

Thursday, November 20, 2025

Optional workshop

11:00 - 13:00

VDG

WS-01 - SPARC roundtable (by invitation only)

Optional workshop

13:30 - 15:30

VR

WS-02 - Geriatric assessment workshop (pre-registration required)

Overview of how to develop a manuscript with a team

13:30 - 13:30

Supriya Mohile (University of Rochester, United States)

Statistical considerations and presentation of results

13:30 - 13:30

Shabbir Alibhai (Toronto, Canada)

Principles of scientific writing: the JGO experience

13:30 - 13:30

Fiona Stauffer (United States)

Best practices for disseminating scientific research

13:30 - 13:30

William Dale (United States)

Optional workshop

16:00 - 18:00

VDG

WS-03 - How to develop and publish a high quality geriatric oncology manuscript: the Journal of Geriatric Oncology experience (pre-registration required)

Supriya Mohile (University of Rochester, United States)

Shabbir Alibhai (Toronto, Canada)

Overview of how to develop a manuscript with a team

16:00 - 16:00

Supriya Mohile (University of Rochester, United States)

Statistical considerations and presentation of results

16:00 - 16:00

Shabbir Alibhai (Toronto, Canada)

Principles of scientific writing: the JGO experience

16:00 - 16:00

Fiona Stauffer (United States)

Best practices for disseminating scientific research

16:00 - 16:00

William Dale (United States)

Plenary session

19:30 - 20:00

JHVE

PL-01 - Celebration session 25th anniversary of SIOG

Hans Wildiers (Leuven, Belgium)

Introduction

19:30 - 19:35

Hans Wildiers (Leuven, Belgium)

Celebration session 25th anniversary of SIOG

19:35 - 19:35

Grant R. Williams (Birmingham, United States)

Martine Extermann (Tampa, United States)

Stuart Lichtman (United States)

Social event

20:00 - 22:00

PA

Celebration reception

Friday, November 21, 2025

Plenary session

08:00 - 10:00

JHVE

PL-02 - Geriatric oncology: from research to clinical practice

Lore Decoster (Brussels, Belgium)

Cindy Kenis (Belgium)

Hans Wildiers (Leuven, Belgium)

Introduction

08:00 - 08:05

Lore Decoster (Brussels, Belgium)

Cindy Kenis (Belgium)

Hans Wildiers (Leuven, Belgium)

Older adults with cancer clinic at Princess Margaret Cancer Centre: A multidisciplinary comprehensive care model of geriatric oncology

08:05 - 08:20

Susie Monginot (Toronto, Canada)

Integrated oncological decision-making model: Creating a practice of patient-centred decision-making

08:20 - 08:35

Hanneke van der Wal-Huisman (Groningen, Netherlands)

Comprehensive geriatric cancer care model in a tertiary geriatric cancer care hospital in South India

08:35 - 08:50

Rejiv Rajendranath (Chennai, India)

The Royal Marsden Senior Adult Oncology Programme

08:50 - 09:05

Nicolò Matteo Luca Battisti (Sutton, United Kingdom)

Scaling geriatric oncology through embedded practical geriatric assessment and multidisciplinary pathways

09:05 - 09:20

Ramy Sedhom (Philadelphia, United States)

Summary

09:20 - 09:35

Panel discussion

09:35 - 10:00

Poster session

10:15 - 10:45

PA

PS-01 - Poster sessions**Impact of Geriatric Impairments on Outcomes of Single-Agent Immunotherapy in Solid Tumors**

10:15 - 10:15

Asli Özkan (Leiden, Netherlands)

Efficacy of Integrated Palliative and Oncology Care among Patients with Advanced Cancer Receiving Anti-tumor Treatment: a systematic review and meta-analysis

10:15 - 10:15

The Impact of Scheduling Complexities and Limited Human Resources in Geriatric Oncology Research

10:15 - 10:15

Improved survival through comprehensive geriatric assessment in older adults with myelodysplastic neoplasms and acute myeloid leukemia: a Latin American perspective

10:15 - 10:15

Claudia Graciela Morales-Olvera (Mexico City, Mexico)

Comprehensive Geriatric Assessment (CGA) and Hematological Markers (HM) on 180-Day Survival in Older Adults with Colorectal Cancer (CRC): A Retrospective Cohort Study (RCS)

10:15 - 10:15

Teaching Geriatric Oncology to Medical Students: A Pilot Educational Intervention in Portugal

10:15 - 10:15

Filipe Coutinho (Santo Tirso, Portugal)

Ovarian cancer in the elderly: A tertiary cancer experience 10:15 - 10:15

Mikel Toquero (Barakaldo, Spain)

Comprehensive Geriatric Assessment (CGA) and Hematological Markers (HM) in Predicting 180-Day Mortality of Older Adults with Colorectal Cancer (CRC): A Machine Learning (ML) Approach 10:15 - 10:15

Breast cancer systemic anticancer treatment delivery in older patients and a stakeholder survey for implementing an oncogeriatric service - what are the easy wins? 10:15 - 10:15

Ijeoma Onwuchekwa (London, United Kingdom)

Predicting the Risk of Death with New Indexes in Community-dwelling Elderly (PREDIC): development of new 5- and 10-year mortality prediction models 10:15 - 10:15

Miruna Anohim (Montréal, Canada)

Radiation-induced lung and skin toxicity in young and aged mice 10:15 - 10:15

Kyungmi Yang (Seoul, Korea, Republic of)

14 inferred information for clinicians from the documentation of ADL and IADL in geriatric oncology 10:15 - 10:15

Valéry Antoine (Nîmes, France)

Geriatric assessment in patients aged 70 and over considered for CAR-T therapy: a descriptive study 10:15 - 10:15

Rachel Boisvert (Quebec, Canada)

Prognostic impact of geriatric assessment in acute myeloid leukemia patients treated with azacitidine-venetoclax 10:15 - 10:15

Andrea Ciccone (Nice, France)

Geriatric Oncology in Switzerland: Insights from a Nationwide Survey 10:15 - 10:15

Vérène Dougoud-Chauvin (Fribourg, Switzerland)

Overlap between frailty, malnutrition and probable sarcopenia among older patients with newly diagnosed multiple myeloma 10:15 - 10:15

Paula Sobrini-Morillo (Madrid, Spain)

Evaluation of digital inclusion as part of CGA for older people with cancer seen in a Geriatric Oncology Clinic - a quality improvement project 10:15 - 10:15

Sarah Compton (London, United Kingdom)

Depletion of SASP senescent cardiomyocytes with senolytic drugs conferred therapeutic effects in doxorubicin-related cardiotoxicity 10:15 - 10:15

Meng Hou (Shanghai, China)

E-warm model-based palliative care promotes QoL in driver-gene-negative advanced NSCLC: a LGCM approach 10:15 - 10:15

junhui zhang (Chongqing, China)

Geriatric Cancer in India 10:15 - 10:15

Shubha Maudgal (Mumbai, India)

Preferences Among Spanish Elderly Cancer Patients: A Prospective Study 10:15 - 10:15

A prospective Study of efficacy and safety of Ribociclib and Letrozole in first line in ≥ 70 years women with HR-positive advanced breast cancer: RibOB study 10:15 - 10:15

Maxime Van Houdt (Leuven, Belgium)

Ambulatory Falls in the Outpatient Population with Cancer: A Descriptive Project and Gap Analysis of Current Practice Cassandra Vonnies (Tampa, United States)	10:15 - 10:15
Feasibility of online remote symptom monitoring for older patients receiving systemic cancer therapy (TS-PAC) Mathilde Cabart (Bordeaux, France)	10:15 - 10:15
From MetaGENUA® to the "Modified MetaGENUA®": Improved Prognostic Stratification of One-Year Mortality in Elderly Cancer Patients	10:15 - 10:15
Development and Validation of a Modular Patient-Reported Outcome Measure for Postoperative Recovery Assessment in Lung Cancer (PRA_Lung)	10:15 - 10:15
CORRELATION BETWEEN 6 MINUTE WALK TEST (6MWT) AND 2 MINUTE WALK TEST (2MWT) IN ELDERS (≥ 60 YEARS) DIAGNOSED WITH MALIGNANCIES: CROSS-SECTIONAL PROSPECTIVE STUDY	10:15 - 10:15
Towards Precision Care: Integrating G8 and VES-13 Screening in Older Cancer Patients undergoing Radiation Therapy mukul Roy (Mumbai, India)	10:15 - 10:15
Falls Among the Older Patients Treated for Cancer in Normandy's Outclinics: Screening and Prevention (CHUPACHOUP study)	10:15 - 10:15
Decision-Making in Cancer Treatment: Key Factors for Older Adults	10:15 - 10:15
How to analyze longitudinal patient-reported outcomes in populations with high mortality rates - A clinical example in older patients with cancer	10:15 - 10:15
Impact of skeletal muscle mass and density on postoperative outcomes among older patients following colorectal cancer resection Efthymios Papadopoulos (Baton Rouge, United States)	10:15 - 10:15
A wide variability in the identification and management of geriatric syndromes in a French and a British oncology settings, with inconsistent corrective interventions for frailty	10:15 - 10:15
An overview of the Geriatric and Palliative Care Clinic (CARE-Pall): A transformative model of integrative geriatric and palliative care Erin Stevens (Columbus, United States)	10:15 - 10:15
Bridging Research and Clinical Practice with the Center for Implementation Research in Cancer in Later Life (CIRCL) Kelly McConnell (New York, United States)	10:15 - 10:15
Impact of age and comorbidities on treatment outcomes in Non-Hodgkin Lymphoma: a monocentric real-life retrospective study Vérène Dougoud-Chauvin (Fribourg, Switzerland)	10:15 - 10:15
Redefining the use of a first-line FOLFIRINOX-like regimen in older adults with metastatic pancreatic cancer: updated analysis	10:15 - 10:15
Social Frailty Amongst Older Adults Living with Co-Morbid Cancer and Dementia, who are Receiving Radiotherapy. A Longitudinal Narrative Case Study Jennifer Woods (Salford, United Kingdom)	10:15 - 10:15
Older Adult Recipient of Allogeneic Haematopoietic Stem Cell Transplant - Prognostication of Geriatric Characteristics Lawrence Cheng Kiat Ng (Singapore, Singapore)	10:15 - 10:15

Evaluation of potentially inappropriate medications in older people with cancer hospitalized at the Latin American Cancer Center Rocio Quilodr��n (Santiago, Chile)	10:15 - 10:15
Research on Understanding and Dissemination of Geriatric Assessment Ayako Doi (Sapporo, Japan)	10:15 - 10:15
The Impact of Ethnic Disparity on Treatment of Primary Breast Cancer in Older Women	10:15 - 10:15
Health-Related Quality of Life (HRQoL) in Older Patients with HER2-Positive Early Breast Cancer Treated with Chemotherapy and Anti-HER2 Therapy: an APHINITY Trial Sub-Group Analysis Ana Raquel Monteiro (Vila Nova de Gaia, Portugal)	10:15 - 10:15
The Impact of Geriatric Assessment on Therapeutic Planning in Hemato-Oncology at the Geriatric Clinic of Quebec	10:15 - 10:15
Interview survey to identify key factors for effective collaboration between medical and long-term care services in home care of older adults with cancer in Japan Ayumu Matsuoka (Tokyo, Japan)	10:15 - 10:15
Tai Chi Game of Psychological Resilience in Pancreatic Cancer Patients: Based on Grounded Theory	10:15 - 10:15
Active surveillance in basal cell carcinoma: experiences of patients and proxies Josje Mangnus (Nijmegen, Netherlands)	10:15 - 10:15
Implementing Geriatric Assessments using the Practical Geriatric Assessment in Older Adults being evaluated for Cellular Therapies at a Safety-Net Hospital Maya Abdallah (Boston, United States)	10:15 - 10:15
Geographic Disparities in Prostate Cancer MRI Utilization: The Role of MRI Provider Availability in Mitigating Rural and Regional Gaps Amy L. Shaver (Philadelphia, United States)	10:15 - 10:15
Survivorship Care Delivery for Older Patients with Cancer: An Evaluation of Community Oncology Clinics Enrolled in a Nationwide Trial in the United States Supriya Mohile (University of Rochester, United States)	10:15 - 10:15
Optimizing Cancer Care for Older Adults: The Impact of Embedded Occupational Therapy in the Cancer Older People's Service (COPS)	10:15 - 10:15
Understanding treatment decisions and cancer care for older Australians: a qualitative study Sharon He (Sydney, Australia)	10:15 - 10:15
<i>Early advance care planning; experiences of patients with the 'My CARE, now and later' conversation card at a geriatric outpatient clinic; a qualitative study</i> Jolanda Peijster (Utrecht, Netherlands)	10:15 - 10:15
Healthcare Professionals' Experiences Using the Outcome Prioritization Tool (OPT) to elicit patient preferences: A Qualitative Study	10:15 - 10:15
Discussing patient goals and preferences during decision-making with patients with head and neck cancer	10:15 - 10:15
Liquid Biopsy For Elderly Patients With Unresectable EGFR Mutant	10:15 - 10:15

NSCLC With Different Patterns Of Frailty

Implicit Steering During Shared Decision-Making with Head and Neck Cancer Patients 10:15 - 10:15

Efficacy of a hybrid exercise program on falls and fear of falling in older adults with cancer: Results from a randomized controlled trial 10:15 - 10:15

Association of Balducci Geriatric Fitness Categorization with Overall Survival in Older Adults with Cancer: A Retrospective Cohort Study 10:15 - 10:15

Ee Jin Poh (Singapore, Singapore)

HER2-low breast cancers in older women (≥70 years): biology and clinical outcome compared to younger patients (<70 years) 10:15 - 10:15

Ines Tretter Alvarez de Arca (United Kingdom)

The role of locoregional anaesthesia in older women having surgery for breast cancer 10:15 - 10:15

Geriatric oncology in medical education: Optimising undergraduate curriculum design and implementation in the United Kingdom 10:15 - 10:15

Je Ern Chooi (Nottingham, United Kingdom)

Implementation of the Practical Geriatric Assessment for Older Adults with Newly Diagnosed Glioblastoma 10:15 - 10:15

Kathryn Eszes (Rochester, United States)

Real-world tolerability and efficacy of CAPOX in older adults with gastrointestinal cancer 10:15 - 10:15

Exploring dynamic changes in geriatric assessments of older adults upon allogeneic hematopoietic stem cell transplantation: a pilot single-center prospective cohort study 10:15 - 10:15

Value elucidation in geriatric oncology care: a participatory development study on a dialogical instrument for clinical practice 10:15 - 10:15

Inpatient goals of care discussions amongst older adults with cancer 10:15 - 10:15

Sin Yee Yang (Singapore, Singapore)

MoCA vs. MMSE: which tool should be used to screen for cognitive impairment in geriatric oncology ? 10:15 - 10:15

Ilona Vieira Jales (Caen, France)

Quality of life and physical functioning of older patients treated with palliative chemotherapy for metastatic colorectal cancer: a population-based study 10:15 - 10:15

Trishika Binda (Leiden, Netherlands)

Onco-geriatric population included in clinical trials: real world data 10:15 - 10:15

Sandra Laguna (Huesca, Spain)

Modified DiabetesSelf-management Education (DSME) for Prostate Cancer Patients with T2DM: A Pilot Clinical Trial 10:15 - 10:15

Amy L. Shaver (Philadelphia, United States)

Impact of a dedicated geriatric oncology tumor-board on therapeutic decision-making in patients aged 70 and over with cancer: the OncoBoardAge study 10:15 - 10:15

Motivation toward Nutrition among Older Cancer Patients in a Cluster Analysis and Ecological Momentary Assessment method 10:15 - 10:15

Impaired Intrinsic Capacity and its predictors among patients attending Geriatric Oncology clinic of Medical College and Hospital, Kolkata	10:15 - 10:15
Assessment of physical activity levels and functional rehabilitation needs in older patients undergoing systemic oncological treatment	10:15 - 10:15
Implications of vitamin D levels in elderly non-small cell lung cancer patients: A retrospective cohort analysis Elena Su (Liestal, Switzerland)	10:15 - 10:15
Metabolic dysfunction following treatment for prostate cancer Amy L. Shaver (Philadelphia, United States)	10:15 - 10:15
Impact of Age on Surgical Eligibility and Outcomes in Older Adults Undergoing Curative Treatment for Oesophagogastric Cancer	10:15 - 10:15
Patient and oncologist expectations of physical function among older adults with acute myeloid leukemia Marielle Jensen-Battaglia (Rochester, United States)	10:15 - 10:15
Development of an expedited pathway for accessing a personalized exercise program for older adults starting on cancer treatment: A quality improvement (QI) initiative Susie Monginot (Toronto, Canada)	10:15 - 10:15
Enhanced lung cancer clinic for older patients: One year experience improving its operational model at The Christie cancer centre Emine Cil (Manchester, United Kingdom)	10:15 - 10:15
Blood Tests Identify Expanded Eligibility and Prolonged Survival Across All Ages	10:15 - 10:15
Trends in Cancer Incidence Among the Elderly in Girona, Spain (2002-2021): Insights from an Age-Period-Cohort Study	10:15 - 10:15
Enhanced lung cancer clinic for older patients: One year experience improving clinical outcomes at The Christie cancer centre Emine Cil (Manchester, United Kingdom)	10:15 - 10:15
A Study of Comprehensive Geriatric Assessment, Chemotherapy-Associated Adverse events and Survival Outcomes in Geriatric Indian Cancer Patients Priyanka Srivastava (Ahmedabad, India)	10:15 - 10:15
Qualitative analysis of Participants' Interviews in a Supportive Care Trial of Geriatric Assessment and/or Remote Symptom Monitoring in Older Men with Advanced Prostate Cancer Soha Abdallah (Toronto, Canada)	10:15 - 10:15
Facilitating shared decision-making in geriatric oncology - an interprofessional multicenter pilot-study Heike Schmidt (Halle (Saale), Germany)	10:15 - 10:15
Management Challenges of Testicular Germ Cell Tumors in Patients Over 65: A Case Series Highlighting the Role of Geriatric Assessment in Guiding Chemotherapy Decisions Patrik Oláh (Bratislava, Slovakia)	10:15 - 10:15
Evaluating Patient Engagement and Outcomes: Tailored educational and interventional strategies in an exercise programme for geriatric oncology patients- a Plan Do Study Act (PDSA) approach Kaz Stoner (London, United Kingdom)	10:15 - 10:15
Comprehensive Analysis of Genomic and Transcriptomic	10:15 - 10:15

Landscapes in Elderly Non-Small Cell Lung Cancer in China: A Single-Center Retrospective Study	
Liu Dongying (Tianjin, China)	
Exploring Stereotactic Radiotherapy in Elderly Pancreatic Cancer Patients: A Safe and Effective Approach?	10:15 - 10:15
Nunzia Luna Valentina Cernusco (Verona, Italy)	
Dizziness and impaired postural balance in older patients receiving chemotherapy treatment - a systematic review and meta-analysis	10:15 - 10:15
Katrine Storm Piper (Copenhagen, Denmark)	
Serum thymidine kinase activity in older patients with HR-positive and HER2-negative advanced breast cancer treated with ribociclib and letrozole in the RibOB trial	10:15 - 10:15
Maxime Van Houdt (Leuven, Belgium)	
Comprehensive geriatric assessment predicts early death among older adults with newly diagnosed acute myeloid leukemia: Results from NCT05458258	10:15 - 10:15
Samuel Yates (Chicago, United States)	
Investigating the Demand for an Exercise Class for Older People with Cancer at Chelsea & Westminster Hospital NHS Trust	10:15 - 10:15
Feasibility and Predictive Utility of Implementing a Modified Practical Geriatric Assessment for Older Adults with Gastrointestinal Cancer	10:15 - 10:15
Kevin Chang (Los Angeles, United States)	
Integrating oncogeriatric principles into hematologic cancer care	10:15 - 10:15
Predicting Treatment Toxicity, Mortality, and Multidisciplinary Care Requirements in Older Patients with Cancer Undergoing Systemic Therapy: A Real-World Analysis	10:15 - 10:15
BASELINE ASSESSMENT OF QUALITY OF LIFE, TREATMENT TOXICITY, AND PROGNOSIS AMONG GERIATRIC PATIENTS WITH CANCER AT THE CANCER DISEASES HOSPITAL IN ZAMBIA	10:15 - 10:15
Mwando Fidelia Chitula (LUSAKA, Zambia)	
Using an Implementation Science Framework in Oncogeriatrics: A Case Report from Chile	10:15 - 10:15
Cardiotoxicity in older patients with HER2-positive early breast cancer undergoing neoadjuvant dual HER2 blockade and chemotherapy: A real-world cohort study	10:15 - 10:15
Ivânia Furtado (Lisbon, Portugal)	
Feasibility of using a triaxial accelerometer to assess physical activity (PA) in older adults with myeloid neoplasms (MNs): A single-arm pilot study	10:15 - 10:15
Marielle Jensen-Battaglia (Rochester, United States)	
From Frailty to Function: Monitoring-Based Isometric Training in Complex Geriatric Oncology	10:15 - 10:15
Perspectives of Dutch oncologists on the evaluation of frailty in the Netherlands: a qualitative study	10:15 - 10:15
Trishika Binda (Leiden, Netherlands)	
Age-related Outcomes of Liver Metastasectomy for Metastatic Colorectal Cancer: a Retrospective Analysis	10:15 - 10:15
Alexandra Guedes (Vila Nova de Gaia, Portugal)	
Engaging Oncology Nurses in Geriatric Screening: A Year-long	10:15 - 10:15

Implementation Project to Integrate Geriatric 8 Screening in Older Adults in Community Oncology Practices

Implementing a Structured Geriatric Oncology Pathway in Routine Cancer Care: Feasibility and Outcomes from a Swiss Pilot Project Kathrin Vollmer (Thun, Switzerland)	10:15 - 10:15
Pre-Existing Autoimmune Disease and Risk of Immune Checkpoint Inhibitor (ICI) Discontinuation in Older Adults with Melanoma Swapnil Sharma (Philadelphia, United States)	10:15 - 10:15
Stereotactic Ablative Body Radiotherapy (SABR) for localised renal cell carcinoma (RCC) in geriatric patients: A single centre review Pragya Khanal (London, United Kingdom)	10:15 - 10:15
Clinician Perspectives on a Novel Geriatric Assessment Tool for Older Adults with Cancer Moemin Rezk (Toronto, Canada)	10:15 - 10:15
Characterizing Goals-of-Care Discussions in Geriatric Oncology Clinic: A Retrospective Chart Review Nitzan Segal (Toronto, Canada)	10:15 - 10:15
Utility of the elderly prognostic index in predicting overall survival in older adults with diffuse large B-cell lymphoma: geriatric assessment in a Mexican tertiary hospital Claudia Graciela Morales-Olvera (Mexico City, Mexico)	10:15 - 10:15
Cognitive and Mobility Assessments as Predictors of Independence in Geriatric Oncology: A Focus on TUG Dr. Ankita Chitre (Mumbai, India)	10:15 - 10:15
Implementing a Geriatric Oncology Program in a Midsize Swiss Cancer Center: Feasibility and Early Results Deborah Wirth (Liestal, Switzerland)	10:15 - 10:15
Smartphone use to predict outcomes in elderly undergoing major oncologic procedures: the Smartph-old Test	10:15 - 10:15
Systemic anti-cancer treatment in older patients with sarcoma: the experience of St. Vincent's Sarcoma Network Ireland Hailey Carroll (Dublin, Ireland)	10:15 - 10:15
The impact of a 21-gene expression assay on the management and clinical outcomes of older women with node-negative, oestrogen-positive, early breast cancer Hailey Carroll (Dublin, Ireland)	10:15 - 10:15
Assessing the Clinical Frailty Scale's value in predicting unplanned hospitalisation and treatment modification in older adults receiving systemic anti-cancer treatment; a single centre cohort Catherine Hoare (London, United Kingdom)	10:15 - 10:15
SARCOPENIA IMPLICATIONS IN POST-OPERATIVE COLORECTAL CANCER SURGERY: A PRELIMINARY STUDY Nicolas M Gonzalez-Senac (Madrid, Spain)	10:15 - 10:15
Home-Based, Tele-Supervised Exercise Prehabilitation for Older Adults Undergoing HepatobiliaryTumor Resection: A Pilot Study Mohammed Al-Jumayli (Tampa, United States)	10:15 - 10:15
Unmet Symptom Management Needs and Underutilization of Community Healthcare Resources Among Chinese Older Adults with Cancer	10:15 - 10:15
Real world (RW) efficacy and toxicity of Ipilimumab	10:15 - 10:15

(ipi)/Nivolumab(nivo) plus chemotherapy for older patients (pts) with PD-L1 negative, advanced non-small cell lung cancer (aNSCLC)

Lore Decoster (Brussels, Belgium)

The Impact of Scheduling Complexities and Limited Human Resources in Geriatric Oncology Research	16:25 - 16:25
Improved survival through comprehensive geriatric assessment in older adults with myelodysplastic neoplasms and acute myeloid leukemia: a Latin American perspective Claudia Graciela Morales-Olvera (Mexico City, Mexico)	16:25 - 16:25
Comprehensive Geriatric Assessment (CGA) and Hematological Markers (HM) on 180-Day Survival in Older Adults with Colorectal Cancer (CRC): A Retrospective Cohort Study (RCS)	16:25 - 16:25
Teaching Geriatric Oncology to Medical Students: A Pilot Educational Intervention in Portugal Filipe Coutinho (Santo Tirso, Portugal)	16:25 - 16:25
Ovarian cancer in the elderly: A tertiary cancer experience Mikel Toquero (Barakaldo, Spain)	16:25 - 16:25
Comprehensive Geriatric Assessment (CGA) and Hematological Markers (HM) in Predicting 180-Day Mortality of Older Adults with Colorectal Cancer (CRC): A Machine Learning (ML) Approach	16:25 - 16:25
Breast cancer systemic anticancer treatment delivery in older patients and a stakeholder survey for implementing an oncogeriatric service - what are the easy wins? Ijeoma Onwuchekwa (London, United Kingdom)	16:25 - 16:25
Predicting the Risk of Death with New Indexes in Community-dwelling Elderly (PREDIC): development of new 5- and 10-year mortality prediction models Miruna Anohim (Montréal, Canada)	16:25 - 16:25
Radiation-induced lung and skin toxicity in young and aged mice Kyungmi Yang (Seoul, Korea, Republic of)	16:25 - 16:25
14 inferred information for clinicians from the documentation of ADL and IADL in geriatric oncology Valéry Antoine (Nîmes, France)	16:25 - 16:25
Geriatric assessment in patients aged 70 and over considered for CAR-T therapy: a descriptive study	16:25 - 16:25

Rachel Boisvert (Quebec, Canada)

Prognostic impact of geriatric assessment in acute myeloid leukemia patients treated with azacitidine-venetoclax 16:25 - 16:25

Andrea Ciccone (Nice, France)

Geriatric Oncology in Switzerland: Insights from a Nationwide Survey 16:25 - 16:25

Vérène Dougoud-Chauvin (Fribourg, Switzerland)

Overlap between frailty, malnutrition and probable sarcopenia among older patients with newly diagnosed multiple myeloma 16:25 - 16:25

Paula Sobrini-Morillo (Madrid, Spain)

Evaluation of digital inclusion as part of CGA for older people with cancer seen in a Geriatric Oncology Clinic - a quality improvement project 16:25 - 16:25

Sarah Compton (London, United Kingdom)

Depletion of SASP senescent cardiomyocytes with senolytic drugs conferred therapeutic effects in doxorubicin-related cardiotoxicity 16:25 - 16:25

Meng Hou (Shanghai, China)

E-warm model-based palliative care promotes QoL in driver-gene-negative advanced NSCLC: a LGCM approach 16:25 - 16:25

junhui zhang (Chongqing, China)

Geriatric Cancer in India 16:25 - 16:25

Shubha Maudgal (Mumbai, India)

Preferences Among Spanish Elderly Cancer Patients: A Prospective Study 16:25 - 16:25

A prospective Study of efficacy and safety of Ribociclib and Letrozole in first line in ≥ 70 years women with HR-positive advanced breast cancer: RibOB study 16:25 - 16:25

Maxime Van Houdt (Leuven, Belgium)

Ambulatory Falls in the Outpatient Population with Cancer: A Descriptive Project and Gap Analysis of Current Practice 16:25 - 16:25

Cassandra Vonnies (Tampa, United States)

Feasibility of online remote symptom monitoring for older patients receiving systemic cancer therapy (TS-PAC) 16:25 - 16:25

Mathilde Cabart (Bordeaux, France)

From MetaGENUA® to the "Modified MetaGENUA®": Improved Prognostic Stratification of One-Year Mortality in Elderly Cancer Patients 16:25 - 16:25

Development and Validation of a Modular Patient-Reported Outcome Measure for Postoperative Recovery Assessment in Lung Cancer (PRA_Lung) 16:25 - 16:25

CORRELATION BETWEEN 6 MINUTE WALK TEST (6MWT) AND 2 MINUTE WALK TEST (2MWT) IN ELDERS (≥ 60 YEARS) DIAGNOSED WITH MALIGNANCIES: CROSS-SECTIONAL PROSPECTIVE STUDY 16:25 - 16:25

Towards Precision Care: Integrating G8 and VES-13 Screening in Older Cancer Patients undergoing Radiation Therapy 16:25 - 16:25

mukul Roy (Mumbai, India)

Falls Among the Older Patients Treated for Cancer in Normandy's Outclinics: Screening and Prevention (CHUPACHOUP study) 16:25 - 16:25

Decision-Making in Cancer Treatment: Key Factors for Older Adults	16:25 - 16:25
How to analyze longitudinal patient-reported outcomes in populations with high mortality rates - A clinical example in older patients with cancer	16:25 - 16:25
Impact of skeletal muscle mass and density on postoperative outcomes among older patients following colorectal cancer resection Efthymios Papadopoulos (Baton Rouge, United States)	16:25 - 16:25
A wide variability in the identification and management of geriatric syndromes in a French and a British oncology settings, with inconsistent corrective interventions for frailty	16:25 - 16:25
An overview of the Geriatric and Palliative Care Clinic (CARE-Pall): A transformative model of integrative geriatric and palliative care Erin Stevens (Columbus, United States)	16:25 - 16:25
Bridging Research and Clinical Practice with the Center for Implementation Research in Cancer in Later Life (CIRCL) Kelly McConnell (New York, United States)	16:25 - 16:25
Impact of age and comorbidities on treatment outcomes in Non-Hodgkin Lymphoma: a monocentric real-life retrospective study Vérène Dougoud-Chauvin (Fribourg, Switzerland)	16:25 - 16:25
Redefining the use of a first-line FOLFIRINOX-like regimen in older adults with metastatic pancreatic cancer: updated analysis	16:25 - 16:25
Social Frailty Amongst Older Adults Living with Co-Morbid Cancer and Dementia, who are Receiving Radiotherapy. A Longitudinal Narrative Case Study Jennifer Woods (Salford, United Kingdom)	16:25 - 16:25
Older Adult Recipient of Allogeneic Haematopoietic Stem Cell Transplant - Prognostication of Geriatric Characteristics Lawrence Cheng Kiat Ng (Singapore, Singapore)	16:25 - 16:25
Evaluation of potentially inappropriate medications in older people with cancer hospitalized at the Latin American Cancer Center Rocio Quilodrán (Santiago, Chile)	16:25 - 16:25
Research on Understanding and Dissemination of Geriatric Assessment Ayako Doi (Sapporo, Japan)	16:25 - 16:25
The Impact of Ethnic Disparity on Treatment of Primary Breast Cancer in Older Women	16:25 - 16:25
Health-Related Quality of Life (HRQoL) in Older Patients with HER2-Positive Early Breast Cancer Treated with Chemotherapy and Anti-HER2 Therapy: an APHINITY Trial Sub-Group Analysis Ana Raquel Monteiro (Vila Nova de Gaia, Portugal)	16:25 - 16:25
The Impact of Geriatric Assessment on Therapeutic Planning in Hemato-Oncology at the Geriatric Clinic of Quebec	16:25 - 16:25
Interview survey to identify key factors for effective collaboration between medical and long-term care services in home care of older adults with cancer in Japan Ayumu Matsuoka (Tokyo, Japan)	16:25 - 16:25
Tai Chi Game of Psychological Resilience in Pancreatic Cancer Patients: Based on Grounded Theory	16:25 - 16:25

Active surveillance in basal cell carcinoma: experiences of patients and proxies Josje Mangnus (Nijmegen, Netherlands)	16:25 - 16:25
Implementing Geriatric Assessments using the Practical Geriatric Assessment in Older Adults being evaluated for Cellular Therapies at a Safety-Net Hospital Maya Abdallah (Boston, United States)	16:25 - 16:25
Geographic Disparities in Prostate Cancer MRI Utilization: The Role of MRI Provider Availability in Mitigating Rural and Regional Gaps Amy L. Shaver (Philadelphia, United States)	16:25 - 16:25
Survivorship Care Delivery for Older Patients with Cancer: An Evaluation of Community Oncology Clinics Enrolled in a Nationwide Trial in the United States Supriya Mohile (University of Rochester, United States)	16:25 - 16:25
Optimizing Cancer Care for Older Adults: The Impact of Embedded Occupational Therapy in the Cancer Older People's Service (COPS)	16:25 - 16:25
Understanding treatment decisions and cancer care for older Australians: a qualitative study Sharon He (Sydney, Australia)	16:25 - 16:25
<i>Early advance care planning; experiences of patients with the 'My CARE, now and later' conversation card at a geriatric outpatient clinic; a qualitative study</i> Jolanda Peijster (Utrecht, Netherlands)	16:25 - 16:25
Healthcare Professionals' Experiences Using the Outcome Prioritization Tool (OPT) to elicit patient preferences: A Qualitative Study	16:25 - 16:25
Discussing patient goals and preferences during decision-making with patients with head and neck cancer	16:25 - 16:25
Liquid Biopsy For Elderly Patients With Unresectable EGFR Mutant NSCLC With Different Patterns Of Frailty	16:25 - 16:25
Implicit Steering During Shared Decision-Making with Head and Neck Cancer Patients	16:25 - 16:25
Efficacy of a hybrid exercise program on falls and fear of falling in older adults with cancer: Results from a randomized controlled trial	16:25 - 16:25
Association of Balducci Geriatric Fitness Categorization with Overall Survival in Older Adults with Cancer: A Retrospective Cohort Study Ee Jin Poh (Singapore, Singapore)	16:25 - 16:25
HER2-low breast cancers in older women (≥70 years): biology and clinical outcome compared to younger patients (<70 years) Ines Tretter Alvarez de Arca (United Kingdom)	16:25 - 16:25
The role of locoregional anaesthesia in older women having surgery for breast cancer	16:25 - 16:25
Geriatric oncology in medical education: Optimising undergraduate curriculum design and implementation in the United Kingdom Je Ern Chooi (Nottingham, United Kingdom)	16:25 - 16:25
Implementation of the Practical Geriatric Assessment for Older Adults with Newly Diagnosed Glioblastoma	16:25 - 16:25

Kathryn Eszes (Rochester, United States)

Real-world tolerability and efficacy of CAPOX in older adults with gastrointestinal cancer 16:25 - 16:25

Exploring dynamic changes in geriatric assessments of older adults upon allogeneic hematopoietic stem cell transplantation: a pilot single-center prospective cohort study 16:25 - 16:25

Value elucidation in geriatric oncology care: a participatory development study on a dialogical instrument for clinical practice 16:25 - 16:25

Inpatient goals of care discussions amongst older adults with cancer 16:25 - 16:25

Sin Yee Yang (Singapore, Singapore)

MoCA vs. MMSE: which tool should be used to screen for cognitive impairment in geriatric oncology ? 16:25 - 16:25

Ilona Vieira Jales (Caen, France)

Quality of life and physical functioning of older patients treated with palliative chemotherapy for metastatic colorectal cancer: a population-based study 16:25 - 16:25

Trishika Binda (Leiden, Netherlands)

Onco-geriatric population included in clinical trials: real world data 16:25 - 16:25

Sandra Laguna (Huesca, Spain)

Modified DiabetesSelf-management Education (DSME) for Prostate Cancer Patients with T2DM: A Pilot Clinical Trial 16:25 - 16:25

Amy L. Shaver (Philadelphia, United States)

Impact of a dedicated geriatric oncology tumor-board on therapeutic decision-making in patients aged 70 and over with cancer: the OncoBoardAge study 16:25 - 16:25

Motivation toward Nutrition among Older Cancer Patients in a Cluster Analysis and Ecological Momentary Assessment method 16:25 - 16:25

Impaired Intrinsic Capacity and its predictors among patients attending Geriatric Oncology clinic of Medical College and Hospital, Kolkata 16:25 - 16:25

Assessment of physical activity levels and functional rehabilitation needs in older patients undergoing systemic oncological treatment 16:25 - 16:25

Implications of vitamin D levels in elderly non-small cell lung cancer patients: A retrospective cohort analysis 16:25 - 16:25

Elena Su (Liestal, Switzerland)

Metabolic dysfunction following treatment for prostate cancer 16:25 - 16:25

Amy L. Shaver (Philadelphia, United States)

Impact of Age on Surgical Eligibility and Outcomes in Older Adults Undergoing Curative Treatment for Oesophagogastric Cancer 16:25 - 16:25

Patient and oncologist expectations of physical function among older adults with acute myeloid leukemia 16:25 - 16:25

Marielle Jensen-Battaglia (Rochester, United States)

Development of an expedited pathway for accessing a personalized exercise program for older adults starting on cancer treatment: A quality improvement (QI) initiative 16:25 - 16:25

Susie Monginot (Toronto, Canada)

Enhanced lung cancer clinic for older patients: One year experience 16:25 - 16:25

improving its operational model at The Christie cancer centre Emine Cil (Manchester, United Kingdom)	
Blood Tests Identify Expanded Eligibility and Prolonged Survival Across All Ages	16:25 - 16:25
Trends in Cancer Incidence Among the Elderly in Girona, Spain (2002-2021): Insights from an Age-Period-Cohort Study	16:25 - 16:25
Enhanced lung cancer clinic for older patients: One year experience improving clinical outcomes at The Christie cancer centre Emine Cil (Manchester, United Kingdom)	16:25 - 16:25
A Study of Comprehensive Geriatric Assessment, Chemotherapy-Associated Adverse events and Survival Outcomes in Geriatric Indian Cancer Patients Priyanka Srivastava (Ahmedabad, India)	16:25 - 16:25
Qualitative analysis of Participants' Interviews in a Supportive Care Trial of Geriatric Assessment and/or Remote Symptom Monitoring in Older Men with Advanced Prostate Cancer Soha Abdallah (Toronto, Canada)	16:25 - 16:25
Facilitating shared decision-making in geriatric oncology - an interprofessional multicenter pilot-study Heike Schmidt (Halle (Saale), Germany)	16:25 - 16:25
Management Challenges of Testicular Germ Cell Tumors in Patients Over 65: A Case Series Highlighting the Role of Geriatric Assessment in Guiding Chemotherapy Decisions Patrik Oláh (Bratislava, Slovakia)	16:25 - 16:25
Evaluating Patient Engagement and Outcomes: Tailored educational and interventional strategies in an exercise programme for geriatric oncology patients- a Plan Do Study Act (PDSA) approach Kaz Stoner (London, United Kingdom)	16:25 - 16:25
Comprehensive Analysis of Genomic and Transcriptomic Landscapes in Elderly Non-Small Cell Lung Cancer in China: A Single-Center Retrospective Study Liu Dongying (Tianjin, China)	16:25 - 16:25
Exploring Stereotactic Radiotherapy in Elderly Pancreatic Cancer Patients: A Safe and Effective Approach? Nunzia Luna Valentina Cernusco (Verona, Italy)	16:25 - 16:25
Dizziness and impaired postural balance in older patients receiving chemotherapy treatment - a systematic review and meta-analysis Katrine Storm Piper (Copenhagen, Denmark)	16:25 - 16:25
Serum thymidine kinase activity in older patients with HR-positive and HER2-negative advanced breast cancer treated with ribociclib and letrozole in the RibOB trial Maxime Van Houdt (Leuven, Belgium)	16:25 - 16:25
Comprehensive geriatric assessment predicts early death among older adults with newly diagnosed acute myeloid leukemia: Results from NCT05458258 Samuel Yates (Chicago, United States)	16:25 - 16:25
Investigating the Demand for an Exercise Class for Older People with Cancer at Chelsea & Westminster Hospital NHS Trust	16:25 - 16:25
Feasibility and Predictive Utility of Implementing a Modified Practical Geriatric Assessment for Older Adults with	16:25 - 16:25

Gastrointestinal Cancer

Kevin Chang (Los Angeles, United States)

Integrating oncogeriatric principles into hematologic cancer care 16:25 - 16:25**Predicting Treatment Toxicity, Mortality, and Multidisciplinary Care Requirements in Older Patients with Cancer Undergoing Systemic Therapy: A Real-World Analysis** 16:25 - 16:25**BASELINE ASSESSMENT OF QUALITY OF LIFE, TREATMENT TOXICITY, AND PROGNOSIS AMONG GERIATRIC PATIENTS WITH CANCER AT THE CANCER DISEASES HOSPITAL IN ZAMBIA** 16:25 - 16:25

Recovery after major elective surgery in frail older adults: Preliminary results from the frail sub-study of the FIT After Surgery study Nicholas Legacy (Toronto, Canada)	16:25 - 16:25
Digital frailty screening for older adults with cancer: A digital screening to optimize resource allocation and improve efficiency Kjersti Korvald (Trondheim, Norway)	16:25 - 16:25
Exploring the Lived Experiences of Racialized Older Adults: Results from the NUANCE Study Hunter Johnson (Toronto, Canada)	16:25 - 16:25
Tailoring oncologic care through CGA: Multidisciplinary interventions across frailty groups in older adults with esophagogastric cancer Laura Ciero Salinas (Badalona, Spain)	16:25 - 16:25
An Assessment of Patient Feasibility and Usability of the Comprehensive Health Assessment for My Plan (CHAMP) Tool for Older Adults with Cancer Anjeline Bukhari (Toronto, Canada)	16:25 - 16:25
Effectiveness of the senior program to initiate and maintain	16:25 - 16:25

adaptive physical activity among older adults with cancer “IMAPAC-séniors”

A RETROSPECTIVE AUDIT OF PATTERNS OF BREAST CANCER RECURRENCE IN LOW-RISK POST MENOPAUSAL WOMEN 16:25 - 16:25

Longitudinal assessment of Quality of Life in older Indian women with breast cancer 16:25 - 16:25

Shivani Sable (Mumbai, India)

Is SCreening of the Older PErson with Cancer (SCOPE-C) a better scale for geriatric assessment in cancer patients? - A real-world experience from South India 16:25 - 16:25

Rejiv Rajendranath (Chennai, India)

Patient navigation program for older people with cancer living at home and their family in Europe: The Horizon Europe-funded EU NAVIGATE Project 16:25 - 16:25

Fien Van Campe (Brussels, Belgium)

Assessment of frailty using two different tools in older cancer patients treated at a tertiary geriatric care hospital from South India 16:25 - 16:25

Vinodh Kumar Selvaraj (Chennai, India)

Need and uptake of Geriatric Assessment-guided interventions in older Indian patients with cancer 16:25 - 16:25

TRAJECT - Uncovering shared and specific experiences in end-of-life trajectories of older people living with different types of cancer 16:25 - 16:25

A Phase 3 RCT evaluating impact of cognitive and exercise intervention to prevent cognitive decline in older cancer patients on systemic therapy ; Feasibility analysis 16:25 - 16:25

Anupa Pillai (Mumbai, India)

Pre- and post-radiation therapy quality of life in geriatric cancer patients 16:25 - 16:25

Insights into Supportive Care (SC) Services provided to Older vs. Younger Adults with Lung Cancer treated at The Ohio State University Comprehensive Cancer Center 16:25 - 16:25

Hazel Antao (Columbus, United States)

Implementation of Comprehensive Geriatric Assessment (CGA) in a geriatric tertiary care hospital from South India - A real world experience 16:25 - 16:25

Rejiv Rajendranath (Chennai, India)

Using daily PROs to track functional recovery of older patients undergoing minimally invasive surgery for lung cancer 16:25 - 16:25

Does oncogeriatric screening tool (OST) predict survival in older patients with metastatic colorectal cancer (mCRC)? 16:25 - 16:25

Role of the Comprehensive Geriatric Assessment in Predicting Radiation-Induced Toxicity in Older Adults with Cancer 16:25 - 16:25

Celia Gabriela Hernandez Favela (Toronto, Canada)

Management of older cancer patients in a high volume Center with onco-geriatric service: pattern of referrals and outcomes 16:25 - 16:25

Experiences of interventional radiologists in the planning, execution and follow up of TAE and TACE for the local control of hepatocarcinoma in older adults 16:25 - 16:25

Rafael Correa-Cano (Ciudad de México, Mexico)

Tolerability of Doublet Therapy in Elderly (≥ 75 years) with Metastatic Prostate Cancer: A Single Centre Experience study M Amir Nadzif Noor Azman (DUBLIN, Ireland)	16:25 - 16:25
Associations between a deficit accumulation electronic frailty index and fatigue with overall survival in a prospective cohort of colorectal cancer patients: Differences by age Sheetal Hardikar (Salt Lake City, United States)	16:25 - 16:25
Use of ward-based acute geriatric rehabilitation to enable older in-patients with cancer to receive outpatient oncological treatment after hospital discharge	16:25 - 16:25
Enhancing Multidisciplinary Geriatric Cancer Care: An Update on a Patient Navigation (PN) Led - Systematic Screening Initiative Among Older Adults with Cancer Madison Grogan (Columbus, United States)	16:25 - 16:25
The Impact of Geriatric Assessment on Decision-Making in Older Adults with Cancer Prior to Surgery	16:25 - 16:25
The GERHOQ-study: Determinants of Survival and Treatment Pathways in Hemato-Oncology in older patients Tessa Kuijpers (Utrecht, Netherlands)	16:25 - 16:25
The Care at Home Model for Older Adults Undergoing Major Oncological Surgery Steve Kwon (Providence, United States)	16:25 - 16:25
Cancer-Related Fatigue (CRF) in Older Adults undergoing Systemic Anti-Cancer Treatment (SACT): Findings from Occupational Therapy (Senior Adult Oncology Programme) Jane Murphy (London, United Kingdom)	16:25 - 16:25
External Validation of the HEMA-4 score: a simple Clinico-Biological Tool to identify Frailty in Clinically Fit Older Patients with Hematological Malignancies Vincent Thibaud (Lille, France)	16:25 - 16:25
What are the non-physical activity benefits of exercise and nutrition interventions in older adults with cancer? A SIOG Taskforce systematic review Frank Cornélis (Brussels, Belgium)	16:25 - 16:25
From Diagnosis to Decision: The Impact of a Joint Geriatric-Oncology Clinic in Lung Cancer Care	16:25 - 16:25
Handgrip strength and risk of severe chemotherapy toxicity in a sample of geriatric Mexican cancer patients: A descriptive study	16:25 - 16:25
Integration of geriatric assessment and management recommendations for older adults with non-small cell lung cancer (NSCLC) receiving chemotherapy/radiation treatment (GAM-CRT): A preliminary analysis Carolyn Presley (Columbus, United States)	16:25 - 16:25
Development of a medication review intervention in ambulatory older adults with cancer	16:25 - 16:25
Geriatric assessment in oncology: knowledge and clinical practices among oncologists in Morocco	16:25 - 16:25
Impact of frailty and sarcopenia on health-related quality of life in older adults with cancer: results from a prospective oncogeriatric cohort Armando Pardo-Gómez (Madrid, Spain)	16:25 - 16:25

Allostatic load, multimorbidity, and overall and cancer-specific survival among U.S. adults ≥ 60 years in the National Health and Nutrition Examination Survey (NHANES)	16:25 - 16:25
Sheetal Hardikar (Salt Lake City, United States)	
Evaluation of older patients' experience in a joint oncogeriatric consultation for lung cancer	16:25 - 16:25
Anna Ibáñez-Porcar (Barcelona, Spain)	
Re-evaluation of frailty is necessary between neoadjuvant chemotherapy and surgery in Esophageal Cancer Patients	16:25 - 16:25
Desiree Steimer (United States)	
<i>Is the G8 Enough? Unmasking Hidden Frailty in Older Adults with Lung Cancer through CGA</i>	16:25 - 16:25
Evaluating the Role of PFFS in Predicting Outcomes in High Stress Thoracic Surgeries	16:25 - 16:25
Desiree Steimer (United States)	
Trastuzumab-induced cardiotoxicity in older adults with breast cancer: a single-center experience	16:25 - 16:25
Association of cancer cachexia with loss of functionality, sarcopenia, and loss of physical performance in older adults with cancer	16:25 - 16:25
Olga Laura Sena Almeida (São Paulo, Brazil)	
Age-Related Differences in Cancer Patients Referred to Palliative Care: A Comparative Study of Adults Aged <70 and ≥ 70 Years	16:25 - 16:25
Screening and Management of Pulmonary Nodules in Nonagenarians: Application of Artificial Intelligence in Geriatric Oncology Aligned with Choosing Wisely Principles	16:25 - 16:25
Therapeutic Decision-Making in Older Adults with Cancer: Concordance between Geriatric Assessment and Interdisciplinary Teams	16:25 - 16:25
Malnutritional Risk Status Predicts Outcomes of Older Malignant Pleural Mesothelioma patients in a Mexican Cohort	16:25 - 16:25
EXPERIENCE OF RADIOTHERAPY WITH GERIATRIC ASSESSMENT IN OCTOGENARIAN (80-89 AGE GROUP) CANCER PATIENTS	16:25 - 16:25
Prognostic Value of NCASs in Older Adults with Cancer: A Retrospective Single Institutional Study	16:25 - 16:25
Treatment preferences - Senior Citizen with cancer (on behalf of Asian Geriatric Oncology Society)	16:25 - 16:25
Addressing the needs and concerns of older persons facing cancer diagnosis: A reflexive thematic analysis to inform co-design of a centralized cancer diagnosis program	16:25 - 16:25
Fay Strohschein (Calgary, Canada)	
Impact of Geriatric Intervention and Prehabilitation in Patients Over 70 With Frailty for the Optimization of Oncologic Treatment	16:25 - 16:25
Impact of the Integrated Oncological Decision-Making Model (IODM) on health outcomes and healthcare costs in elderly patients with lower gastrointestinal tumors	16:25 - 16:25
Christiaan Kramer (Groningen, Netherlands)	
The Edmonton Frail Scale as a Predictor of Chemotherapy-Related Adverse Events in Elderly Cancer Patients	16:25 - 16:25

Natacha Mourão (Vila Real, Portugal)

Immunotherapy in older patients with advanced melanoma: treatment response and toxicities 16:25 - 16:25

Catarina Relvas (Lisbon, Portugal)

Nursing involvement in cancer treatment decision making among older adults: A scoping review 16:25 - 16:25

Treatment Approaches and Survival Outcomes in Older Breast Cancer Patients: A Hong Kong-UK Comparison 16:25 - 16:25

Wing Lok Chan (Hong Kong, Hong Kong)

EFFECT OF GANTRY ROTATION AND DOSE RATE ON BLADDER VOLUME IN GERIATRIC PROSTATE CANCER RADIOTHERAPY 16:25 - 16:25

Evaluation of Baseline Geriatric Syndromes, Quality of Life, and Mortality in Older Patients with Prostate Cancer Treated with Enzalutamide at an Oncological Center in Chile 16:25 - 16:25

Rocio Quilodrán (Santiago, Chile)

Towards person-centred, age friendly care: The development of an Optimal Care Pathway for older adults with cancer as part of the Australian Cancer Plan (ACP) 16:25 - 16:25

Christopher Steer (Albury, Australia)

Self-Geriatric 8 (S-G8) frailty assessment in gastrointestinal (GI) oncology outpatients 16:25 - 16:25

Baseline Nutritional status, its association with psycho-social and functional domains and survival in older adults with cancer in India 16:25 - 16:25

Joyita Banerjee (New Delhi, India)

High Patient Satisfaction with Telehealth-Based Geriatric Assessment-Directed Supportive Care Intervention (GAIN-S) in a Resource-Limited Community 16:25 - 16:25

Integrating geriatric oncology into trainee-led NHS quality improvement: Use of Rockwood Clinical Frailty Score in gastrointestinal Cancer MDT in the United Kingdom 16:25 - 16:25

Tin Nam Tina Ko (Bristol, United Kingdom)

High Myeloid Clonality Rate Predicts Resistance to Immune Checkpoint Blockers in Non-Small Cell Lung Cancer 16:25 - 16:25

Impact of Proactive Support on Systemic Anti-Cancer Therapy (SACT) Completion Rates in a Frail Cancer Population 16:25 - 16:25

Hannah Lakeman (Plymouth, United Kingdom)

Integrating Geriatric Assessment into the Gynecologic Tumor Board: A Descriptive Study from a University Hospital 16:25 - 16:25

Nelida Fernandez Fernandez (Madrid, Spain)

A cross-sectional profile of the burden of frailty in older adults initiating systemic anticancer therapy at a regional cancer centre 16:25 - 16:25

Elizabeth Meade (Tullamore, Ireland)

Risk of toxicity in elderly people undergoing chemotherapy 16:25 - 16:25

Rianne Lira (São Paulo, Brazil)

Toxicity of chemotherapy in elderly patients with colorectal cancer: analysis of hospital case series 16:25 - 16:25

Hilda Marta (Vila Real, Portugal)

Implementation and evaluation of the s-G8 patient reported frailty assessment in an oncology outpatient department 16:25 - 16:25

Henry Maynard (Leeds, United Kingdom)

**Therapeutic Decision-Making in Older Adults with Cancer:
Concordance between Geriatric Assessment and Interdisciplinary
Teams**

16:25 - 16:25

Amanda Lisboa (São Paulo, Brazil)

**Apalutamide in nonmetastatic castration-resistant prostate cancer:
a center's experience**

16:25 - 16:25

Poster walk

16:25 - 16:55

PW

PW-04 - Treviso Poster walk

Plenary session

17:00 - 18:00
