SU.09 - Survivorship and quality of life		
	Björn Palmgren (Stockholm, Sweden)	
	Roland Giger (Bern, Switzerland)	
FP073	Swallowing function after treatment for oral cavity cancer: a systematic review of studies using modified barium swallow	15:00 - 15:09
	Mathilde Aalling (Aarhus N, Denmark)	
FP074	Individualised deintensified versus standard follow-up after curative treatment in head and neck cancer: a randomised pilot study (DeIntensIF)	15:09 - 15:18
	Roland Giger (Bern, Switzerland)	
FP075	Associations between self-perceived stress, anxiety and depression	15:18 - 15:27

	and return-to-work outcomes among head and neck cancer survivors	
	Hedvig Olander (Uppsala, Sweden)	
FP076	Dependence on nasogastric Tube/Percutaneous gastrostomy tube following total Laryngectomy/Pharyngolaryngectomy: incidence, risk factors, and neopharyngeal stenosis	15:27 - 15:36
	Rosa Delia Ramírez Ruiz (Barcelona, Spain)	
FP077	Quality of life in oropharyngeal cancer survivors - long-term results of a 2-year prospective follow-up	15:36 - 15:45
	Pihla Ranta (Turku, Finland)	
FP078	Treatment with head-lift exercise in head and neck cancer patients with radiation-induced dysphagia: 12-month results on swallowing function from a randomized, controlled trial	15:45 - 15:54
	Signe Rödseth Smith (Gothenburg, Sweden)	
FP079	A meta-analysis of functional outcomes and recovery metrics comparing transoral robotic surgery (TORS) and (Chemo)Radiotherapy	15:54 - 16:03
	Simpson Shiu Chung Tam (Cambridge, United Kingdom)	
FP080	Exercise in head and neck cancer patients for prevention of temporomandibular disorders: a randomized controlled trial	16:03 - 16:12
	Lisa Tuomi (Göteborg, Sweden)	
FP081	Nutritional prehabilitation in patients with (advanced) head and neck cancer	16:12 - 16:21
	Inge Wegner (Groningen, Netherlands)	
<i>Sleep medicine</i>		
15:00 - 16:30		R2
FP.SU.10 - Advances in surgery and outcomes		
Johanna Gudmundsdottir (Gothenburg, Sweden)		
Joar Sundman (Stockholm, Sweden)		
FP082	KATE three years follow-up of adenotonsillectomy versus watchful waiting in pediatric mild to moderate obstructive sleep apnea. A randomized clinical trial	15:00 - 15:09
	Danielle Friberg (Uppsala, Sweden)	
FP083	Seven-year follow-up of patients with tonsillar hypertrophy and obstructive sleep apnea treated with tonsillectomy or modified uvulopalatopharyngoplasty; the TEAMUP randomized clinical trial	15:09 - 15:18
	Joar Sundman (Stockholm, Sweden)	
FP084	The impact of nasal surgery on nasal symptoms and snoring in patients with obstructive sleep-disordered breathing: a prospective study	15:18 - 15:27
	Catarina Gomes Pinto (Vila Nova de Gaia, Portugal)	
FP085	From blocked noses to better sleep: the impact of mepolizumab and FESS in severe CRSwNP	15:27 - 15:36
	Anne-Sophie Homøe (Copenhagen, Denmark)	
FP086	Effect of orofacial myofunctional therapy on chewing efficiency, lip strength and tongue strength. A randomized controlled trial	15:36 - 15:45
	Harald Hrubos-Strøm (Lørenskog, Norway)	
FP087	Early adherence patterns and clinical phenotypes in CPAP-treated patients with obstructive sleep apnoea	15:45 - 15:54
	Karin Jeppesen (Aabenraa, Denmark)	
FP088	Fourteen years of neuromodulation in OLVG amsterdam: structured	15:54 - 16:03

	innovation in hypoglossal nerve stimulation for obstructive sleep apnea	
	Simarjeet Kaur Singh (Amsterdam, Netherlands)	
FP089	Results of intracapsular tonsillectomy in adults with obstructive sleep apnea and large tonsils	16:03 - 16:12
	Henrik Sjöblom (Turku, Finland)	
FP090	Imaging features of obstructive sleep apnea patients with epiglottic collapse vs non-epiglottic collapse in china	16:12 - 16:21
	Di Zhao (Hangzhou, China)	
<i>Otology/neurotology</i>		
15:00 - 16:30		
		R4
FP.SU.11 - Vestibular schwannoma; lateral skull base		
Vera Lohnherr (Heidelberg, Germany)		
Matteo Di Bari (Legnano (Milan), Italy)		
FP091	Outcomes of transmastoid cerebrospinal fluid leak repair: a clinical experience with 22 patients	15:00 - 15:09
	Turki Al Salti (Dublin, Ireland)	
FP092	Inner ear schwannomas as a risk factor for early hearing loss independent of vestibular schwannoma growth in NF2-related schwannomatosis	15:09 - 15:18
	Marina Brimiouille (Oxford, United Kingdom)	
FP093	What's new in subtotal petrosectomy with cochlear implant: can the choice of obliteration material change the results?	15:18 - 15:27
	Matteo Di Bari (Legnano (Milan), Italy)	
FP094	Endolymphatic sac surgery for intractable menière's: overview from a 49-country international survey, radioanatomical predictors, and experience from a French bicentric cohort	15:27 - 15:36
	Stéphane Gargula (Marseille, France)	
FP095	Long-term outcomes after gamma knife for vestibular schwannoma: a retrospective cohort of 191 patients with > 5-year follow-up	15:36 - 15:45
	Mark Markov (London, United Kingdom)	
FP096	Vestibular organ surgery: a piezo of cake? Using a piezoelectric drill to fenestrate semicircular canals	15:45 - 15:54
	Raymond van der Berg (Maastricht, Netherlands)	
<i>Paediatrics</i>

FP.SU.14 - Multidisciplinary perspectives and advances in diagnostics and management

Hila Klein (Haifa, Israel)

Marcel Mayer (Cologne, Germany)

FP114	Collaborative voice therapy supports individual progress in transgender women Maria Brengesjö (Gothenburg, Sweden)	15:00 - 15:09
FP115	Viral DNA in submandibular gland tissue with an inflammatory disorder Maria Jauhiainen (Helsinki, Finland)	15:09 - 15:18
FP116	Oropharyngeal dysphagia in infants: diagnostics and risk factors - a retrospective analysis Veronika Kranebitter (Vienna, Austria)	15:18 - 15:27
FP117	Computed tomography-measured minimum fascia-tumor distance for parotid tumor location and facial palsy prediction Yichan Lee (Keelug, Taiwan)	15:27 - 15:36
FP118	Spatial analysis of the cellular tumor microenvironment landscape in salivary gland carcinoma: matrix cancer-associated fibroblasts and tumor vasculature are co-localized, and their interaction mediates metastasis Marcel Mayer (Cologne, Germany)	15:36 - 15:45
FP119	Application of 3D models of the facial nerve in parotid gland surgery: a Delphi study Manon Moll (Amsterdam, Netherlands)	15:45 - 15:54
FP120	Dry mouth by report or by measure? Comparison of fox and xerostomia inventory scores with sialometry Magdalena Ostrowska (Bydgoszcz, Poland)	15:54 - 16:03
FP121	Predicting parotid tumor histology using AI-assisted MRI: a 97-case correlation study Ömer Sancaktar (Izmir, Türkiye)	16:03 - 16:12
FP122	Comprehensive management of spasmodic dysphonia: diagnostic and therapeutic strategies with the inclusion of an adjunctive diagnostic assessment based on nasal blockage Alberto Tettamanti (Milan, Italy)	16:12 - 16:21
FP123	The voice as a tool to detect recurrence of laryngeal and hypopharyngeal cancer (VoiceDetect) - interim analysis of a feasibility study Miranda Visini (Bern, Switzerland)	16:21 - 16:30

Rhinology

15:00 - 16:30

R31

FP.SU.15 - Surgical techniques and perioperative strategies

Anda Gata (Cluj-Napoca, Romania)

Dario Ebode (Marseille, France)

FP124	Mediterranean septorhinoplasty-prospective study of 1000 cases Adrian Agius (Msida, Malta)	15:00 - 15:09
FP125	Impact of endoscopic orbital decompression on proptosis and quality of life in Graves' orbitopathy Santiago Almanzo (Valencia, Spain)	15:09 - 15:18
FP126	Nasoseptal Flap(NSF) for sinus and skull base reconstructions: retrospective study to evaluate the indication, outcome of NSF at	15:18 - 15:27

	tertiary center with systemic review Mohammed Alwashahi (Muscat, Oman)	
FP127	Safety and efficacy assessment of navigated sinus balloon sinusoplasty to treat nasofrontal duct dysfunctions Ludovic De Gabory (Bordeaux, France)	15:27 - 15:36
FP128	Transpalpebral frontal sinus septectomy: feasibility and results Dario Ebode (Marseille, France)	15:36 - 15:45
FP129	The endoscopic pre-lacrimal approach: the way we do it – technical steps, tips and case examples José Ferreira Peneda (Matosinhos, Portugal)	15:45 - 15:54
FP130	Preoperative antibiotic prophylaxis and surgical site infections in septoplasty Sara Sainio (Helsinki, Finland)	15:54 - 16:03
FP131	Modified protocol for management of ICA injury in endoscopic sinus surgery Carl Snyderman (Pittsburgh, United States)	16:03 - 16:12
FP132	A case of optic canal fracture treated with endoscopic surgery Ryotaro Tanaka (Kanazawa-ku, Yokohama-shi, Kanagawa, Japan)	16:12 - 16:21
FP133	CRS in a birth cohort - early risk factors and development of symptoms from childhood to young adult Karin Åberg (Stockholm, Sweden)	16:21 - 16:30
-		
16:30 - 17:00		Congress Hall

IC.MO.01 - Salvage surgery: Practical tips and pitfalls to avoid

Pawel Golusiński (Zielona Gora, Poland)

Welcome and learning objectives

Pawel Golusiński (Zielona Gora, Poland)

08:00 - 08:03

Salvage surgery of the larynx

Pawel Golusiński (Zielona Gora, Poland)

08:03 - 08:16

Salvage surgery of oropharyngeal cancer

Jan Klozar (Prague, Czech Republic)

08:16 - 08:28

Interactive case discussion. Debate

08:28 - 08:40

Take-home checklist (“pitfalls to avoid”) and decision algorithm

08:40 - 08:44

Final Q&A and closing

Pawel Golusiński (Zielona Gora, Poland)

08:44 - 08:45

Educational track

08:00 - 08:45

E4

IC.MO.02 - Basic FESS, unmet issues discussed through peculiar clinical cases

Valerie Hox (Brussels, Belgium)

Introduction

Valerie Hox (Brussels, Belgium)

08:00 - 08:05

Interactive discussion on basic principles of FESS

Valerie Hox (Brussels, Belgium)

Marko Velimir Grgić (Zagreb, Croatia)

Benjamin Verillaud (Paris, France)

08:05 - 08:35

Discussion

08:35 - 08:45

Laryngology

08:00 - 08:45

G1

IC.MO.03 - (AAO-HNS) Office-based laryngology procedures: Positioning for success

David Rosow (Miami, United States)

Introduction to office-based laryngology and common challenges

David Rosow (Miami, United States)

08:00 - 08:05

Office-based voice procedures

David Rosow (Miami, United States)

08:05 - 08:15

Office-based airway procedures

Ruth Davis (Madison, United States)

08:15 - 08:25

Transnasal Esophagoscopy and office-based esophageal procedures

Shumon Dhar (Dallas, United States)

08:25 - 08:35

Questions and discussion

08:35 - 08:45

Presidents' track

08:00 - 08:45

G2

IC.MO.04 - Salvage surgery after chemoradiation failures

Giuseppe Spriano (Milan, Italy)

Nasopharynx

08:00 - 08:15

Ehab Y Hanna (Houston, United States)

Oropharynx

08:15 - 08:30

Ian Ganly (New York, United States)

IC.MO.10 - Multimodal treatment in snoring and OSA

Ewa Olszewska (Bialystok, Poland)

Introduction - Goals of this presentation**Definition of Multimodal treatment****What are the treatment methods for OSA**

Ewa Olszewska (Bialystok, Poland)

08:00 - 08:15

Multimodal treatment results in snoring and OSA**Cases will be presented to demonstrate a multimodal approach to the participants**

Andrea De Vito (Forlì, Italy)

08:15 - 08:30

Discussion

08:30 - 08:45

Otology/Implantable hearing devices

08:00 - 08:45

R2

IC.MO.11 - Atraumatic cochlear implant surgery: How I do it

Ravi N. Samy (Allentown, United States)

Atraumatic cochlear implant surgery: How I do it

Ravi N. Samy (Allentown, United States)

08:00 - 08:10

Atraumatic cochlear implant surgery: How I do it

Glynnis De Greve (Antwerp, Belgium)

08:10 - 08:20

Atraumatic cochlear implant surgery: How I do it

Giorgio Lilli (Milan, Italy)

08:20 - 08:30

Head and neck

08:00 - 08:45

R4

IC.MO.12 - The role of speech pathology in complex swallowing rehabilitation in HNC

Jonna Kuuskoski (Turku, Finland)

ENT perspectives on complex swallowing rehabilitation

08:00 - 08:15

Jonna Kuuskoski (Turku, Finland)

SLP perspectives on complex swallowing rehabilitation

08:15 - 08:35

Joanne Patterson (Liverpool, United Kingdom)

Discussion

08:35 - 08:45

Phoniatrics

08:00 - 08:45

R14

IC.MO.13 - Management of voice-related gender dysphoria

Hyuang-Tae Kim (Seoul, Korea, Republic of)

Introduction

08:00 - 08:02

Hyuang-Tae Kim (Seoul, Korea, Republic of)

Laser reduction glottoplasty: Patient selection, indications, surgical pitfalls, and outcomes

08:02 - 08:14

Ismail Kocak (Istanbul, Türkiye)

Multidisciplinary perspectives on voice-related dysphonia focus on speech therapy and non-surgical management strategies

08:14 - 08:26

Seher Sirin (Kocaeli, Türkiye)

Surgical advances and experience of VFSRAC and beyond

08:26 - 08:38

Hyuang-Tae Kim (Seoul, Korea, Republic of)

Case-based discussion and audience Q&A

08:38 - 08:45

Audiology and Vestibular disorders

08:00 - 08:45

R17

IC.MO.14 - oVEMP + cVEMP in the clinic - how, who, and why?

Luca Verrecchia (Stockholm, Sweden)

Introduction

08:00 - 08:05

Luca Verrecchia (Stockholm, Sweden)

VEMP in clinical testing

08:05 - 08:15

Julia Długaiczek (Zurich, Switzerland)

VEMP and diagnosis of superior canal dehiscence syndrome

08:15 - 08:30

Luca Verrecchia (Stockholm, Sweden)

VEMP in other audiovestibular disorders

08:30 - 08:40

Julia Długaiczek (Zurich, Switzerland)

Discussion

08:40 - 08:45

Skull base

08:00 - 08:45

R18

IC.MO.15 - Endoscopic endonasal approaches to sella and parasellar region: From minimally-invasive to maximally-effective

Shahzada Ahmed (Birmingham, United Kingdom)

Endoscopic endonasal approaches to sella and parasellar region: From minimally-invasive to maximally-effective

08:00 - 08:10

Shahzada Ahmed (Birmingham, United Kingdom)

Endoscopic endonasal approaches to sella and parasellar region: From minimally-invasive to maximally-effective	08:10 - 08:20
Asa Kagedal (Stockholm, Sweden)	
Endoscopic endonasal approaches to sella and parasellar region: From minimally-invasive to maximally-effective	08:20 - 08:30
Dan Farahmand (Gothenburg, Sweden)	
<i>Facial Plastics and reconstructive surgery</i>	
08:00 - 08:45	R31
IC.MO.16 - How I do it: Shared decision making?	
How I do it: Shared decision making?	08:00 - 08:45
Anne Heirman (Groningen, Netherlands)	
<i>ePoster</i>	
08:00 - 19:00	ePoster area
EP.02 - ePoster (accessible all day at the poster terminals in the ePoster area)	
<i>Otology/neurotology</i>	
09:00 - 10:15	Congress Hall
RT.MO.01 - Third window syndrome	
Christophe Vincent (Lille, France)	
Richard Irving (Birmingham, United Kingdom)	
Clinical presentation & pathogenesis	09:00 - 09:10
Ja-Won Koo (Seongnam, Korea, Republic of)	
Patient evaluation: Imaging and laboratory testing	09:10 - 09:20
Julia Dlugaiczyk (Zurich, Switzerland)	
Differential diagnosis and other otic capsule dehiscence's	09:20 - 09:30
Joan Lorente (Pamplona, Spain)	
Patient reported outcomes	09:30 - 09:40
Torsten Rahne (Halle (Saale), Germany)	
Panel discussion	09:40 - 10:15
<i>Educational track</i>	
09:00 - 10:15	E4
RT.MO.02 - Redefining the frontlines: Cutting-edge advances and key challenges in the management of advanced laryngeal cancer	
Tobias Todsén (Copenhagen, Denmark)	
Aina Brunet (Barcelona, Spain)	
The role of open partial laryngectomy in advanced laryngeal cancer	09:00 - 09:12
Marta Filastro (Genoa, Italy)	
Central and lateral neck management during total laryngectomy	09:12 - 09:24
Emilien Chabrillac (Toulouse, France)	
Salvage surgery for recurrent laryngeal cancer	09:24 - 09:36
Ömer Bayır (Ankara, Türkiye)	
Choosing the right treatment for advanced laryngeal cancer: decision-making in practice	09:36 - 09:48
Johanna Sjövall (Lund, Sweden)	
Questions and discussion	09:48 - 09:56

Case discussion	09:56 - 10:15
<i>Rhinology</i>	
09:00 - 10:15	G1
RT.MO.03 - (AAO-HNS) 2026 update on endotypes and biologics in chronic rhinosinusitis	
Joseph Han (Norfolk, United States)	
Pablo Stolovitzky (Atlanta, United States)	
Endotypes in CRS: Practical clinical applications	09:00 - 09:12
Pablo Stolovitzky (Atlanta, United States)	
Biologics, present and future	09:12 - 09:24
Joseph Han (Norfolk, United States)	
Why biologics fail	09:24 - 09:36
Ashutosh Kacker (New york, United States)	
AERD and allergic fungal sinusitis	09:36 - 09:48
Corinna Levine (Miami, United States)	
Clinical case presentation	09:48 - 10:00
Nyall London (Bethesda, United States)	
Discussion	10:00 - 10:15
<i>Presidents' track</i>	
09:00 - 10:15	G2
RT.MO.04 - Sentinel node biopsy - standard treatment or personalized medicine?	
Linda Marklund (Uppsala/Stockholm, Sweden)	
Heikki Irjala (Turku, Finland)	
Where we stand: The current state of sentinel node biopsy in head and neck cancer	09:00 - 09:15
Remco de Bree (Utrecht, Netherlands)	
Beyond the nodes: Long-term outcomes and the impact of ITCs, micrometastases, and macrometastases	09:15 - 09:30
Sandro Stoeckli (St.Gallen, Switzerland)	
New frontiers: Applying sentinel node techniques in HNC outside OSCC	09:30 - 09:45
Clare Schilling (London, United Kingdom)	
The sentinel node immune landscape: Significance and future opportunities	09:45 - 10:00
Krzysztof Piersiala (Stockholm, Sweden)	
Discussion	10:00 - 10:15
<i>Rhinology</i>	
09:00 - 10:15	G3
RT.MO.05 - How to achieve R0 resection in sinonasal malignancy	
Christian Betz (Hamburg, Germany)	
Piero Nicolai (Padova, Italy)	
How to Achieve R0 resection in Sinonasal Malignancy	09:00 - 09:15
Benjamin Verillaud (Paris, France)	
How to Achieve R0 resection in Sinonasal Malignancy	09:15 - 09:30
Ehab Y Hanna (Houston, United States)	
How to Achieve R0 resection in Sinonasal Malignancy	09:30 - 09:45

RT.MO.10 - Describing obstructive sleep apnea beyond apnea-hypopnea index

Andrea De Vito (Forlì, Italy)

Olivier Vanderveken (Antwerp, Belgium)

Introduction: We need to go beyond the AHI but why and when

09:00 - 09:05

Olivier Vanderveken (Antwerp, Belgium)

On the importance of arousals

09:05 - 09:13

Marjolein van Looij (Amsterdam, Netherlands)

Sleep apnea endotyping through respiratory chemoreflex modeling with applications in Home Sleep Apnea Testing (HSAT)

09:13 - 09:21

Christian Straßberger (Boston, United States)

Update on the "Task force on new standards for the diagnosis and grading of the sleep apnea syndrome"

09:21 - 09:29

Harald Hrubos-Strøm (Lørenskog, Norway)

The role of ENT endophenotyping of OSA patients with next generation Drug-Induced Sleep Endoscopy (DISE)

09:29 - 09:37

Andrea De Vito (Forlì, Italy)

On the role of questionnaires and biomarkers in endophenotyping adult OSA patients

09:37 - 09:45

Jaroslav Betka (Prague, Czech Republic)

Discussion

09:45 - 10:15

Head and neck

09:00 - 10:15

FP.MO.06 - Oncologic surgery and outcomes

Aleix Rovira (London, United Kingdom)

Nicolas Fakhry (Marseille, France)

FP180	Evaluating oncological, functional, and patient-reported outcomes following transoral robotic surgery: a UK tertiary centre experience Oluwatomisin Ajigbolamu (Manchester, United Kingdom)	15:00 - 15:09
FP181	Oncological, postoperative and functional outcomes of salvage oropharyngectomy in irradiated neck for recurrent or metachronous squamous cell carcinoma Emilien Chabrilac (Toulouse, France)	15:09 - 15:18
FP182	Safe omission of neck irradiation in select pN0 patients with advanced oral cavity cancer Emilien Chabrilac (Toulouse, France)	15:18 - 15:27
FP183	An international retrospective study comparing chemoradiotherapy and primary surgery for t3 laryngeal cancers Nicolas Fakhry (Marseille, France)	15:27 - 15:36
FP184	Laser microsurgery versus transoral robotic surgery for supraglottic laryngeal cancers Stéphane Hans (Suresnes, France)	15:36 - 15:45
FP185	Elective neck dissection in salvage total laryngectomy for recurrent or residual laryngeal cancer: a multicenter retrospective cohort study Anna Timmerman (Leuven, Belgium)	15:45 - 15:54
FP186	Thirty day outcomes following trans-oral robotic surgery (TORS) for oropharyngeal squamous cell carcinoma (OPSCC): a retrospective cohort study Zain Sheikh (Leeds, United Kingdom)	15:54 - 16:03
FP187	Transoral robotic surgery in chronic lingual tonsillitis: an observational cohort study Alexandra Toppenberg (Groningen, Netherlands)	16:03 - 16:12
FP188	Predictive factors of recurrence and survival in patients undergoing total laryngectomy Rita Vaz Osório (Vila Nova de Gaia, Portugal)	16:12 - 16:21

Laryngology

15:00 - 16:30

H1

FP.MO.07 - Molecular and diagnostic advances

Camille Fink (Liège, Belgium)

Pia Järvenpää (Helsinki, Finland)

FP189	3D NBI exolaryngoscopy: a prospective feasibility study for intraoperative laryngeal tumor assessment Magda Barańska (Lodz, Poland)	15:00 - 15:09
FP190	Wiggle stereograms improve detection and side identification of vertical vocal-fold level differences Fabian Burk (Gera, Germany)	15:09 - 15:18
FP191	AI-assisted CE-NBI assessment of vocal fold lesions: training on public data, independent test performance, and operating room readiness Nikolaos Davaris (Giessen, Germany)	15:18 - 15:27
FP192	Whole genome sequencing reveals a specific microbiota in subglottic stenosis - possible driver of mucosal inflammation Anders Erlandsson (Umeå, Sweden)	15:27 - 15:36
FP193	Laryngeal leukoplakia: progression of laryngeal dysplasia to invasive SCC - a systematic review and meta-analysis Rawaha Husam Al-Deen (Essex, United Kingdom)	15:36 - 15:45

FP194	Endoscopic laryngeal findings and symptoms do not correlate with hypopharyngeal acid exposure measured with 24-hour dual-probe pH monitoring Pia Järvenpää (Helsinki, Finland)	15:45 - 15:54
FP195	Unilateral vocal fold lesions: AI-assisted differentiation in high-speed videoendoscopy Jakub Malinowski (Lodz, Poland)	15:54 - 16:03
FP196	Expression profiling of genes associated with the pathogenesis of recurrent laryngeal papillomatosis Zahra Sarwar (Nottingham, United Kingdom)	16:03 - 16:12
FP197	Asymmetry measurement using empirical distribution of glottal edges (EDGE): a statistical assessment of vocal fold kinematics using high-speed videoendoscopy Gabriela Vergara Olmos (Viña del Mar, Chile)	16:12 - 16:21
<i>Otology/Implantable hearing devices</i> 15:00 - 16:30		H2
FP.MO.08 - Tympanoplasty/ossiculoplasty; endoscopy		
Giulia Molinari (Bologna, Italy) Alejandro Harguindey Antolí-Candela (Madrid, Spain)		
FP198	What is the best graft in revision tympanoplasty? Current evidence on anatomical and functional outcomes Mariana Borges dos Santos (Guimarães, Portugal)	15:00 - 15:09
FP199	Ossicular reconstruction of the incus using cement in tympanoplasty and stapedectomy revision procedures Alejandro Harguindey Antolí-Candela (Madrid, Spain)	15:09 - 15:18
FP200	Outcome of ossiculoplasty in congenital ossicular anomalies (COA) Eva Novoa (Luzern, Switzerland)	15:18 - 15:27
FP201	The relationship between intraoperative drill (burr) usage and postoperative sensorineural hearing loss Öykü Izel Onaran (Istanbul, Türkiye)	15:27 - 15:36
FP202	Assessing the safety and ototoxic potential of topical MESNA in an animal model with an exposed inner ear Ostap Orishchak (Montreal, Canada)	15:36 - 15:45
FP203	Outcomes of tympanoplasty with an autologous two-piece perichondrium-cartilage graft in a tertiary care setting Dylen Philips (Jette, Belgium)	15:45 - 15:54
FP204	Endoscopic tympanoplasty in chronic otitis media without cholesteatoma: predictive factors for surgical success Nichamon Rienmahasarn (Hatyai, Thailand)	15:54 - 16:03
FP205	Unsuccessful healing of tympanic membrane perforations following myringoplasty - a nationwide study Julia Arebro (Stockholm, Sweden)	16:03 - 16:12
FP206	Fascia lata grafting in mastoid and lateral skull base surgery: a 25-year experience at a national skull base centre Debola Shomoye (Dublin, Ireland)	16:12 - 16:21

Otology/neurotology

15:00 - 16:30

PD.MO.02 - Station 1 - Vestibular dysfunction; hearing Venla Lohi (Oulu, Finland)		
PD114	Hearing loss and its association to physical functioning, dizziness and falls in an urban population of 70-year-olds Hugo Davidsson (Göteborg, Sweden)	16:35 - 16:39
PD115	Compartment-specific otologic and vestibular morbidity in occupational breath-hold divers: a cohort study of korean jeju haenyeo Jiyeon Hong (Jeju, Korea, Republic of)	16:39 - 16:43
PD116	Benign paroxysmal positional vertigo - prevalence among 75-year-olds in a population-based setting Ellen Lindell (Borås, Sweden)	16:43 - 16:47
PD117	Benign paroxysmal positional vertigo in young competitive athletes: the role of repetitive head injuries Katharina Stölzel (Berlin, Germany)	16:47 - 16:51
PD118	Inflammatory indices (NLR, PLR, SII and SIRI) as predictors of dizziness severity assessed by the dizziness handicap inventory in acute unilateral vestibulopathy Luka Županović (Zagreb, Croatia)	16:51 - 16:55
<i>Otology/neurotology</i> 16:35 - 16:55		ePoster area
PD.MO.02 - Station 8 - Printed TB models, augmented reality; TM regeneration Laura Pujol-Vilà (Barcelona, Spain)		
PD147	First integration of augmented reality in otologic cadaveric dissection training Yuval Mizrakli (Zerifin, Israel)	16:35 - 16:39
PD148	Effect of case-specific 3D-printed models on surgical performance in cadaveric dissection — a randomized controlled trial Adam Omari (Copenhagen, Denmark)	16:39 - 16:43
PD149	The early regenerative events in the human tympanic membrane after in vivo traumatization Elnaz Sepehri (Stockholm, Sweden)	16:43 - 16:47
PD150	See one, print one, drill one: shaping the future with tailored otologic simulation Sofia Teles (Lisbon, Portugal)	16:47 - 16:51
PD151	Systemic cytokine and metabolic patterns associated with recovery from sudden sensorineural hearing loss Jônatas Bussador do Amaral (Sao Paulo, Brazil)	16:51 - 16:55

Society Village Presentations

16:35 - 16:55

Confederation Society Village

Society Village presentations - Slot 4

Patrick Sheahan (Cork, Ireland)

ABORL-CCF - Brazilian Society of ORL-HNS

16:35 - 16:40

André Alencar Araripe Nunes (Brazil)

Czech-German Society for Otorhinolaryngology, Head and Neck Surgery

16:40 - 16:45

Jan Lazak (Prague, Czech Republic)

Balkan Society of Otorhinolaryngology

16:45 - 16:50

Cem Uzun (Istanbul, Türkiye)

SPORL-CCP - Portuguese Society of ORL-HNS

16:50 - 16:55

Pedro Escada (Portugal)

Head and neck

17:00 - 17:45

Congress Hall

IC.MO.17 - Carcinoma of unknown primary: What is the best approach

Cesare Piazza (Brescia, Italy)

Introduction, definition of CUP, epidemiology, changing trajectory, and overview on diagnostic issues and challenges

17:00 - 17:10

Cesare Piazza (Brescia, Italy)

Endoscopic evaluation, imaging, surgical diagnostic procedures (TORS vs targeted biopsies)

17:10 - 17:23

Petri Koivunen (Oulu, Finland)

Management of the neck and different scenarios (CUP found vs not found), treatment strategies, and outcomes

17:23 - 17:36

Dietmar Thurnher (Graz, Austria)

Questions and answers

17:36 - 17:45

Educational track

17:00 - 17:45

E4

IC.MO.18 - Residents' quiz

Andro Kosec (Zagreb, Croatia)

Claudio Sampieri (Barcelona, Spain)

Head and neck

17:00 - 17:45

G1

IC.MO.19 - (Taiwan) Head and neck ultrasound- basic to novel applications

Tzu-Yen Huang (Kaohsiung, Taiwan)

Introduction

17:00 - 17:03

Tzu-Yen Huang (Kaohsiung, Taiwan)

From basic ultrasound examination to voice-centered intraoperative neural monitoring in thyroid surgery

17:03 - 17:15

Tzu-Yen Huang (Kaohsiung, Taiwan)

Application of ultrasound in swallowing and phonation

17:15 - 17:27

Yun-Ying She (Kaohsiung, Taiwan)

Artificial intelligence-assisted head and neck ultrasound

17:27 - 17:39

Ping-Chia Cheng (New Taipei, Taiwan)

Panel discussion & Q&A

17:39 - 17:45

Presidents' track

17:00 - 17:45

G2

IC.MO.20 - Experiences with a totally implantable cochlear implant**Experiences with a totally implantable cochlear implant**

17:00 - 17:45

Joachim Müller (Germany)

Rhinology

17:00 - 17:45

G3

IC.MO.21 - Managing complicated epistaxis cases

Cecilia Ahlström-Emanuelsson (Lund, Sweden)

Posterior epistaxis

17:00 - 17:10

Cecilia Ahlström-Emanuelsson (Lund, Sweden)

Epistaxis management in HHT patients

17:10 - 17:20

Anette Kjeldsen (Odense, Denmark)

Tumor bleedings

17:20 - 17:30

Nicole Rotter (Mannheim, Germany)

Case presentations. Discussion

17:30 - 17:45

Otology/neurotology

17:00 - 17:45

G4

IC.MO.22 - Incorporating new techniques in cholesteatoma surgery

Joost van Dinther (Antwerp, Belgium)

Incorporating new techniques in cholesteatoma surgery

17:00 - 17:10

Joost van Dinther (Antwerp, Belgium)

Incorporating new techniques in cholesteatoma surgery

17:10 - 17:20

Katarzyna Radomska (Szczecin, Poland)

Incorporating new techniques in cholesteatoma surgery

17:20 - 17:30

Robert-Jan Pauw (Rotterdam, Netherlands)

Laryngology

17:00 - 17:45

H1

IC.MO.23 - Laryngeal dystonia and tremor

Ahmed Geneid (Helsinki, Finland)

Acoustic diagnosis and machine learning in spasmodic dysphonia

17:00 - 17:12

Giovanna Cantarella (Milano, Italy)

Botox injection - still gold standard?

17:12 - 17:24

Declan Costello (Slough, UK, United Kingdom)

Myoneurectomy

17:24 - 17:36

Ahmed Geneid (Helsinki, Finland)

Case presentations. Discussion

17:36 - 17:45

Paediatrics

17:00 - 17:45

H2

IC.MO.24 - Difficult airway management

Bas Pullens (Rotterdam, Netherlands)

How to deal with prenatal diagnosis of possible diff airway

17:00 - 17:10

Bas Pullens (Rotterdam, Netherlands)

How to deal with a blocked upper airway	17:10 - 17:20
Alvaro Pacheco (Santiago, Chile)	
How to deal with a blocked trachea	17:20 - 17:30
Scott Rickert (New York, United States)	
Discussion	17:30 - 17:45
<i>Rhinology</i>	
17:00 - 17:45	J1
IC.MO.25 - Reconstruction of 3 layer defect of nose	
Abel-Jan Tasman (St.Gallen, Switzerland)	
Case presentations and discussion	17:00 - 17:45
Abel-Jan Tasman (St.Gallen, Switzerland)	
Isa Kaya (İZMİR, Türkiye)	
Emre Vural (Little Rock, Arkansas, United States)	
<i>Head and neck</i>	
17:00 - 17:45	J2
IC.MO.26 - Challenging paragangliomas	
Paul Nankivell (United Kingdom)	
Challenging paragangliomas	17:00 - 17:15
Paul Nankivell (United Kingdom)	
Challenging paragangliomas	17:15 - 17:30
Elisabetta Zanoletti (Padova, Italy)	
<i>Rhinology</i>	
17:00 - 17:45	R2
IC.MO.27 - Do all nasopharyngeal angiofibroma require endoscopic removal?	
Pavol Surda (London, United Kingdom)	
Do all Nasopharyngeal Angiofibroma require Endoscopic Removal?	17:00 - 17:00
Pavol Surda (London, United Kingdom)	
Do all Nasopharyngeal Angiofibroma require Endoscopic Removal?	17:00 - 17:10
Metin Önerci (Türkiye)	
Do all Nasopharyngeal Angiofibroma require Endoscopic Removal?	17:10 - 17:20
Gwijde Adriaensen (Amsterdam, Netherlands)	
<i>Paediatrics</i>	
17:00 - 17:45	R4
IC.MO.28 - Microtia and hemifacial microsomia	
Charlotte Celerier (Paris, France)	
Diagnostic work-up	17:00 - 17:10
Myrthe Hol (Groningen, Netherlands)	
Reconstructive surgery	17:10 - 17:20
Charlotte Celerier (Paris, France)	
Dialogue with the audience	17:20 - 17:45

Salivary gland

17:00 - 17:45

R14

IC.MO.29 - Sialendoscopy

Hila Klein (Haifa, Israel)

Sialendoscopic management of salivary ductal structures

17:00 - 17:15

Hila Klein (Haifa, Israel)

Sialendoscopy for other non-neoplastic salivary gland diseases

17:15 - 17:30

Rose Ngu (United Kingdom)

Educational track

17:00 - 17:45

R17

IC.MO.30 - Mastering the European Board Examination in ORL-HNS: Insights, strategies, and mock exam practice

Victoria Ward (Wakefield, United Kingdom)

Structure, format and content of the examination

17:00 - 17:10

Aysenur Meric Hafiz (ISTANBUL, Türkiye)

Marcus Neudert (Dresden, Germany)

Strategic approach for examination success

17:10 - 17:20

Camilla Carroll (Dublin, Ireland)

Christos Georgalas (Athens, Greece)

Mock examination practice

17:20 - 17:30

Heikki Lopponen (Kuopio, Finland)

Dominik Wild (Ried im Innkreis, Austria)

Panel Interactive Discussion - facilitation of candidates to enquire and expand on details of presentations

17:30 - 17:40

Maria de la Mota (Madrid, Spain)

Wolfgang Luxenberger (Frohnleiten, Austria)

Otology/neurotology

17:00 - 17:45

R18

IC.MO.31 - Management of facial palsy in otology

Luis Lassaletta (Madrid, Spain)

The role of combined procedures in treating facial paralysis in otology and skull base surgery

17:00 - 17:10

Luis Lassaletta (Madrid, Spain)

Management of facial paralysis in cholesteatoma

17:10 - 17:20

Rupert Obholzer (United Kingdom)

Facial nerve schwannoma

17:20 - 17:30

Kazimierz Niemczyk (Poland)

Discussion

17:30 - 17:45

Otology/neurotology

17:00 - 17:45

R31

IC.MO.32 - Lateral skull base approach in otology: Concepts that every otologist should know**Lateral skull base approach in otology: Concepts that every otologist should know**

17:00 - 17:10

IC.TU.15 - Prehabilitation in head and neck cancer treatment

Malgorzata Wierzbicka (Wroclaw, Poland)

Introduction

Malgorzata Wierzbicka (Wroclaw, Poland)

08:00 - 08:05

Comprehensive tool to enhance quality and optimize hospitalization of patients scheduled for laryngopharyngeal surgery-ready for safe cancer treatment (RESET-LC)

Malgorzata Wierzbicka (Wroclaw, Poland)

08:05 - 08:20

Prehabilitation recommendations according to the new upcoming version of the Swedish national guidelines for head and neck cancer

Anna Hafström (Lund, Sweden)

08:20 - 08:35

Discussion

08:35 - 08:45

General

08:00 - 08:45

R31

IC.TU.16 - (UEMS ORL) New trends in ENT service provision - Is private sector taking over?

Kenneth Muscat (Msida, Malta)

Only severe injured patients need to be hospitalized

Kim Werther (Roskilde, Denmark)

08:00 - 08:10

Economics of ENT patient care in Germany

Hans J. Welkoborsky (Hannover, Germany)

08:10 - 08:20

Is the NHS collapsing?

Helen Cocks (Sunderland, United Kingdom)

08:20 - 08:30

Discussion

08:30 - 08:45

ePoster

08:00 - 19:00
