ISPAD

08:00 - 09:00

Session Hall 1

Presidents Welcome

Posters

08:00 - 18:00

Posters on Display

ePosters on Display

P-271	Preliminary cut-point for the hypoglycemia fear survey- parents of young children (HFS-PYC) Susana Patton (Jacksonville, United States)	08:00 - 08:00
P-272	Awareness Drives Willingness: results of the ISPAD JENIOUS - PREME T1D project on Parents' peRspectives on disEase-Modifying thErapy in t1D	08:00 - 08:00
P-273	Depressive symptoms and diabetes distress in parents of young children with type 1 diabetes Susana Patton (Jacksonville, United States)	08:00 - 08:00
P-274	Glycemic stability across menstrual cycle phases: impact of AID systems and MDI + CGM therapy Cecilia Nobili (Torino, Italy)	08:00 - 08:00
P-275	The impact of DiaBuddy, a mobile application-based tool, on sick day management in children and adolescents with Type 1 Diabetes Alapan Mahapatra (Kanpur, India)	08:00 - 08:00
P-276	Technological vs conventional treatment in children with early onset of type 1 diabetes mellitus: follow up of 12 years and evaluation of complications	08:00 - 08:00
P-277	Early initiation of AID is associated with improved long-term glycemic control in children with type 1 diabetes	08:00 - 08:00
P-278	Time in Range and C-peptide in children with newly diagnoses Type 1 diabetes. A nationwide cohort study combining quality improvement and clinical research approaches in a pediatric care setting - The Norwegian Childhood Diabetes Registry	08:00 - 08:00
P-279	The use of ultrasound and dietitians as part of pump re-education for dysregulated children and adolescent when changing from pump to automated insulin delivery Anna Korsgaard Berg (Herlev, Denmark)	08:00 - 08:00
P-280	Assessing the impact of training and mentorship in Liberia at Life for a Child (LFAC)-supported clinics transitioning patients to glargine insulin Amanda Perkins (Washington, DC, United States)	08:00 - 08:00
P-281	Youth with type 1 diabetes(T1D) using an advanced hybrid closed-loop system safely achieve and sustain recommended glycemic goals with reduced burden and increased system trust Jennifer McVean (Northridge, United States)	08:00 - 08:00
P-282	Burden of Diabetic Dermatoses in Geriatric Patients: Epidemiological Insights, Quality-of-Life Impact, and Socioeconomic Determinants in a Low-Resource Setting	08:00 - 08:00
P-283	Efficacy of advanced hybrid closed loop system on restoring impaired awareness of hypoglycemia among children and	08:00 - 08:00

adolescents with type 1 diabetes

P-284	Early Use of Automated Insulin Delivery Systems and Glycemic Control in Pediatric Type 1 Diabetes: An Italian Multicenter Real-Life Study Valentina Tiberi (Ancona, Italy)	08:00 - 08:00
P-285	Balancing variability and blood glucose control: time in tight glucose range in youth with diabetes during dry intermittent fasting data from real-world users on different treatment strategies	08:00 - 08:00
P-286	Elapsed time after infusion set removal modulates skin barrier integrity Julian Bjerrekær (Herlev, Denmark)	08:00 - 08:00
P-287	Diluted insulin in hybrid closed loop pump therapy for patients 5 years and under - a single centre experience Calvin Skews (South Brisbane, Australia)	08:00 - 08:00
P-288	Evaluation of the experience of young people and families starting on a Hybrid Closed Loop System (HCLS) educated with either standard local teaching or a virtual onboarding programme run and funded by the Scottish Government to facilitate rapid uptake of HCLS in Scotland Victoria Franklin (Inverness, United Kingdom)	08:00 - 08:00
P-289	Trends in mortality due to type 1 diabetes: an analysis of the Global Burden of Disease (GBD) 2021 Jessica Hanae Zafra-Tanaka (Geneva, Switzerland)	08:00 - 08:00
P-290	Development of an inclusive facility-based electronic Type 1 Diabetes (T1D) registry and health program monitoring system for limited-resource contexts Ivy Nolasco (Quezon City, Philippines)	08:00 - 08:00
P-291	Real-life efficacy of Minimed® 780G recommended settings (glycaemic target of 100 mg/dl and active insulin time of 2 hours) on glycaemic control in young patients with type 1 diabetes	08:00 - 08:00
P-292	Successful transition from MDI to Automated Insulin Delivery (AID): real-world glycemic outcomes among children, adolescents, and young adults with type 1 diabetes using a tubeless AID system Daniel J. DeSalvo (Houston, United States)	08:00 - 08:00
P-293	Technological Advancements in Managing Type 2 Diabetes Mellitus in Children and Adolescents	08:00 - 08:00
P-294	An AI-Driven Framework for Integrating Wearable and Insulin Pumps Data in Paediatric and Young Patients with Type 1 Diabetes	08:00 - 08:00
P-295	The efficacy of advanced hybrid closed loop system on managing mixed meals with high fat content	08:00 - 08:00
P-296	Long-term glycemic outcomes in children and adolescents with type 1 diabetes on advanced Hybrid Closed Loop therapy with Medtronic Minimed 780G: a 36-month follow-up	08:00 - 08:00
P-297	Glucose levels and insulin requirements during the menstrual cycle in young women with type 1 diabetes using AID: preliminary results	08:00 - 08:00
P-298	Body Mass Index trends in children with type 1 diabetes on Automated Insulin Delivery systems Catarina Leal (Birmingham, United Kingdom)	08:00 - 08:00
P-299	Creating an AGP analysis AI bot with zero code live on stage	08:00 - 08:00

P-300	A Methodology for real-world implementation and evaluation of a novel digital health platform for type 1 diabetes using the implementation research logic model Shruti Muralidharan (Vancouver, Canada)	08:00 - 08:00
P-301	An innovative approach to patient education for type 1 diabetes Radhika Purushothaman (Portland, United States)	08:00 - 08:00
P-302	Long-term socioeconomic and health disparities among adults diagnosed with type 1 diabetes in childhood	08:00 - 08:00
P-303	Safety and glycemic outcomes during advanced hybrid closed-loop (AHCL) system use with fast-acting insulin aspart in pediatric type 1 diabetes (T1D)	08:00 - 08:00
P-304	Impact of lowering target glucose setting with a tubeless automated insulin delivery (AID) system: evidence from real-world use Jennifer L. Sherr (New Haven, United States)	08:00 - 08:00
P-305	Longer-term use of automated insulin delivery in children and youth with type 1 diabetes and very elevated glycemia: CO-PILOT continuation phase outcomes up to 52 weeks Benjamin J Wheeler (Dunedin, New Zealand)	08:00 - 08:00
P-306	Longitudinal comparison of the performance of an automated insulin delivery system and a sensor-augmented pump during summer camp Meropi Dimitriadou (Thessaloniki, Greece)	08:00 - 08:00
P-307	Effect of flash monitoring on glycemic control in children and adolescents with type 1 diabetes (T1D) in Cameroon: a pioneering study	08:00 - 08:00
P-308	Use of Open source AID systems in children and adolescents at a Swedish pediatric diabetes clinic Anna Olinder (Stockholm, Sweden)	08:00 - 08:00
P-309	Disparities in Time to Continuous Glucose Monitor (CGM) Initiation Among Youth with Type 1 Diabetes in United States Claims Data Elise Tremblay (Boston, United States)	08:00 - 08:00
P-310	Development and implementation of Ontario's first paediatric diabetes data strategy Josée St-Denis (Ottawa, Canada)	08:00 - 08:00
P-311	Priorities of Youth and Families in Choosing an Automated Insulin Delivery System	08:00 - 08:00
P-312	Association between the Cytokine Profile and Insulin Delivery Method in Children with Type 1 Diabetes	08:00 - 08:00
P-313	"Digital hygiene in children under the age of six with carbohydrate metabolism disorders treating in Department of Paediatrics & Children's Diabetology, Upper Silesian Children Hospital"	08:00 - 08:00
P-314	High levels of diabetes distress in people living with type 1 diabetes in a low-resource setting in Northeastern Brazil Nathalia Costa Monteiro (São Cristóvão, Brazil)	08:00 - 08:00
P-315	Career choices for young individuals living with type one diabetes in India	08:00 - 08:00
P-316	Challenges in the Diagnosis and Treatment of Neonatal Diabetes Mellitus: A Report of four Cases	08:00 - 08:00

P-317	Association of Neurofilament Light Chain, Glycated Hemoglobin, Homocysteine, Folic Acid, and Vitamin B12 in Serum of Dystonia Patients with Type 1 Diabetes Sumit Rajput (New Delhi, India)	08:00 - 08:00
P-318	Effect of Metformin and Lifestyle Modification on Glycemic Control in Adolescents with Type 2 Diabetes: A Single-Center Study	08:00 - 08:00
P-319	Impact of Psychosocial Interventions on Health-Related Quality of Life in Children, Adolescents, and Young Adults with Type 1 Diabetes: Preliminary Results of a Systematic Review	08:00 - 08:00
P-320	Unhealthy Diet and Lifestyle Patterns in Adolescents: Implications for Early Diabetes Risk	08:00 - 08:00
P-321	A rare monogenic mutation (ZFP57) in transient neonatal diabetes mellitus in Cameroon: a case report	08:00 - 08:00
P-322	Improving physician-patient weight management-focused discussions among children with type 1 diabetes and obesity	08:00 - 08:00
P-323	Early-onset diabetes due to heterozygous RFX6 mutation: responsiveness to incretin-based therapy in a novel MODY subtype Madhumati Vaishnav (Bangalore, India)	08:00 - 08:00
P-324	Hybrid Closed-Loop system shows time-specific glucose variability and hypoglycemic patterns in very young children with type 1 diabetes Olivier Pollé (Paris, France)	08:00 - 08:00
P-325	Impact of nutrition and self-care management education on quality of life in clients with type 1 diabetes in Kisumu County, Kenya	08:00 - 08:00
P-326	Perspective on Diabetes and Mental Health: Insight from people living with Diabetes, Their Parents and Healthcare providers	08:00 - 08:00
P-327	In-Hospital mortality among patients admitted for acute diabetes complications in the East of the Democratic Republic of Congo. Kalehezo Murhabazi Albert (Bukavu, Congo (Democratic Republic))	08:00 - 08:00
P-328	Integrating a clinical pathway for type 1 diabetes mellitus into the electronic health record: Data capture, quality monitoring and transition to adult care Maria De Cos Igartua (Madrid, Spain)	08:00 - 08:00
P-329	LLM-Generated Dot Phrases Simplify Messages to Pediatric Type 1 Diabetes Patients	08:00 - 08:00
P-330	Effect of insulin therapy on body composition in children with newly diagnosed type 1 diabetes mellitus: a prospective cohort study	08:00 - 08:00
P-331	Ready, set, go! Preparation for transition to adult healthcare services - experiences of Australian young adults living with Type 1 Diabetes	08:00 - 08:00
P-332	Diabetes Body Project Eating Disorder Prevention Program - Descriptive Content Analysis of Participant and Facilitator Feedback in a Multinational Randomized Controlled Trial	08:00 - 08:00
P-333	Exploring the Intersection of Social Determinants of Health, Psychological Distress, and Glycemic Control in Ethnically Diverse Pediatric Type 1 Diabetes Patients Carolina De Almagro (Miami, United States)	08:00 - 08:00
P-334	Navigating Diabetes Disclosure and Self-Care Practices: Gendered	08:00 - 08:00

	Experiences of Stigma and Exclusion among Adolescents and Emerging Adults with Type 1 Diabetes Mellitus	
P-335	INSULIN PUMP USE IN HISPANIC YOUTH Chaitanya Sambangi (Washington DC, United States)	08:00 - 08:00
P-336	Serological screening for coeliac disease in children and young adults with type 1 diabetes mellitus in Lagos, Nigeria: a cross-sectional study Elizabeth Eberechi Oyenusi (Lagos, Nigeria)	08:00 - 08:00
P-337	Parents' fear of hypoglycemia mediates the association between diabetes distress and youth HbA1c	08:00 - 08:00
P-338	Discrepant glycemic responses to oral glucose, mixed meal, and home-environment meals in Turner syndrome Catherina Pinnaro (Iowa City, United States)	08:00 - 08:00
P-339	Establishment of digital health records for type 1 diabetes in lower- and middle-income countries informed by a global scoping review John T Figi (Boston, United States)	08:00 - 08:00
P-340	Association between neutrophil/ high-density lipoprotein cholesterol ratio and high BMI in three Argentinean Indigenous communities Valeria Hirschler (Buenos Aires, Argentina)	08:00 - 08:00
P-341	Assessment of quality of life and glycemic control in type 1 diabetics before and after functional insulin therapy Ghada Saad (Sousse, Tunisia)	08:00 - 08:00
P-342	Exploring stigma among diabetes patients in Kathmandu: a qualitative study from a multidisciplinary clinic Pradip Lamsal (Kathmandu, Nepal)	08:00 - 08:00
P-343	First reported cases of MODY 3 with the c.1298C>T HNF1A mutation in Korea: clinical and genetic findings in dizygotic twins	08:00 - 08:00
P-344	Empowering doctors and HCPs in limited resource settings for a better diabetes care for diabetic children in Sudan Asmahan Abdalla (Khartoum, Sudan)	08:00 - 08:00
P-345	Validation of a diabetes education survey in Spanish and evaluation of the level of education in type 1 diabetes in a Chilean Pediatric Population Francisca Riera Cassorla (Santiago, Chile)	08:00 - 08:00
P-346	Growth, body size, and final height of children with T1D. A family-based case-control study Mahmoud Touhami (Oran, Algeria)	08:00 - 08:00
P-347	A decade of progress: sustained glycaemic control driven by technology adoption in a paediatric diabetes centre Helen Day (Ormskirk, United Kingdom)	08:00 - 08:00
P-348	Glycemic control status among patients with type 1 diabetes at the National Hospital of Endocrinology, Vietnam	08:00 - 08:00
P-349	Feasibility of a diabetes educator-led coaching program to support emerging adults with diabetes transitioning from pediatric to adult care	08:00 - 08:00
P-350	Call for action - hypo- and hyperglycaemic episodes from continuous glucose monitoring are systematically and significantly affected by ambiguities in clinical analysis guidelines Jędrzej Chrzanowski (Łódź, Poland)	08:00 - 08:00

P-351	Understanding the Importance of online peer support in managing type 1 diabetes in Vietnam: a qualitative study Trang Nguyen (Hanoi, Vietnam)	08:00 - 08:00
P-352	A New Model for Complex Type 1 Diabetes (T1D) Management: Feasibility of the Blossom Clinic Approach Jody Grundman (Washington, United States)	08:00 - 08:00
P-353	Age-Related variations in carbohydrate ratios, insulin sensitivity factors, and circadian basal insulin profiles in type 1 diabetes: data from the 5th cohort of the Japanese study group of insulin therapy for childhood and adolescent diabetes Tomozumi Takatani (Chiba, Japan)	08:00 - 08:00
P-354	Estimating insulin dose requirement based on metabolic parameters at presentation in treating diabetic ketoacidosis	08:00 - 08:00
P-355	Prospective cohort study of paediatric diabetes patients in Ontario, Canada Josée St-Denis (Ottawa, Canada)	08:00 - 08:00
P-356	Spiritual resources and needs of youth with type 1 diabetes (T1D) and their families Jaquelin Flores Garcia (Los Angeles, United States)	08:00 - 08:00
P-357	Impact of an extra-hospital therapeutic education activity on knowledge of diabetes in children	08:00 - 08:00
P-358	Estimating the incremental direct healthcare cost of diabetes and related complications in Australia using linked administrative data	08:00 - 08:00
P-360	Factors affecting self-care performance in with adolescents type I diabetes according to the PEN-3 cultural model Hela Marmouch (Monastir, Tunisia)	08:00 - 08:00
P-361	Ambulatory endocrinology diabetes care and its association with lower glycemic levels: a retrospective electronic health record study Chia-Lun Yang (Wilmington, United States)	08:00 - 08:00
P-362	Costs to scale-up type 1 diabetes service packages in low- and middle-income countries Dorit Talia Stein (Boston, United States)	08:00 - 08:00
P-363	The Rabat therapeutic education center for diabetic children: CDIC project and perspectives	08:00 - 08:00
P-364	Early detection of type 1 diabetes in children through genetic and autoantibody screening: a systematic review of prospective studies	08:00 - 08:00
P-365	Primary outcomes from a pilot CGM-behavioral intervention among youth with T1D Emma Straton (Washington, DC, United States)	08:00 - 08:00
P-366	Efficacy and safety of a tubeless AID system compared with MDI in children and adolescents with T1D in the RADIANT study Jacques Beltrand (Paris, France)	08:00 - 08:00
P-367	Expanding fiscal space for investment in type 1 diabetes in children and adolescents in 30 low- and middle-income countries Caroline Bulstra (Boston, United States)	08:00 - 08:00
P-368	Barriers and facilitators to effective T1DM self-management post-transition from pediatric to adult care: insights from the PATHWAY Trial	08:00 - 08:00

P-369	Results of the management of T1D in children in a private outpatient setting	08:00 - 08:00
P-370	Impact of vitamin D supplementation on insulin sensitivity and secretion in patients with type 2 diabetes mellitus Fariha Islam (Jashore, Bangladesh)	08:00 - 08:00
P-371	Back to basics: when a toy becomes a tool, a game becomes a game-changer	08:00 - 08:00
P-372	Evaluation of the level of knowledge about therapeutic education among diabetic children and adolescents at the regional hospital of Kankan (Guinea) in 2024	08:00 - 08:00
P-373	Ten-year glycemic trends in children diagnosed with type 1 diabetes before teenage years: a longitudinal <i>Insulin My Life</i> Follow-up Bilal Tahir (Karachio, Pakistan)	08:00 - 08:00
P-374	Understanding the Transition from Premixed to Basal-Bolus Insulin Regimens Among Cambodian Youth with Type 1 Diabetes Videm CHEA (Phnom Penh, Cambodia)	08:00 - 08:00
P-375	Assessing the impact of health education on insulin storage in a traditional African pot with wet sand and charcoal as coolers and the effect on insulin viability as seen by hba1c control	08:00 - 08:00
P-376	Exploring the health care transition impact on healthcare facilities and individuals living with Type 1 Diabetes using a conceptual framework Ny'Nika McFadden (San Marcos, United States)	08:00 - 08:00
P-377	Bone Health and Bone Turnover Markers in Children and Adolescents with Type 1 Diabetes Mellitus from a Developing Country: A Case-Control Study	08:00 - 08:00
P-378	Feasibility and Implementation of Retinal Screening Technology in a Pediatric Diabetes Center Jacquelyn Verme (Miami, United States)	08:00 - 08:00
P-379	Nutritional status and associated factors of children and adolescents with T1DM on follow-up at Tikur Anbessa specialized hospital, pediatric endocrinology clinic, Addis Ababa, Ethiopia	08:00 - 08:00
P-380	Effect of parental support on glycemic control in children and adolescents with type 1 diabetes in Cameroon	08:00 - 08:00
P-381	Giving the child with diabetes a clear voice: What matters the most to children 4-12 years old with type 1 diabetes attending a pediatric diabetes clinic? A substudy in the ProKidsDia project Mette Madsen (Gistrup, Denmark)	08:00 - 08:00
P-382	To assess the diabetes distress and emotional well-being among adolescents with T1D enrolled in the CDiC-Pakistan	08:00 - 08:00
P-383	From pen to pump: Parents' experiences with early initiation of automated insulin delivery in children newly diagnosed with type 1 diabetes Signe Emilie Frederiksen (Copenhagen, Denmark)	08:00 - 08:00
P-384	Text Messaging in the Delivery of Ambulatory Paediatric Type 1 Diabetes: A Multi-Phase Quality Improvement Project Madison Brauer (Vernon, Canada)	08:00 - 08:00
P-385	Effectiveness of Laughter Yoga and Clapping Exercise in Improving Cardiac and Kidney Health in Obese Type 1 Diabetic Adolescents in	08:00 - 08:00

	Rural Delhi Pardeep Kumar (New Delhi, India)	
P-386	Residual β-cell function and glycemic control in young users of advanced hybrid closed loop systems: a retrospective study	08:00 - 08:00
P-387	Using Simplified Meal Boluses versus Carbohydrate Counting in Adolescents with Automated Insulin Delivery (AID) Systems: A Randomized Crossover Trial Alexandra Sawyer (Aurora, United States)	08:00 - 08:00
P-388	Implementation of Diabetes Education Training Programs for Healthcare Professionals on Type 1 Diabetes in Children and Adolescents in Indonesia Ghaisani Fadiana (Jakarta, Indonesia)	08:00 - 08:00
P-389	Experiences of Children and Adolescents with Type 1 Diabetes during Ramadan Fasting in Indonesia Agustini Utari (Jakarta, Indonesia)	08:00 - 08:00
P-390	Risk factors of Hypertension in children with type 1 diabetes Arielle Sabbah (Sherbrooke, Canada)	08:00 - 08:00
P-391	Metformin as a Dual Therapeutic Agent: Insights into Respiratory Benefits in Obesity and Asthma from Animal and Human Studies	08:00 - 08:00
P-392	CHARACTERIZATION OF OXIDATIVE STRESS MARKERS AND CARDIOVASCULAR RISK INDICATORS IN PEDIATRIC TYPE 1 DIABETES MELLITUS Gabriela Arêdes (Ribeirão Preto, Brazil)	08:00 - 08:00
P-393	TNFα levels decrease following oral glucose in healthy adolescents	08:00 - 08:00
P-394	Platelet Rich Plasma for Diabetic Related Foot Ulcers Treatment in Low Resource Settings: An Extended Approach to Investigate Wound Healing Mechanisms in Nepal	08:00 - 08:00
P-395	Exploring Patterns of Automated Insulin Delivery (AID) Use in Young Adults (YAs) with T1D Persis Commissariat (Boston, United States)	08:00 - 08:00
P-396	Knowledge of advanced carbohydrates counting in parents of children with type 1 diabetes	08:00 - 08:00
P-397	Growth Parameters in Children with Type 1 Diabetes Enrolled in the Changing Diabetes in Children (CDIC) Project in Multan, Pakistan	08:00 - 08:00
P-398	Access to diabetes care for children and young people: Pharma companies' current actions and opportunities ahead Emma Shiffman (Amsterdam, Netherlands)	08:00 - 08:00
P-399	A case of "Wolfram Syndrome" and spinal epidural lipomatosis followed with a wrong diagnosis of "type 1 diabetes" since 10 years	08:00 - 08:00
P-400	Insulin dilution in very young children using hybrid closed-loop reduces nocturnal hypoglycemia and improves glycemic control Olivier Pollé (Paris, France)	08:00 - 08:00
P-401	Knowledge and Comfort Levels of Nurses Caring for Youth with Type 1 Diabetes in a Pediatric Hospital	08:00 - 08:00
P-402	Acute complications and case fatality of pediatric and adult patients with type 1 diabetes followed as outpatients in the internal medicine department of the Sourô Sanou university hospital in Bobo-Dioulasso from 2019 to 2022	08:00 - 08:00

P-403	Socioeconomic Deprivation and its Impact on Hybrid Closed-Loop Therapy Adherence and Glycaemic Management in Children with Type 1 diabetes Sze May Ng (Ormskirk, United Kingdom)	08:00 - 08:00
P-404	Glycemic Control in Type 1 Diabetes: Challenges and Treatment Patterns Among the Population of Khyber Pakhtunkhwa	08:00 - 08:00
P-405	Psycho-social impact on the lives of Type 1 diabetes: a study from an NGO, Nityaasha Foundation Subhashini Devi Naorem (Silchar, India)	08:00 - 08:00
P-406	Insulin Practices in Brazilian Children and Adolescents with Type 1 Diabetes: a cross-sectional study	08:00 - 08:00
P-407	#LanguageMatters in intervention development: parent preferences for referring to type 1 diabetes in a diabetes distress intervention Jessica S. Pierce (Orlando, United States)	08:00 - 08:00
P-408	From Burden to Simplicity: A User-Centered AI-Based Mobile App Facilitating Confidence in Carbohydrate Counting and Insulin Dosing in Type 1 Diabetes Samantha Valentine Lydia Melin (Quatre Bornes, Mauritius)	08:00 - 08:00
P-409	Carrying hope across the desert: how changing diabetes in children (CDiC) program changed the lives of Isiolo's nomadic children with type 1 diabetes	08:00 - 08:00
P-410	Community-Driven Advocacy in Diabetes Education: The Tanzania Diabetes Association's Success in Rural Outreach	08:00 - 08:00
P-411	Enhancing diabetes care through community-based interventions in resource-limited settings	08:00 - 08:00
P-412	Clinical characteristics and factors associated with length of hospital stay among children and adolescents with Diabetic Ketoacidosis at Mulago National Referral and St Francis Nsambya hospitals, Kampala Uganda Catherine Nyangabyaki-Twesigye (Kampala, Uganda)	08:00 - 08:00
P-413	Supporting pediatric diabetes care on a shoestring budget: strategies for Limited-Resource (LR) settings	08:00 - 08:00
P-414	Goals of care among caregivers of youth with type 1 diabetes Karen Dimentstein (Baltimore, United States)	08:00 - 08:00
P-415	Double diabetes in Delhi NCR: perspectives from healthcare providers managing youth-onset type 1 diabetes	08:00 - 08:00
P-416	Exploring college students living with Type 1 Diabetes' communication experiences with endocrinologists Ny'Nika McFadden (San Marcos, United States)	08:00 - 08:00
P-417	Focus on Fathers: Cross-cultural Insights for Inclusive Type 1 Diabetes Care Maria Athena Campbell (Herlev, Denmark)	08:00 - 08:00
P-418	Clinical profile of diabetes among children and adolescents at type 1 diabetes centre, Kota, Rajasthan, India	08:00 - 08:00
P-419	Comorbidities and Glycemic Control in Pediatric Type 1 Diabetes: A Tunisian Retrospective Study. Nour Jelalia (Ben Arous, Tunisia)	08:00 - 08:00
P-420	An innovative mobile application for diabetes self-management	08:00 - 08:00

	education in Argentine schools: Results of a pilot study within the KIDS program	
	FLORENCIA GRABOIS (Neuquen, Argentina)	
P-421	Sociodemographic and Clinical Characteristics in Young People with Diabetes in Peripheral Centers in Bangladesh	08:00 - 08:00
	Md Mijanur Rahman (Dhaka, Bangladesh)	
P-422	Needs and opportunities in pediatric diabetes education: insights from families and educators to inform the co-design of a novel digital tool	08:00 - 08:00
P-423	Development of a new therapeutic education programme (AdoDiab-1) for teenagers aged 13 to 18 live with Type 1 diabetes	08:00 - 08:00
P-424	Characteristics of diabetic kidney disease and associated factors in adolescents with Type 1 diabetes in two hospitals in Yaoundé	08:00 - 08:00
	Marie Ange Ornella Ngo Nkoun (Yaoundé, Cameroon)	
P-425	Ketone Level Measurement from Urine Strip using :AI powered Mobile Application for diabetic and non-diabetic Patients (under ISGLT2) Ketone- Check	08:00 - 08:00
	Fatma Mnif (Sfax, Tunisia)	
P-426	Risk factors and predictif score of degenerative complications in child and yound adult living with diabetes	08:00 - 08:00
P-427	Long-term effect of the kids in control of food (KICK-OFF) educational program on HbA1c and time in ranges in youth with T1D	08:00 - 08:00
	Reem Almatrook (Kuwait, Kuwait)	
P-428	Impact of clinical and demographic characteristics on type 1 diabetes distress in Latin American children	08:00 - 08:00
	Valeria Hirschler (Buenos Aires, Argentina)	
P-429	Geographical access of type 1 diabetes children and adolescents to Vihiga County Referral Hospital vs glucose control (2024)	08:00 - 08:00
	James Kimuma (Mbale, Kenya)	
P-430	Use of home visits to assess self-monitoring blood glucose, insulin storage and glucose control in type 1 diabetes at Vihiga County Referral Hospital, Kenya (2024)	08:00 - 08:00
	Jacqueline Oduor (Vihiga, Kenya)	
P-431	Diabetic ketoacidosis in children with newly diagnosed diabetes	08:00 - 08:00
	Thi Kim Giang Dang (Hanoi, Vietnam)

P-600	Characteristics of a diabetes access clinic for uninsured pediatric patients Rachel Longendyke (Washington, United States)	08:00 - 08:00
P-601	Screening for Diabetic Peripheral Neuropathy using electrochemical skin conductance (ESC) on Type 1 Diabetes mellitus patients at Cambodia-Korea Diabetes Center (CKDC) of Cambodia-China Friendship Preah Kossamak Hospital (CCFKH)	08:00 - 08:00
P-602	Sustained glycemic benefits two years after low-carbohydrate or Mediterranean diet intervention in adolescents with type 1 diabetes	08:00 - 08:00
P-603	Breaking Barriers: The Triumph of Free Insulin Advocacy for Type 1 Diabetes in India" Manoj Agrawal (Kanpur, India)	08:00 - 08:00
P-604	Arterial hypertension in diabetic children treated at the Bouaké Teaching Hospital (Côte d'Ivoire) Yao Kossonou Roland Yeboua (Bouaké, Cote D'Ivoire)	08:00 - 08:00
P-605	acute complications of diabetes	08:00 - 08:00
P-606	Growth Failure in Diabetic Children: A Closer Look at Hypothalamic-Pituitary Axis Abnormalities Sanae EL MOUDDEN (FES, Morocco)	08:00 - 08:00
P-607	A case report with MODY 8 in 10 year-old boy in Viet Nam Trinh Hue (Ho Chi Minh, Vietnam)	08:00 - 08:00
P-608	Increasing Completion Rates of Diabetes Distress Questionnaires Among Pediatric Patients with Type 1 Diabetes Emily L. DeWit (Kansas City, United States)	08:00 - 08:00
P-609	Lifestyle, nutrition, and exercise among refugees with type 1 diabetes	08:00 - 08:00
P-610	Enhancing care through local specialised paediatric diabetes service Lit Kim Chin (St Albans, Australia)	08:00 - 08:00
P-611	Living with type one diabetes in Kenya Chasia Lewis (Nairobi, Kenya)	08:00 - 08:00
P-612	Perception and mode of revelation of type 1 diabetes in Niger	08:00 - 08:00
P-613	The impact of donated insulin on glycated haemoglobin in children with type 1 diabetes mellitus in a resource-limited setting	08:00 - 08:00

	Ibironke Akinola (Ikeja, Nigeria)	
P-614	Aspect of diabetic retinopathy on type 1 diabetes mellitus patients and related factors at Cambodia-Korea Diabetes Center (CKDC) of Cambodia-China Friendship Preah Kossamak Hospital (CCFKH)	08:00 - 08:00
P-615	STEPSTONES transition program for young people with type 1 diabetes- exploration of barriers and facilitators for implementation in clinical practice	08:00 - 08:00
P-616	Can the Diabetes Eating Problem Survey-Revised (DEPS-R) reliably identify Eating Disorder Diagnosis in Young Women with Type 1 Diabetes?	08:00 - 08:00
P-617	A RARE CASE OF SYNDROMIC DIABETES - WOLFRAM SYNDROME Akshatha Anand (Bangalore, India)	08:00 - 08:00
P-618	Advancements in Pharmacotherapy for Type 2 Diabetes Mellitus in Children and Adolescents:A Chronological Review	08:00 - 08:00
P-619	Hemolytic-uremic syndrome in patient with type 1 diabetes	08:00 - 08:00
P-620	"Beyond glycaemic control" - How Type 2 diabetes shapes health-related quality of life in Nepal: a qualitative study	08:00 - 08:00
P-621	Fear of complications, mental health, and glycemia outcomes in people living with type 1 diabetes followed in a Northeastern Brazil diabetes clinic Nathalia Costa Monteiro (São Cristovão, Brazil)	08:00 - 08:00
P-622	NO MATER HOW HIGH THE BMI, THERE IS HOPE IN CHILDHOOD OBESITY	08:00 - 08:00
P-623	CGM and HbA1c results from the HumAn-1 study: a randomized trial comparing human vs analogue insulin for youth with T1D in low-resource settings	08:00 - 08:00
P-624	Early Detection of Diabetic Kidney Disease in Youth with Type 1 Diabetes: The Role of Urinary NGAL	08:00 - 08:00
P-625	Diabetic Foot Care Bernalien Merveil Mbimi-Moumpoussouka (Brazzaville, Congo)	08:00 - 08:00
P-626	Mauriac syndrome in Nigerian children living with type 1 diabetes mellitus: a report of two cases Oluwadamilola Oladipo (Lagos, Nigeria)	08:00 - 08:00
P-627	Establishment of reference values for handgrip strength and their associations with metabolic syndrome in Korean youth and young adults Jieun Lee (Goyang, Korea, Republic of)	08:00 - 08:00
P-628	Acute painless peripheral Mononeuropathy in a newly diagnosed Type 1 Diabetes Mellitus, Rare presentation: A Case Report Sommayya Aftab (Lahore, Pakistan)	08:00 - 08:00
P-629	Clinical and Demographic Profile of Children with Type 1 Diabetes: A Single-Center Study	08:00 - 08:00
P-630	Diagnosis of Type 2 Diabetes Mellitus with Hemorrhagic Shock	08:00 - 08:00
P-631	Sexual behaviour among children and adolescents with type 1 diabetes mellitus in Ghana Emmanuel Ameyaw (Kumasi, Ghana)	08:00 - 08:00
P-632	Risk factor affecting glycemic control on linier growth in children	08:00 - 08:00

	with type-1 diabetes mellitus	
P-633	Detection of microalbuminuria in a cohort of diabetic children and adolescents followed in Guinea Mamadou Dian Mamoudou Diallo (Labe, Guinea)	08:00 - 08:00
P-634	Living with Diabetes in a Developing Country: Experiences from the Maldives	08:00 - 08:00
P-635	Assessing Occupational Stress Levels Among Clinical Staff at Federal Teaching Hospital Katsina, with a Focus on Individuals Managing Diabetes Mellitus	08:00 - 08:00
P-636	Case report and literature review of a child with extremely high hyperglycemic hyperosmolar state complicated by diabetic ketoacidosis and rhabdomyolysis	08:00 - 08:00
P-637	THE IMPACT OF AUTOIMMUNE THYROIDITIS ON TYPE 1 DIABETES IN CHILDREN: A COMPREHENSIVE STUDY Chisnoiu Tatiana (Constanta, Romania)	08:00 - 08:00
P-638	Quality of Life Among Indian Parents Caring for Children and Adolescents with Type 1 Diabetes: A Cross-Sectional Study	08:00 - 08:00
P-105	General epidemiological evolution of T1D in children from 1973 to 2024. Use of a departmental register covering 3984 cases Mahmoud Touhami (Oran, Algeria)	08:00 - 08:00
	Design of a Community-Linked Primary Care Program for Pediatric Obesity and Type 2 Diabetes Prevention in South Korea	08:00 - 08:00
	Development of a Prediction Model for Severe Hypoglycemia in Children with Type 1 Diabetes: The Epi-GLUREDIA Study	08:00 - 08:00
	Implementation of a Transition Education Program to Enhance College Preparedness and Health Outcomes in Adolescents with Type 1 Diabetes Mellitus	08:00 - 08:00
	Heterogeneity in 401 Children with Type 1 Diabetes Mellitus Across Age Groups: A Single-Center Retrospective Study	08:00 - 08:00
	Gaps and Opportunities in Nutrition Therapy for Diabetes and Hypertension in Kenya's Primary Health Care	08:00 - 08:00
	Comparative Analysis of Glycemic Control in Children with Type 1 Diabetes Using DIYAPS During School Days and Holidays Xianming Li (HeFei, China)	08:00 - 08:00
	Associations of Glycemic and Psychosocial Outcomes with Executive Function Among Teens and Emerging Adults with Type 1 Diabetes (T1D)	08:00 - 08:00
	Promoting Early Pump/AID Uptake in Newly Diagnosed Type 1 Diabetes: The Impact of Systematic Education from 4T Study 2 Franziska Bishop (Standford, United States)	08:00 - 08:00
	Advanced Diabetes Technology Use in Youth with Type 1 Diabetes Despite Presence of Health-Related Social Needs	08:00 - 08:00
	Changing Diabetes in Children (CDiC): Establishing Baseline Data to Improve Pediatric Type 1 Diabetes Care	08:00 - 08:00
	Prevalence and nature of complications associated with T1DM among patients attending the diabetes clinic at Machakos County Referral Hospital	08:00 - 08:00

Development and Validation of Glukopedia: A Mobile Application to Support Sugar Consumption Awareness through Packaged Beverage Barcode Scanning in Indonesia	08:00 - 08:00
Relationship between Oral Glucose Tolerance Test Characteristics and adverse maternal-neonatal outcomes among women with Gestational Diabetes Mellitus	08:00 - 08:00
INHALE-1: A 26-week Primary Treatment with 26-week Extension, Open-label, Randomized Clinical Trial Evaluating the Efficacy and Safety of Afrezza® vs Rapid-Acting Analogue Insulin in Pediatric Subjects with Diabetes	08:00 - 08:00
GLP-1 Monotherapy in newly diagnosed youth with type 2 diabetes is superior to Metformin in achieving weight loss Lily C. Chao (Los Angeles, United States)	08:00 - 08:00
Integrated Tele-helpline Support for Pregnant Women with Type 1 Diabetes in LMICs: Can Technology Improve Outcomes Where Access is Limited?	08:00 - 08:00
Clinical Performance of Real-time Continuous Glucose Monitoring Systems in Hospitalized Pediatric Type 1 Diabetes: A Real-World Study	08:00 - 08:00
Tirzepatide in youth with type 2 diabetes: A Phase 3, randomised, double-blind, placebo-controlled trial (SURPASS-PEDS)	08:00 - 08:00
Demographic, Clinical, Behavioral, and Psychosocial Predictors of Glycemic Control Trajectories over Nine Years in Adolescents with Type 1 Diabetes	08:00 - 08:00
Assessment of Diabetes Distress in People with Type 1 Diabetes Using the Diabetes Distress Scale (DDS): A Cross-Sectional Study from a Low Middle Income Country	08:00 - 08:00
Impact of parental fear of hypoglycemia on quality of life in children with type 1 diabetes and their parents Melek Yildiz (Istanbul, Turkey)	08:00 - 08:00
Mapping the Global Landscape of Youth-Onset Type 2 Diabetes: Diagnosis and Management - A scoping review Megan Yuasa (San Francisco, United States)	08:00 - 08:00
Cost-effectiveness of three potential population-wide screening strategies for type 1 diabetes in Australian children Kirstine Bell (University Of Sydney, Australia)	08:00 - 08:00
Feasibility and Acceptability of a National Screening Program for Type 1 Diabetes in Children in Australia Kirstine Bell (University Of Sydney, Australia)	08:00 - 08:00
Empowering Lives Through Diabetes Education: A Pathway to Self-Management and Better Health Outcomes Esther Chumburi (Nairobi, Kenya)	08:00 - 08:00
Real-World Performance of a Tubeless Automated Insulin Delivery (AID) System in Children and Adolescents with Type 1 Diabetes (T1D) in Europe	08:00 - 08:00
Emerging methylation signatures of metabolic memory associate with diabetes and its complications: a meta-analysis from eight independent studies Jędrzej Chrzanowski (Łódź, Poland)	08:00 - 08:00
Global type 1 diabetes prevalence, incidence, and mortality in 2025	08:00 - 08:00

and projections to 2040: Estimates from the T1D Index Version 3.0 and IDF Atlas 11th Edition

Enhancing Diabetes Awareness and Management through School-Based Education Programs in Kenya	08:00 - 08:00
Efficacy and safety of DPP-4 inhibitors in pediatric patients with type 2 diabetes: a systematic review and meta-analysis	08:00 - 08:00
Triple X syndrome with Type 1 Diabetes	08:00 - 08:00
Development of a Decision-Analytic Model to Evaluate the Cost-Effectiveness of Screening for Type 1 Diabetes, Celiac Disease, and Autoimmune Thyroid Disease in Children	08:00 - 08:00
Thiamine-Responsive Megaloblastic Anemia in a Tertiary Care Center in Pakistan: Clinical Spectrum and Response to Thiamine Therapy Mustansir Ali Khan (Islamabad, Pakistan)	08:00 - 08:00
Investigating early single-cell changes to unravel the chronology of cardiovascular complications in type 1 diabetes Rida Khan (Vancouver, Canada)	08:00 - 08:00
A STUDY OF CORRELATION BETWEEN BIOCHEMICAL PARAMETERS AND PHYSIOLOGICAL CHANGES IN CHILDREN WITH DIABETIC KETOACIDOSIS	08:00 - 08:00
Time-in-Range and HbA1c: The Influence of CGM Sensor Wear-Time	08:00 - 08:00
A Rare Case of insulin receptor mutation in a Preterm Infant with Persistent Jaundice, Hypertrichosis, and Severe Insulin Resistance	08:00 - 08:00
Community-Based Diabetes Care via WhatsApp: A Case Study of the Youth Diabetes Congo Group in South Kivu	08:00 - 08:00
The impact of the Allied Health Care Professionals Paediatric-Diabetes Educator Course for Africa (ADECA) on the incidence and characteristics of DKA among children and young adults at the Paediatric Diabetes Clinic at Komfo Anokye Teaching Hospital (KATH), Ghana	08:00 - 08:00
Voices from Laos: Navigating the transition from a twice daily to multiple daily insulin regimen in a resource-limited setting	08:00 - 08:00
Post-Disaster Health Systems Recovery: Rebuilding Type 1 Diabetes Care for Children and Young people in Myanmar Following the 2025 Earthquake Sze May Ng (Ormskirk, United Kingdom)	08:00 - 08:00
Evaluation of Continuous Glucose Monitoring Use in Type 1 Diabetes: Clinical Benefits and Effects of Health Insurance Reimbursement on Device Adoption	08:00 - 08:00
Transforming Paediatric Diabetes Care with ADNAT : A Digital Health Assessment App for Enhancing Diabetes Care and Wellbeing in Children and Young People with Type 1 Diabetes Sze May Ng (Ormskirk, United Kingdom)	08:00 - 08:00
Preclinical biomarkers of neural damage in youth with type 1 diabetes (T1D): the SEARCH for Diabetes in Youth Study Meghan Pauley (Aurora, United States)	08:00 - 08:00
Real-world effectiveness of a tubeless AID system in children and adolescents with T1D in Italy: preliminary results of a multicenter	08:00 - 08:00

study

Navigating the Psycho-social Aspects of Parents Caring for a Child with Type 1 Diabetes Mellitus : A Qualitative study From Pokhara, Nepal	08:00 - 08:00
Gut-oral-blood Microbial Dysbiosis and Metabolic Perturbations in Pediatric Type 1 Diabetes	08:00 - 08:00
Clinical and Biochemical Features of MODY in Children: A Single-Center Experience	08:00 - 08:00
Acute Complications of Type 1 Diabetes in Children: Prevalence, Management Challenges, and Strategies for Improved Outcomes in Low-Resource Settings	08:00 - 08:00
Strengthening Health Policy and Systems Research for Adolescent Diabetes Prevention in Pakistan	08:00 - 08:00
A Real-World Retrospective Study: Comparing the Safety and Effectiveness of the Do-It-Yourself Loop Open-Source Automated Insulin Delivery System and Android APS in Chinese Children with Type 1 Diabetes	08:00 - 08:00
Clinical and Genetic Features of Pediatric Maturity-Onset Diabetes of the Young	08:00 - 08:00
Important of DIABETES Education and Awareness to schools caregivers Teacher s	08:00 - 08:00
Psychological Considerations & Practical Clinical Approaches to Address Anxiety and Avoidance-Related Behaviors with T1D Devices in Pediatric Patients	08:00 - 08:00
Liraglutide potently protects against streptozotocin-induced acute islet injury by inhibiting HMGB1 release	08:00 - 08:00
Early AID Therapy in Type 1 Diabetes: Real-World Insights from a Pediatric Case Report	08:00 - 08:00
Breaking Barriers: A Structured Multidisciplinary Care Model for Youth with Type 2 Diabetes	08:00 - 08:00
Strengthening Ward Nurse Competency in Pediatric Diabetes Care Through Interdisciplinary Training: A collaborative approach	08:00 - 08:00
The impact of transitioning from Mixtard regimen to basal-bolus regimen on glycemic control measured by HbA1c and self-monitoring of blood glucose (SMBG) in type 1 diabetes (T1D) patients at Machakos Level 5 Hospital	08:00 - 08:00
Correlation Between BMI Z-Scores and Waist Circumference in Pediatric Obesity Assessment: Using Data From the National Student Health Examination in Korea	08:00 - 08:00
Supply chain management for Type 1 Diabetes medications in Kenya's primary healthcare system	08:00 - 08:00
Beyond Glycemic Control: the role of AID technology and comprehensive metabolic management in Adolescents with Type 1 Diabetes and Obesity	08:00 - 08:00
The use of a retrospective meal-detection tool to characterize meal-bolusing behaviors in children with type 1 diabetes (T1D) using an advanced hybrid closed loop system in different regions	08:00 - 08:00

Beyond the Price Tag: Exploring the Economic Barriers and Value-Based Access to Diabetes Care in Low-Income Communities	08:00 - 08:00
Psychophysiological correlates of emotion regulation in type 1 diabetes: A scoping review	08:00 - 08:00
Use of Dulaglutide in a Pediatric Patient with Bardet-Biedl Syndrome and Type 2 Diabetes Mellitus: A Case Report Wafaa Laimon (Mansoura, Egypt)	08:00 - 08:00
Dietary Patterns Among Youth with Type 1 Diabetes: Comparing Automated Insulin Delivery Users to Non-Automated Delivery Users Meryem K. Talbo (Stanford, United States)	08:00 - 08:00
Factors associated with emotional well-being in parents of children and adolescents with type 1 diabetes: the role of diabetes distress, social support and resilience	08:00 - 08:00
Safety and Glycemic Outcomes of MiniMed 780G Advanced Hybrid Closed-Loop System Use in Children Under 7 Years with Type 1 Diabetes: A 12-Month Case Series Wafaa Laimon (Mansoura, Egypt)	08:00 - 08:00
Diabetes, Hidden Histories In Care, Cure, and Science (in concordance with Professor Stewart Brink on work started with the late Professor Mu (Jan) Bruining details and figures will follow)	08:00 - 08:00
Implementing a Remote Study Protocol in Adolescents and Young Adults with Type 1 Diabetes	08:00 - 08:00
Navigating the Transition: A Comprehensive Study on the Impact of Primary to Secondary School Transition Care on T1D Management Lucy Angela Dockery (Limerick, Ireland)	08:00 - 08:00
Glycemic Outcomes During Real World Use of a Bionic Pancreas Among Pre-Teens, Teens, Young Adults, and Adults	08:00 - 08:00
Impact of Mobile Text Messaging on Glycemic Control Among Adolescent Diabetic Patients: An Edu-Diabetes Approach	08:00 - 08:00
<i>Plenary</i> 09:00 - 10:30	Session Hall 1
Advocacy is for All of Us	
Policy-Level Advocacy Sujoy Ghosh (Kolkata, India)	09:00 - 09:25
Community-Led Advocacy Renata Vélez (Mexico)	09:25 - 09:25
Lived experience in research Kirsten de Klerk (South Africa)	09:25 - 09:50
Cross-Cutting Reflections Mariana Gomez Hoyos (Mexico)	09:50 - 10:15
Q&A	10:15 - 10:30
<i>Highlights</i> 10:30 - 11:00	Session Hall 1
HIGHLIGHTS	

Breaks

11:00 - 11:45

Session Hall 1

Coffee Break*Symposium*

11:45 - 13:15

Session Hall 1

Real-world use of technology**Rethinking Glycemic Metrics: Is It Time for Tighter Glucose Targets in Clinical Practice?**

11:45 - 12:10

Karin Akesson (Sweden)

Time in Range and Beyond: how tighter target Glucose Metrics impact Daily Life with Diabetes

12:10 - 12:35

Janie Bédard (Montréal, Canada)

Is it time to ditch the HbA1c machine if we have CGM data?

12:35 - 13:00

Roque Cardona-Hernandez (Barcelona, Spain)

Q&A

13:00 - 13:15

Symposium

11:45 - 13:15

Session Hall 2

Supporting Nutrition Education in diverse settings and populations**Nutrition education challenges in the neurodiverse population - adapting education to meet needs**

11:45 - 12:10

Vanessa Phillipson (United Kingdom)

"The Kenyan Experience": Tailoring carbohydrate counting to cultural plates

12:10 - 12:35

Antony Omondi (Kenya)

How can we use technology to support nutrition education with and without a dietitian

12:35 - 13:00

Vanita Pais (Canada)

Q&A

13:00 - 13:15

Oral Session

11:45 - 13:15

Session Hall 3

Oral Session I: Diabetes Screening and characteristics

O-01

Longitudinal changes in exocrine function in early life in children progressing to islet autoimmunity: the ENDIA Study

11:45 - 11:53

Madeleine Hall (Adelaide, Australia)

O-02

Sit down T1D: enhancing access to screening and staging pre-symptomatic type 1 diabetes in youth

11:53 - 12:01

Lauren Culbreth (Houston, United States)

O-03

Clinical and molecular genetic characteristics of monogenic diabetes cases - single European center experience

12:01 - 12:09

Vera Zdravkovic (Belgrade, Serbia)

O-04

First year of T1D population screening in the Czech Republic: the Betty project

12:09 - 12:17

Barbora Berka (Prague, Czech Republic)

O-05

Development and validation of a trans-ancestry polygenic risk score for type 1 diabetes

12:17 - 12:25

Despoina Manousaki (Montreal, Canada)

O-06	Proteomic profiling of Tr3-56 cells reveals a cytotoxic shift in type 1 diabetes Enza Mozzillo (Napoli, Italy)	12:25 - 12:33
O-07	EDENT1FI- Screening for Early-Stage Type 1 Diabetes in Children and Adolescents in School Setting in Portugal Raquel Coelho (Lisbon, Portugal)	12:33 - 12:41
O-08	Multi-tissue Transcriptome-Wide Mendelian Randomization identifies susceptibility genes and pathways for Type 1 Diabetes Despoina Manousaki (Montreal, Canada)	12:41 - 12:49
O-09	AI-driven individualized prediction of stage 3 Type 1 Diabetes diagnosis based on publicly available clinical data	12:49 - 12:57
O-10	Clinically suspected Maturity Onset Diabetes of the Young does not correlate with known MODY gene variants Mashfiqul Hasan (Dhaka, Bangladesh)	12:57 - 13:05

Workshop

11:45 - 13:15

Workshop room

Advocacy in action: Policy & Funding Innovations for Achieving High-Quality Diabetes Care in LMICs**Making the Case: Advocacy Strategies to Secure Funding for Pediatric Diabetes Care**

11:45 - 12:30

Didier Jean Pierre (Mauritius)

Co-creating solutions to bridge gaps in care and technology access.

12:30 - 13:15

Tinotenda Dzikiti (Zimbabwe)

Breaks

13:15 - 14:00

Session Hall 1

Lunch Break*Side Events*

13:30 - 14:30

Session Hall 1

Special Interest Group Meeting: Nutrition

Francesca Annan (London, United Kingdom)

Carmel Smart (Newcastle, Australia)

Side Events

13:30 - 14:30

Session Hall 3

Special Interest Group Meeting: Nurse Educators*Industry Session*

14:00 - 15:15

Session Hall 2

Industry Session*Industry Session*

14:00 - 15:15

Workshop room

Practical Workshop*Poster Session*

15:15 - 16:15

Posters Sessions

Poster Session Wednesday

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 8: Lifestyle, Nutrition and Exercise

P-71	Impact of Ramadan on Hospitalizations for Diabetic Ketoacidosis in Children: A Retrospective Tunisian Study. Nour Jelalia (Ben Arous, Tunisia)	15:15 - 15:15
P-72	The effect of high fiber diet on glycemic variability among adolescents with type 1 diabetes mellitus Nouran Salah (Cairo, Egypt)	15:15 - 15:15
P-73	Immediate and overnight glycemic responses to two different exercise modalities in adolescents with type 1 diabetes using automated insulin delivery systems Emilie Lindkvist (Herlev, Denmark)	15:15 - 15:15
P-74	National, multi-centre, diet questionnaire shows high levels of habits linked to CVD risk and significant differences between units, regions and population subsections Kate Henson (Manchester, United Kingdom)	15:15 - 15:15
P-75	National, multi-centre, lifestyle questionnaire highlights concerning lifestyle habits linked to CVD risk and significant variability across UK diabetes units and population subsections Kate Henson (Manchester, United Kingdom)	15:15 - 15:15
P-76	A new sports management tool: what impact does it have on blood sugar control and snack consumption in adolescents with type 1 diabetes (T1D)? Julie Pelicand (Toulouse, France)	15:15 - 15:15
P-77	Dietary patterns for weight and glycemic management in persons with type 1 diabetes: a precision nutrition-focused systematic review and meta-analysis of clinical trials Daria Igudesman (Orlando, United States)	15:15 - 15:15
P-78	Comparison of metabolic control, dietary habits and activity in children and adolescents treated with insulin pumps Agnieszka Lejk (Gdańsk, Poland)	15:15 - 15:15
P-79	Co-designing a Dyadic Physical Activity Intervention for Adolescents Living with Type 1 Diabetes: Integrating Adolescent and Caregiver Perspectives Marlene Kritz (Perth, Australia)	15:15 - 15:15
P-80	Empowering Youth with Type 1 Diabetes: The Role of Nutrition, Exercise, and Lifestyle Interventions in Resource Limited Settings	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 9: Psychological and Psychosocial aspects of diabetes

P-81	Healthcare care professionals experience with routine mental health screening in pediatric diabetes care: results from a global survey Jess Forster (Markham, Canada)	15:15 - 15:15
P-82	Psychological Implications of Time in Tight Range in Adolescents with Type 1 Diabetes Bruno Bombaci (Messina, Italy)	15:15 - 15:15
P-83	Transition to adult care: hypoglycemia distress and depressive symptoms as mechanisms of intervention impact Marisa E. Hilliard (Houston, United States)	15:15 - 15:15

P-84	Teaching Adolescents with type 1 Diabetes Self-compassion (TADS) to reduce diabetes distress: a randomized controlled trial Marwa El Masri (Ottawa, Canada)	15:15 - 15:15
P-85	A safe, feasible, and acceptable wellbeing tool for adolescents with type 1 diabetes: feasibility trial of a self-compassion chatbot	15:15 - 15:15
P-86	Assessment of neurocognitive functions in children and adolescents with type 1 diabetes Elżbieta Niechcial (Poznan, Poland)	15:15 - 15:15
P-87	Psychosocial interventions for pediatric type 1 diabetes: perspectives of underrepresented caregivers and adolescents	15:15 - 15:15
P-88	Association between treatment modalities and Quality of Life (QOL) in children with type 1 diabetes (T1D): national survey of 1,227 French families Emmanuelle Labarre (Angers, France)	15:15 - 15:15
P-89	Real-world continuous glucose monitoring data in children, adolescents, and young adults with type 1 diabetes and mental disorders Angela Galler (Berlin, Germany)	15:15 - 15:15
P-90	Carbohydrate Counting in Type 1 Diabetes: A Hidden Psychosocial Burden in Mauritius? Lydia Dorasami (Quatre Bornes, Mauritius)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 1: Pumps and CGM; Telemedicine, Digital Health, Decision Support and Artificial Intelligence Applications

P-01	The development and validation of DiaBuddy, a mobile application-based tool for guiding insulin dose adjustments in children and adolescents with Type 1 Diabetes Alapan Mahapatra (Kanpur, India)	15:15 - 15:15
P-02	Leveraging USSD technology to visualise the prevalence of type 1 diabetes in children in Uganda: a data-driven approach Onono Jasper (Kampala, Uganda)	15:15 - 15:15
P-03	Proof-of-Concept Study of a Decision Support Tool for Self-Management of Insulin Dosing in Type 1 Diabetes with Multiple Daily Injections	15:15 - 15:15
P-04	Impact of a smart insulin pen on glycemic control and quality of life in children with type 1 diabetes: a 6-Month Longitudinal Study	15:15 - 15:15
P-05	Paediatric type 1 diabetes sub-typing in a diverse Canadian population Ayo Eyesan (Montreal, Canada)	15:15 - 15:15
P-06	The prevalence of glucose sensors' Skin Reactions and its Management Strategies Miada Alabdulsalam (Dublin 2, Ireland)	15:15 - 15:15
P-07	Early Clinical Outcomes and Clinician Perspectives on a Fully Automated Insulin Delivery System in Pediatric Diabetes Carolina De Almagro (Miami, United States)	15:15 - 15:15
P-08	Less insulin pump use in children with Type 1 Diabetes and migration background at disease onset with catch-up effect over time Katharina Pajk (Innsbruck, Austria)	15:15 - 15:15

P-09	Future perspective to control glycemic variations in patient with type 1 diabetes: millet based diet Alapan Mahapatra (Kanpur, India)	15:15 - 15:15
------	---	---------------

P-10	Influence of Chronotype on Glycemic profile measured by CGM in Children with Type 1 Diabetes	15:15 - 15:15
------	---	---------------

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 2: Automated Insulin Delivery, Closed Loop

P-11	Impact of hybrid closed-loop systems on time in range and Body Mass Index in children with type 1 diabetes: a cross-sectional analysis from Belgium - 2023 data	15:15 - 15:15
------	--	---------------

P-12	Glycemic control, importance of autocorrections and flexibility in bolusing behaviors in youth using an advanced hybrid closed-loop system: a global perspective Jennifer McVean (Northridge, United States)	15:15 - 15:15
------	--	---------------

P-13	The effectiveness of prolonged outpatient use of automated insulin delivery systems on measures of glucose control and quality of life in children and adolescents living with type 1 diabetes (T1D): a systematic review and meta-analysis	15:15 - 15:15
------	--	---------------

P-14	Open-source AID systems show no inferiority to a commercial hybrid closed-loop system in real-world type 1 diabetes care: a retrospective cohort study from British Columbia	15:15 - 15:15
------	---	---------------

P-15	Sustainable effect of an automated insulin delivery (AID) system in 2-6-year-old children - results from the LENNY trial continuation phase Klemen Dovc (Ljubljana, Slovenia)	15:15 - 15:15
------	---	---------------

P-16	Factors that shape the shared decision-making involved in recommending automated insulin delivery (AID) systems for pediatric people with type 1 diabetes (PwT1D): a qualitative analysis Ori Odugbesan (Boston, United States)	15:15 - 15:15
------	---	---------------

P-18	Factors impacting glycemic outcomes over 1 year following initiation of automated insulin delivery technology in youth with type 1 diabetes (T1D) Jayde Hooven-Davis (Pittsburgh, United States)	15:15 - 15:15
------	--	---------------

P-19	United States (US) youth with type 1 diabetes (T1D) achieve target glycemia using an advanced hybrid closed-loop system with every 5-minute autocorrections and recommended optimal settings	15:15 - 15:15
------	---	---------------

P-20	Effects on glycaemic control when changing insulin delivery system from a manual patch pump to an automated insulin delivery system Anna Korsgaard Berg (Herlev, Denmark)	15:15 - 15:15
------	---	---------------

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 3: Pathogenesis & Etiology; Epidemiology

P-21	Incidence of type 1 diabetes in Polish children: a 33-year-long observational, multicenter PolPeDiab study	15:15 - 15:15
------	---	---------------

P-22	Stable age at diagnosis and persistently high incidence of inaugural diabetic ketoacidosis in children with type 1 diabetes: insights from the French Diabetic Ketoacidosis Observatory (2010-2023)	15:15 - 15:15
------	--	---------------

	Olivier Pollé (Paris, France)	
P-23	FIRST MULTICENTRIC REGISTRY OF THE SITUATION OF TYPE 1 DIABETES CARE IN CHILDREN, ADOLESCENTS, AND YOUNG ADULTS IN ARGENTINA Lidia Caracotche (Buenos Aires, Argentina)	15:15 - 15:15
P-24	Hierarchical analysis of age, period, and cohort effects on diabetes mellitus mortality in Colombia, 1983-2022 Juan Pablo Pérez Bedoya (Medellín, Colombia)	15:15 - 15:15
P-25	RIMOC1, a novel regulator of mitochondrial function and mitophagy in β-cells	15:15 - 15:15
P-26	Clinical characteristics and spectrum of diabetes mellitus in children at Vietnam National Children's Hospital in 2024	15:15 - 15:15
P-27	Shifting the Paradigm? A higher frequency of MODY5 and KCNJ11 in childhood monogenic diabetes in Argentina: findings from a referral pediatric hospital Mariana Prieto (Caba, Argentina)	15:15 - 15:15
P-28	Obesity in pediatric type 1 diabetes: an underestimated health problem	15:15 - 15:15
P-29	Vascular Endothelial Growth Factor as a Biomarker of Early Kidney Microangiopathy in Obese Adolescents with Type 1 Diabetic Nephropathy	15:15 - 15:15
P-30	Continuing prolonged complete remission in a child with autoantibody-positive diabetes: possible role of coincidental GYS2 heterozygous mutation and spontaneous hypoglycemia Madhumati Vaishnav (Bangalore, India)	15:15 - 15:15
<i>Poster Session</i> 15:15 - 16:15		Posters Sessions
Poster Corner 4: Outcomes and Care Models		
P-31	Unrecognized social needs in a Canadian Tertiary Care Pediatric Diabetes Clinic: insights from navigating social resources for children's health (NSRCH) study Caroline Zuijdwijk (Ottawa, Canada)	15:15 - 15:15
P-32	Time in hypoglycemia is not related to Time in Tight Range or HbA1c	15:15 - 15:15
P-33	Establishing a pediatric type 2 diabetes registry with the T1D exchange QI collaborative Ori Odugbesan (Boston, United States)	15:15 - 15:15
P-34	Onset of stage 3 type 1 diabetes (T1D) in children and adolescents with and without early T1D detection programs Olga Kordonouri (Hannover, Germany)	15:15 - 15:15
P-35	Association between menstrual cycle phases and insulin requirements in adolescent females with type 1 diabetes using automated insulin delivery: Effect of hormonal contraception	15:15 - 15:15
P-36	Parent-Reported Management of Type 1 Diabetes in Australian Children and Adolescents: Differences by Cultural and Linguistic Diversity, Socio-economic Status, and Rurality	15:15 - 15:15
P-37	ConnecT1D: Reorienting diabetes care from episodic visits to a proactive continuum improves glycemic outcomes and narrows health equity gaps	15:15 - 15:15

P-38	Audit of National First Year of Care (FYOC) pathway for children and young people (CYP) with a new diagnosis of type 1 diabetes in England Peter Christian (Kent, United Kingdom)	15:15 - 15:15
P-39	Beyond Babysitting: A Real-World Model of In-Person Diabetes Coaching & Mentorship for Children and Families Sabella Larkin (San Diego, United States)	15:15 - 15:15
P-40	How burdened are parents of young children (< 6 years) diagnosed with early (stage 1 or 2) or clinical (stage 3) type 1 diabetes (T1D) in their child compared to the general population? Olga Kordonouri (Hannover, Germany)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 5: General Diabetes Care

P-41	The journey to adult care in youth with type 1 diabetes: a worldwide survey of current transition practice among centers participating in the international SWEET initiative	15:15 - 15:15
P-42	Practical Management of Type 1 Diabetes in Adolescents: Challenges, Strategies, and Outcomes. Study from South Rajasthan, India	15:15 - 15:15
P-43	Pregnancy outcomes among adolescents and young adults with diabetes in Kumasi, Ghana Emmanuel Ameyaw (Kumasi, Ghana)	15:15 - 15:15
P-44	What does diabetes look like, when you are a 4-12-year-old child with type 1 diabetes in Denmark in 2025? Crosscultural adaption of the animated diabetes avatar used in the American PRO-questionnaire Child Health Rating Inventories (CHRIS) from 1995 Mette Madsen (Gistrup, Denmark)	15:15 - 15:15
P-45	Weight care practice for healthcare professionals in type 1 diabetes: a standardized approach by The Charles H. Best Diabetes Centre Diana Balicsak (Whitby, Canada)	15:15 - 15:15
P-46	Following the rules? Understanding which type 1 diabetes guidelines and protocols are being used by tertiary clinics in Australia: a quantitative study Carolynn Smith (Sydney, Australia)	15:15 - 15:15
P-47	Enhancing Diabetes Care: A Quality Improvement Initiative to Improve Care Process Completion Rates Satish Hulikere (Warrington, United Kingdom)	15:15 - 15:15
P-48	Advancing the integration of type 1 diabetes into health system in Tanzania Renatus Nyarubamba (Dar Es Salaam, Tanzania)	15:15 - 15:15
P-49	Challenges and opportunities in digital health for type 1 diabetes management in Kenya Joan Kimetto (Nairobi, Kenya)	15:15 - 15:15
P-50	Safe landing: Understanding the transition to adult care for youth with diabetes in Nova Scotia Elizabeth Cummings (Halifax, Canada)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 6: Diabetes Education

P-51	Assessing the needs and impact of a multidisciplinary community of practice to transform paediatric T1D care Rebecca Pedruzzi (Nedlands, Australia)	15:15 - 15:15
P-52	Impact of structured diabetes education on type 1 diabetes management: a study at machakos level 5 diabetes clinic	15:15 - 15:15
P-53	DIActiv empathy cards: facilitating conversations on diabetes management exercise strategies and emotional support for adolescents with type 1 diabetes	15:15 - 15:15
P-54	Women with type 1 diabetes and women with type 2 diabetes differ in knowledge and beliefs about contraception and pregnancy Hela Marmouch (Monastir, Tunisia)	15:15 - 15:15
P-55	Diabetes Education during Pediatric Residency Training: Are Residents as confident as we think they are? Gabrielle Scantlebury (Vancouver, Canada)	15:15 - 15:15
P-56	Progressive knowledge retention in people living with type 1 diabetes using continuous glucose monitoring in a low-resource setting in Northeastern Brazil Nathalia Costa Monteiro (São Cristovão, Brazil)	15:15 - 15:15
P-57	The prevalence of glucose sensors' skin reactions and its management strategies Miada Alabdulsalam ¹ , Nadzirah Mohamed ¹ , Declan Cody ² Katharine Barnard-Kelly (Southampton, United Kingdom)	15:15 - 15:15
P-58	U.S. pediatric endocrinology trainees' education and knowledge about automated insulin delivery systems (AID) Jaisree Iyer (Philadelphia, United States)	15:15 - 15:15
P-59	The adaptation of an eating disorder prevention intervention to a Wales paediatric diabetes context: application of the ADAPT guidelines to a clinical context	15:15 - 15:15
P-60	Optimizing Glycemic Outcomes Through Flexible Insulin Treatment and Digital Support in type 1 diabetes children	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 7: Chronic Complications

P-61	Assessment of microvascular disturbances with the use of novel techniques in children with type 1 diabetes	15:15 - 15:15
P-62	iDXA-based body composition and cardiometabolic risk in Indian youth with type 1 diabetes (T1D): a longitudinal study	15:15 - 15:15
P-63	Post-prandial vasodilatation occurs following high, but not low, glycemic index meal in adolescents with type 1 diabetes	15:15 - 15:15
P-64	Assessment of small nerve fiber diabetic neuropathy in children and adolescents with type 1 diabetes (T1DM) and healthy peers	15:15 - 15:15
P-65	A longitudinal study of growth and puberty in patients with Type 1 Diabetes Mellitus in limited resource setting	15:15 - 15:15
P-66	Macular thickness in type 1 diabetic patients under 40 years old in the Yaounde Central Hospital CDiC center	15:15 - 15:15

P-67	Assessment of endothelial dysfunction in type 1 diabetes mellitus using flow-mediated dilatation of the brachial artery: a prospective case-control study	15:15 - 15:15
P-68	Trends in incidence and prevalence of microvascular complications in Korean youth and young adults with diabetes (2008-2021) Jaehyun Kim (Seongnam, Korea, Republic of)	15:15 - 15:15
P-69	Ideal age for commencing nephropathy screening in people with type 1 diabetes - still an enigma	15:15 - 15:15
P-70	Changes in Bone Mineral Density and Trabecular Bone Score in Thai Youth with Type 1 Diabetes	15:15 - 15:15

Side Events

16:30 - 18:00

Session Hall 1

Paawaawaywin: An Awakening. Resiliency-Based Indigenous History and Reflection*Symposium*

16:30 - 18:00

Session Hall 2

Joint-Symposium ISPAD-ESPE: Redefining Obesity: Disease Classification, Treatment Strategies, and Real-World Applications

Silva Arslanian (Pittsburgh, United States)

Melanie Henderson (Montreal, Canada)

Is obesity a disease or a risk factor? Changing paradigms with new definitions	16:30 - 16:55
Louise Baur (Australia)	
Contrasting trial data versus real-world data in pharmacotherapy: practical approaches to be considered	16:55 - 17:20
Daniel Weghuber (Austria)	
Monogenic obesity: diagnostic approaches and 2025 management	17:20 - 17:45
Jesus Argente (Spain)	
Q&A	17:45 - 18:00

Oral Session

16:30 - 18:00

Session Hall 3

Oral Session II: Genes, cells and pathways

O-11	Superior efficacy and safety of anionic proinsulin mRNA lipid particle aggregates compared to cationic formulation Timothy Foster (Gainesville, United States)	16:30 - 16:38
O-12	Specimen quality for multicenter clinical trials: comparing novel blood preservation methods to cryopreserved PBMC Eric Sandhurst (Sioux Falls, United States)	16:38 - 16:46
O-13	Short-term low-carbohydrate diet depletes <i>Bifidobacterium</i>, a genus generally considered to be beneficial Vít Neuman (Prague, Czech Republic)	16:46 - 16:54
O-14	Impact of Insulin Therapy on Maternal Allergic Diseases and Neonatal Immune Modulation in Gestational Diabetes Pardeep Kumar (New Delhi, India)	16:54 - 17:02
O-15	Impact of CFTR modulator therapy on glucometabolic control in children with cystic fibrosis Enza Mozzillo (Napoli, Italy)	17:02 - 17:10
O-16	Larks vs. Owls: Exploring Chronotype, Glycemic Control, and	17:10 - 17:18

	Quality of Life in Pediatric Type 1 Diabetes Dilek Bingöl Aydın (İstanbul, Turkey)	
O-17	Modulatory Effects of docosahexaenoic acid on Dyslipidemia and Gut Microbiota Composition in Male Rats with Sugar-Rich Diet-Induced Diabetes	17:18 - 17:26
O-18	Beta-cell decline in non-autoimmune insulin-deficient diabetes in children and young people in sub-Saharan Africa: prospective one-year follow up study.	17:26 - 17:34
O-19	Nature versus nurture of glucose homeostasis trajectories in children Isabel Gamache (Montréal, Canada)	17:34 - 17:42
O-20	Cumulative genetic burdens of the leptin-melanocortin pathway in pediatric obesity Meng-Che Tsai (Tainan, Taiwan, China)	17:42 - 17:50
<i>Symposium</i>		
16:30 - 18:00		Workshop room
	Tackling Hypoglycemia - Old meets New	
	GlucoseGo - using machine based learning to predict hypo risk before exercise Catherine Russon (United Kingdom)	16:30 - 16:55
	Harnessing Patient-driven Registries to Improve Hypoglycemia Outcomes Anne-Sophie Brazeau (Canada)	16:55 - 17:20
	What to do when there is not glucagon? Atif Munir (Pakistan)	17:20 - 17:45
	Q&A	17:45 - 18:00

Industry Session

08:00 - 09:00

Session Hall 2

Industry Session

Plenary

09:00 - 10:30

Session Hall 1

The Future of Technology

What's next: better pump, better algorithm?

09:00 - 09:25

Martin de Bock (Christchurch, New Zealand)

Interoperability in the world of pumps and CGM

09:25 - 09:50

John Walsh (United States)

Scaling affordable design in diabetes technology

09:50 - 10:15

Cathy Haldane (South Africa)

Q&A

10:15 - 10:30

Highlights

10:30 - 11:00

Session Hall 1

HIGHLIGHTS

Breaks

11:00 - 11:30

Session Hall 1

Coffee Break

Symposium

11:30 - 13:00

Session Hall 1

Keeping an eye on complications

The role of lipids in the eye

11:30 - 11:55

Julia Busik (United States)

Do high and low glycaters explain the racial difference in complication rates?

11:55 - 12:20

Jamie Wood (Cleveland, United States)

Retinopathy in SubSaharan Africa - how can the risk be lowered?

12:20 - 12:45

Ritha Mbono (Cameroon)

Q&A

12:45 - 13:00

Symposium

11:30 - 13:00

Session Hall 2

Disease Modifying Therapies - How far are we?

The Roadmap for Precision Medicine in Type 1 diabetes

11:30 - 11:55

Alice Carr (Edmonton, Canada)

Combination Disease-Modifying Therapy in Recent-Onset Type 1 Diabetes: First Results from the Abatacept and Intranasal Insulin Trial

11:55 - 12:20

John Wentworth (Australia)

Selection for trials and treatment responses in disease modifying therapies

12:20 - 12:45

Emily Sims (Indianapolis, United States)		
Q&A		12:45 - 13:00
<i>Oral Session</i> 11:30 - 13:00		Session Hall 3
Oral Session III: Diabetes Care		
O-21	Examining social capital and other social determinants of health in adolescents living with type 1 diabetes Desireé N. Williford (Cincinnati, United States)	11:30 - 11:38
O-22	Insulin dose-adjusted HbA1c performance varies with BMI in youth with type 1 diabetes: the SEARCH for diabetes in youth study Michael L Ferm (Houston, United States)	11:38 - 11:46
O-23	Establishing inclusive global research: the global collaborative for changing diabetes in children John T Figi (Boston, United States)	11:46 - 11:54
O-24	Association of diabetes transition readiness with glycemic and psychosocial outcomes in emerging adults with type 1 diabetes Faisal Malik (Seattle, United States)	11:54 - 12:02
O-25	Life for a Child (LFAC) - ISPAD mentorship program: bridging global gaps in pediatric and young adult diabetes care	12:02 - 12:10
O-26	A short-term low carbohydrate diet improves glycemia in adolescents and young adults with type 1 diabetes: results from a randomized crossover study Laura M. Nally (New Haven, United States)	12:10 - 12:18
O-27	Get READDY at School: Collaborating with School Nurses for Diabetes Transition Success Mary (Tracy) Bekx (Madison, United States)	12:18 - 12:26
O-28	Type 1 Diabetes (T1D) Management in Children and Adolescents in Schools: Families' Perceptions from a Worldwide Survey focusing on World Bank Income Classification (WBIC) Laura Cudizio (São Paulo, Brazil)	12:26 - 12:34
O-29	The 2023 national bench-mark report for children and young people with diabetes in Aotearoa, New Zealand: the inaugural report from the KiwiDiab diabetes data network Martin de Bock (Christchurch, New Zealand)	12:34 - 12:42
<i>Symposium</i> 11:30 - 13:00		Workshop room
Advocacy meets Science: The Advocate's Role in Advancing Diabetes Research with Patient-Centric Insights		
	The role of advocates in disseminating crucial diabetes research Asra Ahmed (Saudi Arabia)	11:30 - 11:55
	Reimagining lived experience in diabetes research Dana Greenberg (Canada)	11:55 - 12:20
	Why research is key to ending diabetes stigma Renza Scibilia (Melbourne, Australia)	12:20 - 12:45
	Q&A	12:45 - 13:00

Breaks

13:00 - 14:00

Poster Corner 8: Outcomes and Care Models; Childhood Obesity and Type 2 Diabetes; Chronic Complications; Monogenic and other forms of Diabetes

P-161	Repurposing Tirzepatide: A Novel Disease-Modifying Approach for Wolfram Syndrome Martina Matarazzo (Milan, Italy)	15:15 - 15:15
P-162	GLP-1 Receptor Agonist Liraglutide in Wolfram Syndrome Type 1: Effects on Endogenous Insulin Secretion Martina Matarazzo (Milan, Italy)	15:15 - 15:15
P-163	Unmasking H Syndrome in a Child with Atypical Diabetes	15:15 - 15:15
P-164	Prevalence of monogenic diabetes in children and adolescents in an admixed population in Brazil	15:15 - 15:15
P-165	Are sulfonylureas as effective as insulin in treating relapsed 6q24-related diabetes? Pablo Cid Galache (Granada, Spain)	15:15 - 15:15
P-166	Lessons from an Early Type 1 Diabetes Clinic in the UK Theodora Papanikolaou (Birmingham, United Kingdom) Veer Sheth (Birmingham, United Kingdom)	15:15 - 15:15
P-167	Validity of glucose abnormalities detected by Oral Glucose	15:15 - 15:15

	Tolerance Test (OGTT) in children with cystic fibrosis: comparison with MMT and real-life CGM data	
P-168	Adapting Sulfonylurea Transition with Fractionated Glibenclamide Dosing in KCNJ11 Neonatal Diabetes: Report of Two Cases Consuelo Barcala (Autonomous city of Buenos Aires, Argentina)	15:15 - 15:15
P-169	Trends in prevalence of overweight and obesity among youth-onset diabetes at a tertiary care diabetes centre in India Anandakumar Amutha (Chennai, India)	15:15 - 15:15
P-170	Vitamin B12, vitamin D, and iron supplementation in youth with type 1 diabetes: a randomised controlled trial evaluating nerve conduction	15:15 - 15:15
<i>Poster Session</i> 15:15 - 16:15		
	Poster Corner 9: Psychological and Psychosocial aspects of Diabetes	Posters Sessions
P-171	Stigma in adolescents with type 1 diabetes: a grounded theory study	15:15 - 15:15
P-172	Childhood diabetes and mental health in two Nordic countries Karin Akesson (Sweden)	15:15 - 15:15
P-173	Nocturnal caregiving practice among caregiver parents of juveniles with Type 1 Diabetes; prevalence, impacts and predictors Declan Cody (Dublin, Ireland) Vincent McDarby (Dublin, Ireland)	15:15 - 15:15
P-174	Does your address matter? Associations of Multiple Deprivation Dimensions with Psychiatric Disorders and Psychosocial Health in Adolescents with Type 1 Diabetes Before Transfer to Adult Care Ferial Rahmani (Montreal, Canada)	15:15 - 15:15
P-175	Between blood sugar and belonging: a qualitative study of adolescent diabetes management in resource-limited settings	15:15 - 15:15
P-176	Positive psychological constructs are associated with subjective and objective self-management behaviors in adolescents with type 1 diabetes (T1D) and diabetes distress Molly Ream (Boston, United States)	15:15 - 15:15
P-177	Confirmatory Factor Analysis of the Parent and Child Problem Areas in Diabetes Measures Alexandra Monzon (Orlando, United States)	15:15 - 15:15
P-178	Association between perceived psychological stress and eating disorders in adolescent and young adults with type 1 diabetes	15:15 - 15:15
P-179	Association of self-reported race and ethnicity with transition readiness in adolescents with type 1 diabetes Stephanie Lenet (Montreal, Canada)	15:15 - 15:15
P-180	Virtual Peer Groups (VPG) for Latinx families with type 1 diabetes (T1D): engaging those with greatest need and highest burden Jaquelin Flores Garcia (Los Angeles, United States)	15:15 - 15:15
<i>Poster Session</i> 15:15 - 16:15		
	Poster Corner 5: Diabetes Education	Posters Sessions
P-130	A Century of Insulin, Yet Miles to Go: The Unfinished Journey Toward Proper Injection Practices and Technique	15:15 - 15:15

	Anjana Barola (Pune, India)	
P-131	Impact of the new therapeutic education programme (AdoDiab-1) on the quality of life of teenagers aged 13 to 18 living with type 1 diabetes in Cameroon	15:15 - 15:15
P-132	Beliefs around hypoglycemia and their impacts on hypoglycemia outcomes in individuals with type 1 diabetes (adults and adolescents) and high risks for hypoglycemia despite using advanced diabetes technologies at the time of the discovery of diabetes Hela Marmouch (Monastir, Tunisia)	15:15 - 15:15
P-133	Comparison of HbA1c levels at 1 year post diagnosis in Paediatric & Adolescent Patients with T1DM who carbohydrate counted from onset of diabetes (initiated during inpatient stay) vs those who learned to carbohydrate count as an outpatient Frances Fitzpatrick (Galway, Ireland)	15:15 - 15:15
P-134	Enhancing diabetes transition of care: Building Up Independent Lives for Teens (BUILT) program's impact on young adults Jennifer Pfieffer (Jacksonville, United States)	15:15 - 15:15
P-135	Understanding pediatric diabetes providers perspectives on interprofessional collaboration: a province-wide assessment in British Columbia, Canada	15:15 - 15:15
P-136	Understanding patient experience through routine diabetes clinic visits at DMI centre among the teens	15:15 - 15:15
P-137	Self-identified areas of interest for pediatric patients with type 1 diabetes prior to adult transition Lauren Waterman, MD (Aurora, United States)	15:15 - 15:15
P-138	Understanding education needs of youth with type 1 diabetes (T1D) and their carers in the Philippines: a foundation for tailored health programming Ivy Nolasco (Quezon City, Philippines)	15:15 - 15:15
P-139	Diabetes knowledges of children with T1D about insulin management and diet in Bangui, Central African Republic Deborah Nguimba (Yaounde, Cameroon)	15:15 - 15:15
<i>Poster Session</i> 15:15 - 16:15		Posters Sessions
Poster Corner 3: Outcomes and Care Models		
P-111	Gaps in type 1 diabetes (T1D) transition care in Kenya: the urgent need for structured transition care model	15:15 - 15:15
P-112	Time trends in diabetic ketoacidosis and severe hypoglycemia during follow-up in 63,126 children and adolescents with type 1 diabetes and potential effect modification by treatment Stefanie Lanzinger (Ulm, Germany)	15:15 - 15:15
P-113	Glycemic Outcomes and Diabetes Management Across Provinces in Pakistan: A Nationwide Analysis of Children and Young Adults with Type 1 Diabetes Bilal Tahir (Karachio, Pakistan)	15:15 - 15:15
P-114	Health professionals' perspectives on T1D multidisciplinary team in Australia: A mixed-methods study Carolynn Smith (Sydney, Australia)	15:15 - 15:15
P-115	Does Changing the Ketone Management Threshold Increase the	15:15 - 15:15

Risk for DKA? A Quality Improvement Project

P-116	Lower HbA1c following older age of transfer from pediatric to adult type 1 diabetes services in Australia: Data from the Australasian Diabetes Data Network (ADDN) registry Steven James (Queensland, Australia)	15:15 - 15:15
P-117	Development and feasibility of an intensive, multidisciplinary clinic to address diabetes nonadherence in high-risk adolescents: a pilot study Emily Pietrantone (Omaha, United States)	15:15 - 15:15
P-118	Diabetes health care providers' views on implementation of a transition coordinator within their clinic for transition of care between pediatric and adult care services	15:15 - 15:15
P-119	Predictors of age at transfer to adult type 1 diabetes care in the Americas: a SWEET study Joseph Leung (Vancouver, Canada)	15:15 - 15:15
P-120	Utilising a hub-and-spoke model to improve access and outcomes in pediatric type 1 diabetes: Experience from the D-Connect Project	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 4: Novel Advances and Interventions; Diabetes in Developing Countries and Migrant Populations

P-121	Safety and efficacy of the therapy with CD4+CD25highCD127- T regulatory cells - when pediatric patient becomes adult	15:15 - 15:15
P-122	Research on improving diagnosis and treatment capacity for T1D in Chinese children: based on practice of China•Changing Diabetes in Children (CDIC)	15:15 - 15:15
P-123	Novel Pharmacokinetic (PK) Assay for measuring SAB-142, a fully human Anti-Thymocyte Globulin Evan Gardner (Sioux Falls, United States)	15:15 - 15:15
P-124	Impact of Blood Glucose Control on Motor Symptoms in Adolescents with Dystonia and Type 1 Diabetes Mellitus Vikas Sharma (New Delhi, India)	15:15 - 15:15
P-125	Development and Validation of the Indian Type 1 Diabetes Quality of Life Scale (IT1D-QoLS)	15:15 - 15:15
P-126	Enhancing diabetes management through analysing HbA1c trajectories in T1DM patients using flexible trend estimation technique	15:15 - 15:15
P-127	Clinical Characteristics of Newly Diagnosed Children and Adolescents with Other Specific Diabetes: A Single-Center Study	15:15 - 15:15
P-128	Impact of COVID-19 Pandemic on the Incidence and Severity of New-Onset Type 1 and Type 2 Diabetes in Pediatric Populations: A Retrospective Analysis	15:15 - 15:15
P-129	Utility of flash glucose monitoring in management of children with poorly controlled type 1 diabetes mellitus	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 2: Epidemiology; Economics and Value Addition/access to care

P-101	The cost of living: economics and equity in type 1 diabetes care across Africa Sheila Wanjuki (Nairobi, Kenya)	15:15 - 15:15
P-102	Equity in access to paediatric diabetes technology: a QI project at the children's hospital for Wales Shreyaa Parasuram (Cardiff, United Kingdom)	15:15 - 15:15
P-103	From Burden to Benefit: Cost-Effectiveness of National Type 1 Diabetes Investment in Kenya Gladwell Koku Gathecha (Nairobi, Kenya)	15:15 - 15:15
P-104	Comorbidity of Type 1 Diabetes and ADHD: a Longitudinal Cohort Study in Males and Females from the Norwegian Childhood Diabetes Registry Kristin Andersen Bakke (Oslo, Norway)	15:15 - 15:15
P-106	Autoantibody-negative diabetes mellitus in an Irish tertiary cohort Laura Reaney (Dublin 1, Ireland)	15:15 - 15:15
P-107	Beyond the Price Tag: exploring the economic barriers and value-based access to diabetes care in low-income communities	15:15 - 15:15
P-108	Influenza Vaccine Coverage, Adherence Patterns and Associated Factors in Children and Adolescents with Type 1 Diabetes - A Danish Register-Based Study Vithiya Karunakaran (Aarhus N, Denmark)	15:15 - 15:15
P-109	MORTALITY IN PATIENTS WITH TYPE 1 DIABETES UNDER 30 YEARS OLD IN FRANCE FROM 2013 TO 2021 Romée Pouliquen (Angers, France)	15:15 - 15:15
P-110	Association between latitude, temperature, sunshine hours, and sunshine rate and the incidence of type 1 diabetes: a study in Japan Hiroshi Yokomichi (Chuo, Japan)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 6: Ethics of Care; Diabetes-Associated Diseases

P-140	Easy read, translated diabetes technology guides for children and young people (CYP) with diabetes from ethnic minority groups: a response to National Paediatric Diabetes Audit (NPDA) outcomes, and the challenges faced by CYP diabetes healthcare teams who support diverse communities in England, UK	15:15 - 15:15
P-141	Prevalence and Transience of Anti-Parietal Cell Antibodies in a Cohort of 728 Newly Diagnosed Type 1 Diabetes Patients	15:15 - 15:15
P-142	Disability and diabetes in childhood: risk factors and clinical insight in Bangladesh Mitu Rani Das (Bunkyo, Japan)	15:15 - 15:15
P-143	A girl with hyperglycemia, severe hypertriglyceridemia, and primary amenorrhea Anna Hogendorf (Łódź, Poland)	15:15 - 15:15
P-144	Allergic Contact Dermatitis in Diabetic Patients: A Complication Linked to Medical Device Exposure	15:15 - 15:15
P-145	Different Phenotype and Comorbidities in patients with Wolcott Rallison Syndrome in Kosova	15:15 - 15:15
P-146	Is there a trend in statural growth in type 1 diabetic patients?	15:15 - 15:15

P-147	Prevalence of Autoimmune Diseases in Type 1 Diabetic Patients in the Eastern Region of the Country	15:15 - 15:15
P-148	Unraveling a unique triad: Loeys-Dietz Syndrome, CD3G deficiency, and autoimmune polyendocrine syndrome type 4 in a child Fikir Messeret Adinew (Addis Ababa, Ethiopia)	15:15 - 15:15
P-149	Does celiac disease have an impact on hypoglycemia awareness in children with type1 diabetes?	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 1: Automated Insulin Delivery, Closed Loop; Telemedicine, Digital Health, Decision Support and AI Applications; General Diabetes Care

P-91	Assessing Full-Time Exercise Mode Use on Automated Insulin Pumps in Children with Type 1 Diabetes During Diabetes Camp: A Quality Improvement Initiative Marwa El Masri (Ottawa, Canada)	15:15 - 15:15
P-92	Improved glycemic control with the MiniMed™ 780G system in Brazilian children with T1D: a real-world analysis of AID in Latin America	15:15 - 15:15
P-93	Hybrid closed-loop use mediates the relationship between social determinants of health and glycemic outcomes in a Canadian pediatric type 1 diabetes clinic Nacera Hanzal (Ottawa, Canada)	15:15 - 15:15
P-94	Unequal access, unequal outcomes: time to Automated Insulin Deliver (AID) initiation in youth with T1D Jody Grundman (Washington, United States)	15:15 - 15:15
P-95	For a high carbohydrate meal, auto mode results in higher glucose levels, early and for a high fat and protein meal, lower glucose levels, late in young people with type 1 diabetes using hybrid closed loop therapy	15:15 - 15:15
P-96	Cycle-Aware Diabetes Management: Integrating Hormonal Trends, ADHD Symptoms, and Glycemic Data Using Wearable Technology and AI Sabella Larkin (San Diego, United States)	15:15 - 15:15
P-97	90% Time in Automated Mode is Necessary but Not Sufficient to Attain Glycemic Targets with the Omnipod 5 Nicole Alicea-Trelles (Philadelphia, United States)	15:15 - 15:15
P-98	Co-designing the SHARE Pathway: Shared Decision Making and Readiness in Hybrid Closed Loop Systems Alice Williams (Southampton, United Kingdom)	15:15 - 15:15
P-99	Sleep Disorders in Children with Type 1 Diabetes Enrolled in the Changing Diabetes in Children (CDiC) Project in Multan, Pakistan	15:15 - 15:15
P-100	The use of the Adherence to Refills and Medications Scale (ARMS) to evaluate medication adherence in diabetic patients in Kuwait Amina Alqassar (Kuwait, Kuwait)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 7: Psychological and Psychosocial Aspects of Diabetes; Screening/disease modification

P-150	Early detection of type 1 diabetes: experience from a Spanish tertiary care hospital	15:15 - 15:15
-------	---	---------------

P-151	Study satisfaction among at-risk children followed in the TEDDY study: implications for islet autoantibody screening Jessica Melin (Malmö, Sweden)	15:15 - 15:15
P-152	Assessing progression from stage 2 to stage 3 T1D in a European population: generalizability of the TN10 trial to a Danish cohort	15:15 - 15:15
P-153	Islet cell autoimmunity and preclinical phase of type 1 diabetes in general population of 1-9 year old children in north-eastern region of Poland Artur Bossowski (Białystok, Poland)	15:15 - 15:15
P-154	Screening of First-Degree Relatives of Children with Type 1 Diabetes: Preliminary Results Uğur Cem YILMAZ (Izmir, Turkey)	15:15 - 15:15
P-155	Weight stigma in the pediatric type 1 diabetes population: evaluating patient level factors and diabetes related outcomes Supraja Rengan (Vancouver, Canada)	15:15 - 15:15
P-156	Perceptions of the T1DAL (Type 1 Diabetes And Life) questionnaire for assessing health-related quality of life in parents of young children with type 1 diabetes: a qualitative study in Norway Hildegunn Styve Borkamo (Førde, Norway)	15:15 - 15:15
P-157	Beyond the numbers: integrating psychosocial assessments in routine diabetes clinics Justine Cunningham (Sydney, Australia)	15:15 - 15:15
P-158	Impact of family dynamics and dietary behavior on glycemic control in children and adolescents with type 1 diabetes in Tunisia Raboudi Najib (Tunis, Tunisia)	15:15 - 15:15
P-159	Evaluate the diabetes Distress and Emotional well-being in adolescents with T1D enrolled in CDiC- Pakistan	15:15 - 15:15
P-160	Screening Adherence and Its Impact on Diabetic Ketoacidosis in Pediatric Type 1 Diabetes: A Population-Based Analysis Sruthi Thomas (Vancouver, Canada)	15:15 - 15:15

Symposium

16:30 - 18:00

Session Hall 1

Bridging the Gap: Lessons from LMIC & HIC models in expanding diabetes workforce capacity

Empowering Frontline Heroes: Training Community Health Workers in Diabetes Care 16:30 - 16:55

Amos Msekandiana (Malawi)

Task-Shifting Success Stories: Nurses and Non-Specialists Delivering Care in Remote Regions 16:55 - 17:20

Silver Bahendeka (Kampala, Uganda)

Insights on implementing care models in varied resource settings 17:20 - 17:45

Edna Siima Majaliwa (Moshi, Tanzania)

Q&A 17:45 - 18:00

Symposium

16:30 - 18:00

Session Hall 2

Artificial insulin delivery - is it the best for everyone?

What about AID when we cannot even get CGM for everyone? 16:30 - 16:55

Yempabou Sagna (Bobo-Dioulasso, Burkina Faso)

	All gain, no pain - the reality of technology in those with the highest glycemic ranges. Will they get retinopathy?	16:55 - 17:20
	Benjamin J Wheeler (Dunedin, New Zealand)	
	Hurdles to tech adoption: why doesn't everyone want an AID pump?	17:20 - 17:45
	Molly Tanenbaum (United States)	
	Q&A	17:45 - 18:00
<i>Side Events</i>		
16:30 - 18:00		Session Hall 3
	#dedoc: What we wish you knew and why	
<i>Oral Session</i>		
16:30 - 18:00		Workshop room
	Oral Session IV: Technology in Diabetes	
O-31	ROCKET T1D: launching glycemic outcomes through remote patient monitoring and proactive care	16:30 - 16:38
	Daniel DeSalvo (Houston, United States)	
O-32	The CGM results do not always match with the classical glucose metabolism criteria in HLA-susceptible individuals monitored in the Finnish DIPP study	16:38 - 16:46
	Rosanna Squintani (Oulu, Finland)	
O-33	Better sleep, better control? Exploring sleep patterns and glycemia in children and adolescents using AID systems versus regular pumps	16:46 - 16:54
	Cecilie Paulsrud (Herlev, Denmark)	
O-34	Proposal of adjusted HbA1c (aA1c) reflecting individual glycation variability using the GA/HbA1c ratio	16:54 - 17:02
	Mie Mochizuki (Chuo, Japan)	
O-35	AID system for the newly diagnosed patients with type 1 diabetes: outcomes in preschoolers after two years of treatment	17:02 - 17:10
	Anna-Kaisa Tuomaala (Helsinki, Finland)	
O-36	Personalized, adaptive recommendations for meal/snack macronutrient composition and timing to optimize near-term percent time in range among adolescents with type 1 diabetes: a proof-of-concept	17:10 - 17:18
O-37	Cost-effectiveness of AID systems for young pediatrics and youth with T1D: an analysis across Canada, Australia, the UK, and the USA	17:18 - 17:26
	Laurent Legault (Montreal, Canada)	
O-38	Optimizing digital monitoring of blood glucose in children with type 1 diabetes: integration of a digital diabetes diary application within Indonesia's National Health Information System	17:26 - 17:34
	Agustini Utari (Jakarta, Indonesia)	
O-39	Open-label parallel-group explanatory randomized clinical trial for the evaluation of real-time continuous glucose monitoring (CGM) compared to standard of care for glycemic control in youth-onset type 2 diabetes (YO-T2D): a protocol	17:34 - 17:42
	Gonzalo Dominguez-Menendez (Vancouver, Canada)	
O-40	The Swedish T1D Education: Digital success story	17:42 - 17:50
	Elin Cederbrant (Växjö, Sweden)	

Friday, November 7, 2025

Industry Session

08:00 - 09:00

Session Hall 2

Industry Session*Industry Session*

08:00 - 09:00

Session Hall 3

Industry Session*Industry Session*

08:00 - 09:00

Workshop room

Practical Workshop*Plenary*

09:00 - 10:30

Session Hall 1

Intergenerational Impacts of Diabetes in Indigenous Populations**Historical Heredity: policy implications on population health**

09:00 - 09:35

Ryan Paul (Hamilton, New Zealand)

Youth onset T2D: a personal perspective of a road less travelled

09:35 - 10:10

Antonina Kandiurina (Canada)

Q&A

10:10 - 10:30

Highlights

10:30 - 11:00

Session Hall 1

HIGHLIGHTS*Breaks*

11:00 - 11:30

Session Hall 1

Coffee Break*Symposium*

11:30 - 13:00

Session Hall 1

Joint-Symposium ISPAD-ADA: Transition of Care into Young Adulthood: Similarities and Differences Across the Globe**Panel Discussion**

11:30 - 12:15

Natasha Namuzia (Zambia)

Tineshowri Devi (India)

Meranda Nakhla (Canada)

Q&A

12:15 - 13:00

Symposium

11:30 - 13:00

Session Hall 2

Has technology changed "fitness" to drive?**Acute Effects of Glycemia on Neurocognition, Mood and Behaviours and Potential Impact on Driving**

11:30 - 11:55

Tasmia Hai (Canada)

Diabetes and Driving: Responsibilities and Liabilities in the Diabetes Technology Era

11:55 - 12:20

	Jamie Walvisch (Perth, Australia)	
	Beyond Sharing Biometrics Data: What are the Implications for Individual Obligations and Responsibilities?	12:20 - 12:45
	Sinead Prince (Singapore)	
	Q&A	12:45 - 13:00
<i>Oral Session</i>		
11:30 - 13:00		Session Hall 3
Oral Session V: Treatment in diabetes		
O-41	Vildagliptin exerts hepatoprotective effects on non-alcoholic steatohepatitis and improves glycemia in adolescents with type 1 diabetes mellitus: a randomized controlled trial	11:30 - 11:38
O-42	Profiling the binding specificities of SAB-142, a fully human anti-thymocyte globulin, against T cell surface proteins	11:38 - 11:46
	Diane M. Maher (Sioux Falls, United States)	
O-43	Immunomodulation without Sustained Lymphodepletion: SAB-142, a fully human Anti-Thymocyte Globulin	11:46 - 11:54
	Stan Stoyanov (Sioux Falls, United States)	
O-44	Mechanism of Action of a fully Human Anti-Thymocyte Globulin, SAB-142, for the Treatment of Type 1 Diabetes	11:54 - 12:02
	Christoph Bausch (Sioux Falls, United States)	
O-45	Wolfram syndrome and diabetes mellitus in Aotearoa-New Zealand (NZ): phenotype and response to GLP-1 receptor agonist therapy	12:02 - 12:10
	Esko Wiltshire (Wellington, New Zealand)	
O-46	A Pivotal, International, Randomised, Double-blind, Efficacy and Safety Trial of Sodium Valproate in Paediatric and Adult Patients with Wolfram Syndrome	12:10 - 12:18
O-47	Beyond insulin: evaluating sitagliptin for early diabetic nephropathy in type 1 diabetes on advanced closed-loop therapy	12:18 - 12:26
O-48	Insulin Response to Oral and Intravenous Glucose is Robust but Blunted in Sulfonylurea-treated KATP-related Monogenic Diabetes and Depends on GLP-1 Action	12:26 - 12:34
O-49	Comparison of glycemic outcomes following a non-administered premeal bolus between three AID systems	12:34 - 12:42
	Alzbeta Santova (Prague, Czech Republic)	
<i>Side Events</i>		
11:30 - 13:00		Workshop room

Poster Corner 4: Childhood Obesity and Type 2 Diabetes

- | | | |
|-------|---|---------------|
| P-211 | Benchmarking non-insulin medication use and HbA1c outcomes across pediatric type 2 diabetes centers
Elizabeth A. Mann (Madison, United States) | 15:15 - 15:15 |
| P-212 | Higher static phase insulin secretory rate compensates for lower insulin sensitivity in South Asian youth: the Charisma study
Talia Hitt (Baltimore, United States) | 15:15 - 15:15 |
| P-213 | Utility of Triglyceride-Glucose Index as a Marker of Insulin Resistance and the associated Cardio-metabolic Comorbidities among Indian Adolescents
Meghana Narasimhegowda (Bengaluru, India) | 15:15 - 15:15 |
| P-214 | Higher odds of microvascular complications in T2D vs T1D, even after adjusting for HbA1c and BMI: evidence from the National Paediatric Diabetes Audit (NPDA) for England and Wales
Saira Pons Perez (London, United Kingdom) | 15:15 - 15:15 |
| P-215 | A medically supportive food delivery intervention for children with prediabetes or type 2 diabetes and food insecurity: six month follow-up results
William Hayes, Jr (Washington, DC, United States) | 15:15 - 15:15 |
| P-216 | The SPISE Index for Predicting Non-Alcoholic Fatty Liver Disease in Adolescents: A Simple and Reliable Approach
Mert Uçar (Istanbul, Turkey) | 15:15 - 15:15 |
| P-217 | Physical activity in youth with prediabetes or type 2 diabetes: leveraging extrinsic motivation without diminishing intrinsic motivation
Mary Ellen Vajravelu (Pittsburgh, United States) | 15:15 - 15:15 |
| P-218 | Qualitative insights from youth with type 2 diabetes, parents, and pediatric diabetes providers to inform depression intervention adaptation | 15:15 - 15:15 |
| P-219 | Semaglutide -GLP 1 receptor agonist as an adjunct therapy to biopsychosocial care model for effective management of severe obesity and its complications in children and young persons (CYP) -is it safe and effective therapy? | 15:15 - 15:15 |
| P-220 | Baseline statin use in youth with type 2 diabetes: T1D exchange QI collaborative pediatric T2D registry data
Puja Singh (La Jolla, United States) | 15:15 - 15:15 |

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 5: Diabetes in Developing Countries and Migrant Populations

- | | | |
|-------|--|---------------|
| P-221 | Characteristics and outcomes of patients aged 0-25 years admitted in DKA at Kajiado County Referral Hospital, Kenya | 15:15 - 15:15 |
|-------|--|---------------|

P-222	Access restricted, rationing prevalent: conclusions from T1International's Out Of Pocket Expense Survey of people living with type 1 diabetes globally 2024 Campbell Mitchell (St Louis Park, United States)	15:15 - 15:15
P-223	Barriers to access to services for non-communicable diseases among children, adolescents, and young people with type 1 diabetes in Mozambique: a qualitative analysis using the COM-B framework Laura Nollino (Treviso, Italy)	15:15 - 15:15
P-224	Real-Time Insulin Dose Adjustment as an Alternative to Automated Insulin Delivery in Low- and Middle-Income Countries: A Case-Based Approach Riwa Kahale (Amman, Jordan)	15:15 - 15:15
P-225	Cost-effectiveness of insulin glargine compared with human insulin for youth with type 1 diabetes in Tanzania and Bangladesh Margaret Lippitt Prust (Boston, United States)	15:15 - 15:15
P-226	Impact of Ramadan Fasting in Obese and overweight Adolescents and young adults on BMI and Metabolic Criteria: Key Findings with Percent Improvements (2000-2024)	15:15 - 15:15
P-227	Develop an integrated model for decentralized management of Type 1 Diabetes (T1D) care at primary health care levels in Rwanda	15:15 - 15:15
P-228	Comparison of Glycemic Variability Between Young Individuals with Type 1 and Type 2 Diabetes Ajmina Hasan Flabe (Dhaka, Bangladesh)	15:15 - 15:15
P-229	Global research inequity in type 1 diabetes: a scoping bibliometric analysis by country income	15:15 - 15:15
P-230	Multi-ethnic Analysis of Biomarker-Defined Type 1 Diabetes in the Young (MADDY) Study in sub-Saharan Africa	15:15 - 15:15
<i>Poster Session</i> 15:15 - 16:15		Posters Sessions
Poster Corner 6: Monogenic and other forms of Diabetes		
P-231	Diminished myelopoiesis and trained immunity of monocyte-macrophage system in maturity-onset diabetes of the young type 2 (MODY2) compared to type 2 diabetes (T2D)	15:15 - 15:15
P-232	Dapagliflozin use in an infant with Donohue syndrome: first report of off-label therapy in early life	15:15 - 15:15
P-233	An agnostic search for monogenic etiology among children, teens, and young adults diagnosed with type 1 diabetes Natalija Popovic (Montréal, Canada)	15:15 - 15:15
P-234	Diabetes associated with childhood lipodystrophies: clinical characteristics and management Uğur Cem YILMAZ (Izmir, Turkey)	15:15 - 15:15
P-235	Childhood course of a patient with a heterozygous insulin-receptor variant	15:15 - 15:15
P-236	Monogenic autoimmunity and type 1 diabetes; a novel mutation in TNFAIP3 in a patient with haploinsufficiency A20	15:15 - 15:15
P-237	Dapagliflozin impact on glycemic control and cardiovascular risk in children with INSR gene mutation	15:15 - 15:15

P-238	Digenic diabetes in a young girl: accelerated beta cell failure in MODY 3 (HNF1A) due to coincidental heterozygous EIF2AK3 mutation Sapna Manjunath (Bangalore, India)	15:15 - 15:15
P-239	Successful treatment of <i>HNF1A</i>-associated diabetes in a boy using sitagliptin monotherapy	15:15 - 15:15
P-240	Investigation of Cut-off Values for Blood Glucose, Serum Insulin, and C-peptide at Diagnosis to Differentiate Between Transient Neonatal Hyperglycemia and Neonatal Diabetes Mellitus Shigeru Suzuki (Asahikawa, Japan)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 1: Diabetes at School; Economics and Value Addition/Access to Care

P-181	Impact of global inequities in diabetes technology and insulin access on glycemic outcomes: data from 81 SWEET centers Zdenek Sumnik (Prague, Czech Republic)	15:15 - 15:15
P-182	Coordinating care between type 1 diabetes (T1D) centers and schools: current practices and opportunities from the T1D Exchange Quality Improvement Collaborative (T1DX-QI) Christine March (Pittsburgh, United States)	15:15 - 15:15
P-183	Social Determinants of Health (SDOH) and Demographic Disparities in Diabetic Ketoacidosis (DKA) Presentation at Type 1 Diabetes (T1D) Diagnosis Sarah Lydia Holly (Washington, United States)	15:15 - 15:15
P-184	A population-level study of developmental outcomes in children with and without type 1 diabetes in British Columbia, Canada Dorsa Arman (Kelowna, Canada)	15:15 - 15:15
P-185	Willingness to pay for a virtual, family-based behavioral intervention targeting health-related quality of life Colleen Macke (Houston, United States)	15:15 - 15:15
P-186	Development of digital school healthcare plans to provide safe, standardised care at school for all children and young people with diabetes in England, UK. A collaborative and innovative approach to diabetes care in schools	15:15 - 15:15
P-187	Gross Domestic Product (GDP) is associated with diabetes care and outcome in T1D <10 years of age: Results from the SWEET initiative	15:15 - 15:15
P-188	Implementing and evaluating an intervention to recognize signs of diabetes in children at school Rayzel Shulman (Toronto, Canada)	15:15 - 15:15
P-189	Carrying Hope Across the Desert: How Changing Diabetes in Children (CDiC) program changed the lives of Isiolo's nomadic children with type 1 diabetes	15:15 - 15:15
P-190	School partnered collaborative care for type 1 diabetes (SPACE for T1D): a pilot feasibility trial Christine March (Pittsburgh, United States)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 2: New insulins; Adjunctive Therapies; Other Pharmacologic Agents; Novel Advances and Interventions

P-191	Safety Profile of SAB-142: A Fully Human Anti-Thymocyte Globulin Stan Stoyanov (Sioux Falls, United States)	15:15 - 15:15
P-192	Modeling to assess impact of liquid, stable glucagon for mini-dosing in pediatrics: a simulated Pharmacokinetic (PK) and Pharmacodynamic (PD) study Laura M. Nally (New Haven, United States)	15:15 - 15:15
P-193	The Antigen-specific immunotherapy rhGAD65 delays progression of stage 3 T1D in individual with HLA DR3-DQ2 - survival analysis of combined data from three randomized controlled trials	15:15 - 15:15
P-194	Effect of contextual interventions to support the maintenance of glycaemic balance and self-efficacy of adolescents living with type 1 diabetes at CDIC centers in Yaoundé, Cameroon: a pilot study Armelle Nkamga (Yaoundé, Cameroon)	15:15 - 15:15
P-195	Ketone monitoring alongside sodium glucose co-transporter 2 inhibitor use in youth with type 1 diabetes: insights from the ATTEMPT trial Aliya Allahwala (Toronto, Canada)	15:15 - 15:15
P-196	Probiotic supplementation enhances gut microbial profile and glycemic regulation among children with new-onset Type 1 diabetes	15:15 - 15:15
P-197	Effect of zinc supplementation on glycemic control in children with type 1 diabetes mellitus (T1DM): a randomized, double-blind controlled trial	15:15 - 15:15
P-198	Two cases of severe obesity and diabetes mellitus in adolescents at onset: clinical presentation and the role of liraglutide in glycemic control Sabrina Criscuolo (Rome, Italy)	15:15 - 15:15
P-199	Effects of Transition from Basal Insulin Glargine 100 U/mL to 300 U/mL on Glycemic Control in Children and Adolescents with Type 1 Diabetes - Real-World Data	15:15 - 15:15
P-200	Optimization of click chemistry based novel pyridine derivatives targeting type 1 diabetes mellitus: β-cell regeneration via DYRK1A inhibition	15:15 - 15:15
P-17	Off-label hybrid closed-loop insulin pump therapy with diluted insulin in very young children with type 1 diabetes: a case series Constance De Schaetzen (Ottawa, Canada)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 7: Psychological and Psychosocial aspects of Diabetes

P-241	Perspectives of parents/caregivers prior to a pilot intervention trial to improve transition to adult care for adolescents with type 1 diabetes: a qualitative study Krista Lucier (Windsor, Canada)	15:15 - 15:15
P-242	Impact of type 1 diabetes mellitus on education, psychosocial well-being, and quality of life across socioeconomic strata in children and adolescents: a cross-sectional study from a tertiary care center in South India	15:15 - 15:15

P-243	The Association Between Stressful Life Events, Social Determinants of Health, and Healthcare Utilization in Pediatric Type 1 Diabetes Sara E. Wetter (Cincinnati, United States)	15:15 - 15:15
P-244	Mental Health Service Use and Perceived Helpfulness Among Young Adults with Type 1 Diabetes Following Transition to Adult Care Keely Bebbington (Perth, Australia)	15:15 - 15:15
P-245	The Association of Glycemic Control with Behavioral Problems in Children and Adolescents with Type 1 Diabetes: Insights from the Strengths and Difficulties Questionnaire	15:15 - 15:15
P-246	Psychological impacts of closed-loop systems in adolescents with type 1 diabetes: insights from the DBL4 TEENS PSY study Jacques Beltrand (Paris, France)	15:15 - 15:15
P-247	The mediating role of illness perception in the relationship between depression and treatment adherence in adolescents with type 1 diabetes	15:15 - 15:15
P-248	Screening for sleep disruptions: demographic and environmental factors associated with sleep concerns in adolescents with type 1 diabetes (T1D) Erin Cobry (Aurora, United States)	15:15 - 15:15
P-249	Enhancing Child Participation in Diabetes Care: Qualitative Findings from a Play-Based Communication Intervention Patricia DeCosta (Herlev, Denmark)	15:15 - 15:15
P-250	Associations of diabetes stigma and diabetes distress with Body Mass Index among older adolescents with type 1 diabetes Claire Grall-Johnson (Montreal, Canada)	15:15 - 15:15

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 8: Lifestyle, Nutrition and Exercise; Genetics, Immunology and the Environment; Psychological and Psychosocial aspects of Diabetes

P-251	Next-generation sequencing (NGS) based distribution of human leukocyte antigen in Type 1 diabetes patients and their non-diabetic siblings in South India	15:15 - 15:15
P-252	“Activity with a side of insulin”: Exploring Physical Activity Behaviours of Children with Type 1 Diabetes Simran Gill (Vancouver, Canada)	15:15 - 15:15
P-253	Exploring eating related drivers of hemoglobin A1c (HbA1c) among adolescents with type 1 diabetes (T1D): the Type 1 Diabetes Exercise Initiative Pediatric (T1DEXIP) study Erin M. Tallon (Kansas City, United States)	15:15 - 15:15
P-254	Assessment of the completeness of mobile food log data among free-living adolescents with type 1 diabetes (T1D): the Type 1 Diabetes Exercise Initiative Pediatric (T1DEXIP) study	15:15 - 15:15
P-255	Genetic and environmental predictors of type 1 diabetes in Russian populations: insights from multi-regional genomic and immunological analysis	15:15 - 15:15
P-256	Enrolling Young Adults into a Transition to Adult Care Intervention Trial: Challenges and Lessons Learned Jessica S. Pierce (Orlando, United States)	15:15 - 15:15
P-257	Inequalities in children and young people with poor glycaemic	15:15 - 15:15

	control (HbA1c >75 mmol/mol (9.0%)) - findings from the National Paediatric Diabetes Audit (NPDA) for England and Wales Amani Krayem (London, United Kingdom)	
P-258	The psychological burden in children with MODY-GCK before and after genetic confirmation of the diagnosis	15:15 - 15:15
P-259	Healthcare providers perspectives on mental health screening in a pediatric diabetes clinic using digital technology Sukhpreet Tamana (Vancouver, Canada)	15:15 - 15:15
P-260	Type 1 diabetes, obesity, and mental health in youth Mary Katherine Ray (St. Louis, United States)	15:15 - 15:15
<i>Poster Session</i> 15:15 - 16:15		
Poster Corner 9: Screening/disease modification		Posters Sessions
P-261	A CGM model accurately identifies individuals at high risk of progression to stage 3 type 1 diabetes Andrea Steck (Aurora, United States)	15:15 - 15:15
P-262	Parental anxiety after information of genetic risk of type 1 diabetes and development of islet autoimmunity in prospective follow-up - the POInT study Jessica Melin (Malmo, Sweden)	15:15 - 15:15
P-263	Polish Population of First-Degree Relatives of People Living with Type 1 Diabetes (T1D) based on the INNODIA Screening for Early Stage T1D Program (2015-2023; EU115797)	15:15 - 15:15
P-264	Development of a core outcome set for evaluating type 1 diabetes risk screening Celine Chen (Toronto, Canada)	15:15 - 15:15
P-265	Caregivers' opinions on type 1 diabetes (T1D) autoantibody screening and delay with teplizumab Rachel Longendyke (Washington, United States)	15:15 - 15:15
P-266	Associations between islet autoantibodies and A1c after diagnosis of type 1 diabetes Tari Kurman (Aurora, United States)	15:15 - 15:15
P-267	Type 1 diabetes screening in at-risk youth: preliminary results and psychological implications from an Italian cohort	15:15 - 15:15
P-268	Evaluation of an early-stage type 1 diabetes Extension for Community Healthcare Outcomes (ECHO) program for primary care providers Raj Paul Wadwa (Aurora, United States)	15:15 - 15:15
P-269	Planning for a Type 1 diabetes screening program in Canada: Insights from citizens and system leaders	15:15 - 15:15
P-270	Early detection of type 1 diabetes among at-risk relatives - Recognizing the psychosocial impact	15:15 - 15:15

Poster Session
15:15 - 16:15

Posters Sessions

Poster Session Friday

Poster Session

15:15 - 16:15

Posters Sessions

Poster Corner 3: Diabetes Education; Acute Complications

P-201	Age- and sex-specific mortality in people with type 1 diabetes in the Cameroon Changing Diabetes in Children (CDiC) clinics	15:15 - 15:15
P-202	Ketoacidosis at childhood type 1 diabetes onset negatively affects residual beta-cell functions during the first year after diagnosis Elżbieta Niechcial (Poznan, Poland)	15:15 - 15:15
P-203	A Quality Improvement (QI) innovation to improve the early diagnosis of type 1 diabetes (T1D) in Children and Young People (CYP) in Wales: has it made an impact? Kezia Stanford (Cardiff, United Kingdom)	15:15 - 15:15
P-204	Short and long-term effects of DKA at diabetes onset on disease progression and health care utilization trajectories in children and adolescents diagnosed with type 1 diabetes. Analysis of real-world data of the diabetes patient registry in Germany Katharina Schoder (Munich, Germany)	15:15 - 15:15
P-205	The Impact of the Kids in Control of Food (KICK OFF) Structured Educational Program on the Quality of Life in Children with Type 1 Diabetes Durra Alsumaiti (Kuwait, Kuwait)	15:15 - 15:15
P-206	Analysis of learner responses to free, globally accessible CME-certified e-learning content in Paediatric Diabetes May Ng (United Kingdom)	15:15 - 15:15
P-207	Parental diabetes knowledge and glycemic control in children and adolescents with type 1 diabetes Riina Pironetti (Tampere, Finland)	15:15 - 15:15
P-208	Comics and serious gaming for pediatric type 1 diabetes - the creation of the Onboarding Platform for the Education of New patients with Diabetes (OPEN-D) Flavia Voiculescu (Montreal, Canada)	15:15 - 15:15
P-209	Implementation in pediatric clinical practice of the Support-t type 1 diabetes training platform: barriers, facilitators and intended use	15:15 - 15:15
P-210	Novel biomarkers in pediatric diabetic ketoacidosis: the role of albumin-based parameters Murat Çağlar Karataş (Izmir, Turkey)	15:15 - 15:15

Symposium

16:30 - 18:00

Session Hall 1

Lessons on Monogenic Diabetes

News on genetics of monogenic diabetes Kashyap Patel (United Kingdom)	16:30 - 16:55
Pancreatic Islet Function Assessment: A Key Tool in Differentiating subtypes of Diabetes Yong Gu (China)	16:55 - 17:20
Rare Monogenic Diabetes: Understanding Wolfram Syndrome Timothy Barrett (United Kingdom)	17:20 - 17:45
Q&A	17:45 - 18:00

Workshop

16:30 - 18:00

Session Hall 2

Practical skills to manage stress and burnout for healthcare professionals**Speaker**

16:30 - 18:00

Daniela Rojas (Costa Rica)

Tricia Tang (Canada)

Oral Session

16:30 - 18:00

Session Hall 3

Oral Session VI: Diabetes Complications and associated diseases

- | | | |
|------|---|---------------|
| O-51 | Ocular complications in pediatric type 1 diabetes: spectrum of early metabolic cataract, retinopathy and glaucoma
Fikir Messeret Adinew (Addis Ababa, Ethiopia) | 16:30 - 16:38 |
| O-52 | Sepsis-associated AKI in pediatric type I diabetes according to bacterial, viral, and culture-negative endotypes
Megan Gremillion (Shreveport, United States) | 16:38 - 16:46 |
| O-53 | Successful nationwide expansion of the local Stuttgart Ketoacidosis Prevention Campaign in Germany - which parameters are important for awareness campaigns? | 16:46 - 16:54 |
| O-54 | Relationship of liver fat with atherogenic lipid profile in youth of South Asian, White, and African American Ancestry: The CHARISMA Study
Sheela Magge (Baltimore, United States) | 16:54 - 17:02 |
| O-55 | A high-risk pathway for youth at risk for diabetic ketoacidosis
Elizabeth McGettrick (Peoria, United States) | 17:02 - 17:10 |
| O-56 | Initial Observations on the Frequency of Diabetic Ketoacidosis Following Pilot Implementation of Screening for Type 1 Diabetes in the General Italian Population | 17:10 - 17:18 |
| O-57 | Longitudinal Evaluation of Glomerular Filtration Rate Across Adolescence and Early Adulthood in Youth with Type 1 Diabetes: Associations with Clinical and Social Risk Factors
Antoine Clarke (Toronto, Canada) | 17:18 - 17:26 |
| O-58 | Development and validation of an illustrated booklet on hyperglycemia and prevention of ketoacidosis to educate Brazilian children with type 1 diabetes and their parents | 17:26 - 17:34 |
| O-59 | Using Group-Based Trajectory Modeling to Uncover Longitudinal DKA Risk Patterns in Pediatric T1D
Sarah Lyons (Houston, United States) | 17:34 - 17:42 |
| O-60 | INCREASED FREQUENCY OF HYPOGLYCEMIC EVENTS MAY CONTRIBUTE TO ELEVATED FRACTURE INCIDENCE IN YOUNG INDIVIDUALS WITH TYPE 1 DIABETES
Ellen Åkesson (Gothenburg, Sweden) | 17:42 - 17:50 |

Debate

16:30 - 18:00

Workshop room

Bariatric surgery versus pharmacotherapy: Let the winner stand up please**Embracing Bariatric Surgery to Solve Pediatric Obesity**

16:30 - 17:00

Aayed Alqahtani (Saudi Arabia)

Unlocking Potential: Advocating Pharmacotherapy for Pediatric Obesity Treatment

17:00 - 17:30

Katherine Morrison (Canada)

Q&A

17:30 - 18:00

ISPAD

18:15 - 19:30

Session Hall 3

ISPAD Annual Meeting

Saturday, November 8, 2025

Plenary

08:30 - 10:00

Session Hall 1

Care in the Context of Culture: The many faces of T2D

Melanie Henderson (Montreal, Canada)

Silva Arslanian (Pittsburgh, United States)

The picture of pediatric T2D in North America

08:30 - 08:55

Tamara Hannon (United States)

The epidemiology of T2D in Asian countries

08:55 - 09:20

Juliana Chung Ngor Chan (Shatin, Hong Kong)

Unraveling the epidemic of Type 2 Diabetes in Southeast Asia

09:20 - 09:45

Chittaranjan Yajnik (Pune, India)

Q&A

09:45 - 10:00

Symposium

10:15 - 11:45

Session Hall 1

What if there was more than insulin? Perspectives on what's out there and what's needed

Improving care with SGLT-2 inhibitors

10:15 - 10:40

Farid Mahmud (Toronto, Canada)

Benefits of GLP-1 RA to T1D care

10:40 - 11:05

Melissa-Rosina Pasqua (Canada)

Adjunct therapies: beyond glucose therapies

11:05 - 11:30

Ana Alvarez Pagola (Spain)

Q&A

11:30 - 11:45

Workshop

10:15 - 11:45

Session Hall 2

Neonatal Diabetes

Clinical management updates

10:15 - 10:55

Siri Atma W. Greely (United States)

Diagnostic approaches with and without genetic panel

10:55 - 11:35

Jacques Beltrand (Paris, France)

Q&A

11:35 - 11:45

Workshop

10:15 - 11:45

Session Hall 3

Are we ready to introduce DIY to a broader audience?

Looping with DIY for beginners: PWLE perspective

10:15 - 10:55

Marie-Laurence Brunet (Canada)

Looping with DIY for beginners: HCP perspective

10:55 - 11:35

Lenka Petruzelkova (Prague, Czech Republic)

Q&A

11:35 - 11:45

Symposium

10:15 - 11:45

Workshop room

Innovations in Data Collection and Research**International networks as drivers of innovation in Diabetes Care**

10:15 - 10:40

Ophelia Nabeta (Uganda)

From the Ground Up: Community-Driven Research in Diabetes Care

10:40 - 11:05

May Ng (United Kingdom)

Letting go: How to let people with lived experience drive the research agenda?

11:05 - 11:30

Elena Sainz (Mexico)

Q&A

11:30 - 11:45

Breaks

11:45 - 12:15

Session Hall 1

Coffee Break*Symposium*

12:15 - 13:45

Session Hall 1

Activity not exercise: the power of movement in diabetes management**Harnessing the power of peer support to promote physical activity in youth with diabetes**

12:15 - 12:40

Chris Jarvis (Canada)

The impact of everyday movement: lessons from Africa

12:40 - 13:05

Edna Siima Majaliwa (Moshi, Tanzania)

Counseling health care providers in the use of coaching techniques

13:05 - 13:30

Nicole Culos-Reed (Canada)

Q&A

13:30 - 13:45

Symposium

12:15 - 13:45

Session Hall 2

Joint ISPAD - Breakthrough T1D**BT1D Strategy and emerging therapy pipeline**

12:15 - 12:35

Sanjoy Dutta (New York, United States)

Early detection and treatments (Stage 1-2)

12:35 - 12:55

Tal Oron (Tel Aviv, Israel)

Preserving B cell function (Stage 3)

12:55 - 13:15

Linda Anne DiMeglio (Indianapolis, United States)

Novel curative therapies on the horizon - BCell replacement therapy (Stage 4)

13:15 - 13:35

Lorenzo Piemonti (Italy)

Q&A

13:35 - 13:45

Symposium

12:15 - 13:45

Session Hall 3

Challenges in the very young**AID in preschoolers - how do the different pumps function?**

12:15 - 12:40

Bruce King (Australia)	
Nutrition challenges in toddlers - how to deal with unpredictable eaters?	12:40 - 13:05
Elisabeth Jelleryd (Sweden)	
Realities of daycare in limited resource settings	13:05 - 13:30
Anju Virmani (New Delhi, India)	
Q&A	13:30 - 13:45
<i>Symposium</i>	
12:15 - 13:45	Workshop room
Joint-Symposium ISPAD - SWEET: Update on international T1D initiatives & guidelines	
Tackling the multi-faceted challenges of T1D: The Lancet Commission	12:15 - 12:40
Jessica Zafra Tanaka (Peru)	
Highlights from the WHO Guidelines 2025	12:40 - 13:05
Yaqub Nuhu Omeiza (Nigeria)	
Update on SWEET initiatives	13:05 - 13:30
Olga Kordonouri (Hannover, Germany)	
Q&A	13:30 - 13:45
<i>ISPAD</i>	
13:45 - 14:30	Session Hall 1
Closing Ceremony
